**The Politics of Multiracialism** Heather M. Dalmage, 2004-06-23 A provocative analysis of current thought and discourse on multiracialism

*The Politics of Multiracialism* Heather M. Dalmage, 2012-02-01 This is the first book to critically look at the political issues and interests surrounding the broadly defined Multiracial Movement and at what is being said about multiracialism Many of the multiracial family organizations that exist across the United States developed socially ideologically and politically during the conservative Reagan years While members of the Multiracial Movement differ widely in their political views the concept of multiracialism has been taken up by conservative politicians in ways that are often inimical to the interests of traditionally defined minorities Contributors look at the Multiracial Movement's voice and at the political controversies that attend the notion of multiracialism in academic and popular literature internet discourse census debates and discourse by and about pop culture celebrities The work discusses how multiracialism hybridity and racial mixing have occurred amidst existing academic discussions of authenticity community borders identity politics the social construction of race and postmodern fragmentation How the Multiracial Movement is shaping and transforming collective multiracial identities is also explored

*Multiracial Identity and Racial Politics in the United States* Natalie Masuoka, 2017-08-30 While pundits point to multiracial Americans as new evidence of a harmonious ethnic melting pot in reality mixed race peoples have long existed in the United States Rather than characterize multiracial Americans as a new population this book argues that instead we should view them as individuals who reflect a new culture of racial identification Today identities such as biracial or swirlies are evoked alongside those more established racial categories of white black Asian and Latino What is significant about multiracial identities is that they communicate an alternative viewpoint about race that a person's preferred self identification should be used to define a person's race Yet this definition of race is a distinct contrast to historic norms which has defined race as a category assigned to a person based on certain social rules which emphasized things like phenotype being one drop of African blood or heritage In *Multiracial Identity and Racial Politics in the United States* Natalie Masuoka catalogues how this cultural shift from assigning race to perceiving race as a product of personal identification came about by tracing events over the course of the twentieth century Masuoka uses a variety of sources including in depth interviews public opinion surveys and census data to understand how certain individuals embrace the agency of self identification and choose to assert multiracial identities At the same time the book shows that the meaning and consequences of multiracial identification can only be understood when contrasted against those who identify as white black Asian or Latino An included case study on President Barack Obama also shows how multiracial identity narratives can be strategically used to reduce anti black bias among voters Therefore rather than looking at multiracial Americans as a harbinger of dramatic change for American race relations this *Multiracial Identity and Racial Politics in the United States* shows that narratives promoting multiracial identities are in direct dialogue with rather than in replacement of the

longstanding racial order      Shades of Gray Molly Littlewood McKibbin, 2018-12-01 2019 Choice Outstanding Academic Title In *Shades of Gray* Molly Littlewood McKibbin offers a social and literary history of multiracialism in the twentieth century United States. She examines the African American and white racial binary in contemporary multiracial literature to reveal the tensions and struggles of multiracialism in American life through individual consciousness, social perceptions, societal expectations, and subjective struggles with multiracial identity. McKibbin weaves a rich sociohistorical tapestry around the critically acclaimed works of Danzy Senna *Caucasia* 1998, Rebecca Walker *Black White and Jewish Autobiography of a Shifting Self* 2001, Emily Raboteau *The Professor's Daughter* 2005, Rachel M. Harper *Brass Ankle Blues* 2006, and Heidi Durrow *The Girl Who Fell from the Sky* 2010. Taking into account the social history of racial classification and the literary history of depicting mixed race, she argues that these writers are producing new representations of multiracial identity. *Shades of Gray* examines the current opportunity to define racial identity after the civil rights, black power, and multiracial movements of the late twentieth century changed the sociopolitical climate of the United States and helped revolutionize the racial consciousness of the nation. McKibbin makes the case that twenty-first century literature is able to represent multiracial identities for the first time in ways that do not adhere to the dichotomous conceptions of race that have until now determined how racial identities could be expressed in the United States.

**What Was Multiculturalism?** Vijay Mishra, 2012-01-02 *What Was Multiculturalism* is a timely account of a socio-political theory that has featured in public debate in the West for the past forty years. The book is both a compendium as well as a critique of multicultural theory in its diverse forms from the politics of recognition, consensus, tolerance, and the need for an inclusive community to questions about the moral order, the invasive force of religious absolutism, and the spectres of racism, injustice, and scapegoating. Through a series of critical reflections, Mishra offers a detached, honest, bold, and uncompromised reading of some of the most influential texts on multiculturalism with a view to establishing the historical moments in the field.

