Politics Of Minority Coalitions Race Ethnicity And Shared Uncertainties:

The Politics of Minority Coalitions Wilbur C. Rich, 1996-11-25 This important new volume analyzes relations among America's minority groups specifically the prospects of political coalitions among those usually unrelated groups African Americans Asian Americans Latinos Jews Arab Americans and Native Americans At the end of the 20th century the United States is faced with a situation where minority groups are no longer assimilating but rather are moving toward separate mini societies complete with separate languages cultures and economies Even if society accepts the notion that cultural pluralism is consistent with democratic principles the possibility of political hyperpluralism endless and nonproductive conflicts among groups is disturbing This volume therefore attempts to address the concerns examining the background of minority organizations voting behavior issues and coalitional possibilities This volume will be of interest to scholars and students alike in American government and ethnic and minority politics

Forging Radical Alliances Across Difference Jill M. Bystydzienski, Steven P. Schacht, 2001 As we enter the twenty first century scholars activists and others concerned with social change increasingly realize that in order to transform society effective coalitions among different groups working for social justice need to be created and maintained However most of the research and writing about coalitions provide rather limited approaches to the study and understanding of radical alliances i.e. coalitions whose goals are to fundamentally change interpersonal relations and social structure in order to achieve equality and true social justice This anthology challenges dominant approaches of explaining social movements and coalition building Based on numerous case studies of alliances created between disparate peoples and among a variety of groups the authors show that both resource mobilization theories and identity politics frameworks for the most part are inadequate for conceptualizing how alliances have been and can be created across boundaries of gender race ethnicity class nationality ideology sexual orientation and age The theoretical approach we propose suggests that coalitions are fluid sites of collective behavior where the blending of multiple identities with political activism interact with structural conditions to influence the development of commitments strategies and specific actions This analogy makes a contribution to a body of knowledge that aims to understand and explain how radical coalitions work in order to enable the development of visions and plans for change that advance and sustain political and social activity

Wright Austin, 2018-03-01 Examines the continuing ethnic diversification of black America and its impact on black political empowerment In *The Caribbeanization of Black Politics* Sharon D. Wright Austin explores the impact of ethnic diversification of African American communities on the prospects for black political empowerment Focusing on Boston Chicago Miami and New York City cities that for the last several years have experienced an influx of black immigrants she surveyed more than two thousand African Americans Cape Verdeans Haitians and West Indians Although many studies conclude that African American group consciousness causes them to participate in politics at higher rates when socioeconomic status is controlled for Wright Austin analyzes whether this is true for other

black groups She assesses the current political incorporation of these groups by looking at data on public officeholders and by examining political coalitions and conflicts among the groups and she also discusses the possible future of black political development in these cities The greatest contribution of this book is its analysis of black ethnics in a diverse geographic space Moving beyond the New York City lens to Boston Chicago and Miami is something that has never been done in political science This book is incredibly important Christina M Greer author of *Black Ethnics Race Immigration and the Pursuit of the American Dream* *Black and Multiracial Politics in America* Yvette Marie Alex-Assensoh, Lawrence J. Islamophobia and Racism in America Erik Love, 2017-05-23 Choice Top Book of 2017 Confronting and combating Islamophobia in America Islamophobia has long been a part of the problem of racism in the United States and it has only gotten worse in the wake of shocking terror attacks the ongoing refugee crisis and calls from public figures like Donald Trump for drastic action As a result the number of hate crimes committed against Middle Eastern Americans of all origins and religions have increased and civil rights advocates struggle to confront this striking reality In *Islamophobia and Racism in America* Erik Love draws on in depth interviews with Middle Eastern American advocates He shows that rather than using a well worn civil rights strategy to advance reforms to protect a community affected by racism many advocates are choosing to bolster universal civil liberties in the United States more generally believing that these universal protections are reliable and strong enough to deal with social prejudice In reality Love reveals civil rights protections are surprisingly weak and do not offer enough avenues for justice change and community reassurance in the wake of hate crimes discrimination and social exclusion A unique and timely study *Islamophobia and Racism in America* wrestles with the disturbing implications of these findings for the persistence of racism including Islamophobia in the twenty first century As America becomes a majority minority nation this strategic shift in American civil rights advocacy signifies challenges in the decades ahead making Love s findings essential for anyone interested in the future of universal civil rights in the United States

[Voting Rights on Trial](#) Charles L. Zelden, 2002-01-11 Explores and documents the causes and effects of the long history of vote denial on American politics culture law and society The debate over who can and cannot vote has been on trial since the American Revolution Throughout U S history the franchise has been awarded and denied on the basis of wealth status gender ethnicity and race Featuring a unique mix of

analysis and documentation Voting Rights on Trial illuminates the long slow and convoluted path by which vote denial and dilution were first addressed and then defeated in the courts Four narrative chapters survey voting rights from colonial times to the 2000 presidential election focus on key court cases and examine the current voting climate The volume includes analysis of voting rights in the new century and their implications for future electoral contests The coverage concludes with selections of documents from cases discussed relevant statutes and amendments and other primary sources **Remaking Radicalism** Dan Berger,Emily K. Hobson,2020-10-01 This book brings together documents from multiple radical movements in the recent United States from 1973 through 2001 These years are typically viewed as an era of neoliberalism dominated by conservative retrenchment the intensified programs of privatization and incarceration dramatic cuts to social welfare and the undermining of labor antiracist and feminist advances Yet activists from the period proved tenacious in the face of upheaval resourceful in creating new tactics and dedicated to learning from one another Persistent and resolute activists did more than just keep radical legacies alive They remade radicalism bridging differences of identity and ideology often assumed to cleave movements grappling with the eradication of liberal promises and turning to movement cultures as the source of a just future Remaking Radicalism is the first anthology of U S radicalisms that reveals the depth diversity and staying power of social movements after the close of the long 1960s Editors Dan Berger and Emily Hobson track the history of popular struggles during a time that spans the presidencies of Richard Nixon and George W Bush and bring to readers the political upheavals that shaped the end of the century and that continue to define the present **American Muslim Women** Jamillah Karim,2009 Focusing on women who sometimes move outside of their ethnic Muslim spaces and interact with other Muslim ethnic groups in search of gender justice this ethnographic study of African American and South Asian immigrant Muslims in Chicago and Atlanta explores how Islamic ideas of racial harmony and equality create hopeful possibilities in an American society that remains challenged by race and class inequalities Page 4 of cover *Awash In The Mainstream* Rodolfo O. de la Garza,2019-03-08 We would like to thank a number of campaign professionals and observers who shared their experiences and insights with us during and after the 1996 campaign Without these practical and nuanced insights we would not be able to present as complete a portrait of the election and the Latino contribution to its outcome Our thanks to Ronald Blackburn Moreno Rita Di Martino Maria Echaveste Charles Kamasaki Ken Mireles Norma Patif l o Lippe Jason Poblete Jorge Ramirez Margaret Ramos Nelson Reineri and Jonathan Tilove **Citizens but Not Americans** Nilda Flores-González,2017-10-03 An exploration of how race shapes Latino millennials notions of national belonging Latino millennials constitute the second largest segment of the millennial population By sheer numbers they will inevitably have a significant social economic and political impact on U S society Beyond basic demographics however not much is known about how they make sense of themselves as Americans In Citizens but Not Americans Nilda Flores Gonz lez examines how Latino millennials understand race experience race and develop notions of belonging Based on nearly one hundred interviews Flores

Gonzalez argues that though these young Latinos are U.S. citizens by birth they do not feel they are part of the American project and are forever at the margins looking in. The book provides an inside look at how characteristics such as ancestry, skin color, social class, gender, language, and culture converge and shape these youths' feelings of belonging as they navigate everyday racialization. The voices of Latino millennials reveal their understanding of racialization along three dimensions: as an ethnic race, as a racial middle, and as real Americans. Using familiar tropes, these youths contest the othering that negates their Americanness while constructing notions of belonging that allow them to locate themselves as authentic members of the American national community. Challenging current thinking about race and national belonging, *Citizens but Not Americans* significantly contributes to our understanding of the Latino millennial generation and makes a powerful argument about the nature of race and belonging in the U.S.

Public Opinion Barbara A. Bardes, Robert W. Oldendick, 2016-03-14 The fifth edition of *Public Opinion: Measuring the American Mind* provides a comprehensive, accessible introduction to public opinion in the United States and describes how public opinion data are collected, how they are used, and the role they play in the U.S. political system. Bardes and Oldendick introduce students to the history of polling and explain the factors a good consumer of polls should know in order to critically evaluate public opinion data. *Public Opinion: Measuring the American Mind* is the only text to devote significant space to the history of polling, the use of polling in America today, and to explain the methods used for survey research. In addition, the authors engage students by providing in-depth coverage of public opinion on such issues as political ideology, health care, race, and foreign policy, as well as an update and discussion of the major changes that have taken place on controversial issues such as gay marriage, gun control, and immigration. Updated to include the latest data from the American National Election Study and the General Social Surveys in 2012 and 2014, this lively, engaging text combines a comprehensive grounding in the nuts and bolts of the field with relevant, real-world examples.

Democracy at Risk Stephen Macedo, 2006-05-25 Voter turnout was unusually high in the 2004 U.S. presidential election. At first glance, that level of participation, largely spurred by war in Iraq and a burgeoning culture war at home, might look like vindication of democracy. If the recent past is any indication, however, too many Americans will soon return to apathy and inactivity. Clearly, all is not well in our civic life. Citizens are participating in public affairs too infrequently, too unequally, and in too few venues to develop and sustain a robust democracy. This important new book explores the problem of America's decreasing involvement in its own affairs. *Democracy at Risk* reveals the dangers of civic disengagement for the future of representative democracy. The authors, all eminent scholars, undertake three main tasks: documenting recent trends in civic engagement; exploring the influence that the design of political institutions and public policies have had on those trends; and recommending steps that will increase the amount and quality of civic engagement in America. The authors focus their attention on three key areas: the electoral process, including elections and the way people get involved; the impact of location, including demographic shifts and changing development patterns; and the critical role of nonprofit organizations and

voluntary associations including the philanthropy that help keep them going This important project initially sponsored by the American Political Science Association tests the proposition that social science has useful insights on the state of our democratic life Most importantly it charts a course for reinvigorating civic participation in the world's oldest democracy The authors Stephen Macedo Princeton University Yvette Alex Assensoh Indiana University Jeffrey M Berry Tufts Michael Brintnall American Political Science Association David E Campbell Notre Dame Luis Ricardo Fraga Stanford Archon Fung Harvard William