Identity Politics of Difference Michelle Montgomery, 2017-10-01 In *Identity Politics of Difference*, author Michelle R. Montgomery uses a multidisciplinary approach to examine questions of identity construction and multiracialism through the experiences of mixed-race Native American students at a tribal school in New Mexico. She explores the multiple ways in which these students navigate experience and understand their racial status and how this status affects their educational success and social interactions. Montgomery contextualizes students' representations of their racial identity choices through the compounded race politics of blood quantum and stereotypes of physical features, showing how varying degrees of Indianness are determined by peer groups. Based on in-depth interviews with nine students who identify as mixed-race Native American, White Native American, Black, and Native American Hispanic, Montgomery challenges us to scrutinize how the category of

mixed race bears different meanings for those who fall under it based on their outward perceptions including their ability to pass as one race or another Identity Politics of Difference includes an arsenal of policy implications for advancing equity and social justice in tribal colleges and beyond and actively engages readers to reflect on how they have experienced the identity politics of race throughout their own lives The book will be a valuable resource to scholars policy makers teachers and school administrators as well as to students and their families

**The Souls of Mixed Folk** Michele Elam,2011-02-21 The Souls of Mixed Folk examines representations of mixed race in literature and the arts that redefine new millennial aesthetics and politics Focusing on black white mixes Elam analyzes expressive works novels drama graphic narrative late night television art installations as artistic rejoinders to the perception that post Civil Rights politics are bereft and post Black art is apolitical Reorienting attention to the cultural invention of mixed race from the social sciences to the humanities Elam considers the creative work of Lezley Saar Aaron McGruder Nate Creekmore Danzy Senna Colson Whitehead Emily Raboteau Carl Hancock Rux and Dave Chappelle All these writers and artists address mixed race as both an aesthetic challenge and a social concern and together they gesture toward a poetics of social justice for the mulatto millennium The Souls of Mixed Folk seeks a middle way between competing hagiographic and apocalyptic impulses in mixed race scholarship between those who proselytize mixed race as the great hallelujah to the race problem and those who can only hear the alarmist bells of civil rights destruction Both approaches can obscure some of the more critically astute engagements with new millennial iterations of mixed race by the multi generic cohort of contemporary writers artists and performers discussed in this book The Souls of Mixed Folk offers case studies of their creative work in an effort to expand the contemporary idiom about mixed race in the so called post race moment asking how might new millennial expressive forms suggest an aesthetics of mixed race And how might such an aesthetics productively reimagine the relations between race art and social equity in the twenty first century

**Red and Yellow, Black and Brown** Joanne L. Rondilla,Rudy P. Guevarra,Paul Spickard,2017-07-03 Red and Yellow Black and Brown gathers together life stories and analysis by twelve contributors who express and seek to understand the often very different dynamics that exist for mixed race people who are not part white The chapters focus on the social psychological and political situations of mixed race people who have links to two or more peoples of color Chinese and Mexican Asian and Black Native American and African American South Asian and Filipino Black and Latino a and so on Red and Yellow Black and Brown addresses questions surrounding the meanings and communication of racial identities in dual or multiple minority situations

and the editors highlight the theoretical implications of this fresh approach to racial studies      The Boundaries of Mixedness  
 Erica Chito Childs, 2021-05-13 *The Boundaries of Mixedness* tackles the burgeoning field of critical mixed race studies bringing together research that spans five continents and more than ten countries Research on mixedness is growing yet there is still much debate over what exactly mixed race means and whether it is a useful term Despite a growing focus on and celebration of mixedness globally particularly in the media societies around the world are grappling with how and why crossing socially constructed boundaries of race ethnicity and other markers of difference matter when considering those who date marry raise families or navigate their identities across these boundaries What we find collectively through the ten studies in this book is that in every context there is a hierarchy of mixedness both in terms of intimacy and identity This hierarchy of intimacy renders certain groups as more or less marriable socially constructed around race ethnicity caste religion skin color and or region Relatedly there is also a hierarchy of identities where certain races languages ethnicities and religions are privileged and valued differently These differences emerge out of particular local histories and contemporary contexts yet there are also global realities that transcend place and space *The Boundaries of Mixedness* is a significant new contribution to mixed race studies for academics researchers and advanced students of Ethnic and Racial Studies Sociology History and Public Policy This book was originally published as a special issue of the *Journal of Intercultural Studies*

**Mixed Race Amnesia** Minelle Mahtani, 2014-11-10 *Mixed Race Amnesia* is an ambitious and critical look at how multiraciality is experienced in the global north Drawing on a series of interviews acclaimed geographer Minelle Mahtani explores some of the assumptions and attitudes people have around multiraciality She discovers that in Canada at least people of mixed race are often romanticized as being the embodiment of a post racial future an ideal that is supported by government policy and often internalized by people of mixed race As Mahtani reveals this superficial celebration of multiraciality is often done without any acknowledgment of the freight and legacy of historical racisms Consequently a strategic and collective amnesia is taking place one where complex diasporic and family histories are being lost while colonial legacies are being reinforced Mahtani argues that in response a new anti colonial approach to multiraciality is needed and she equips her readers with the analytical tools to do this      Mixed Heritage in the Family  
 Carolyn Liebler, Miri Song, 2025-05-15 As interracial unions and multiracial people become more common in the United States mixed heritage people have come to be regarded by some as a bellwether of race relations in the country Is the growth of this population a sign that we are now in a post racial era and our racial identities no longer impact our daily lives In *Mixed Heritage in the Family* sociologists Carolyn A Liebler and Miri Song explore how racially mixed people navigate racial boundaries as they choose spouses and raise families Liebler and Song break new ground by being the first to combine and integrate the study of three aspects of life for people of mixed racial heritage identity spouse choice and childrearing This integrated approach reveals how complicated racial identification can be and how it can be expressed in one's choice of

partner or in how one raises their children The authors draw on census data and interviews with Asian White Black White and American Indian Alaska Native White mixed people to better understand how their identity choices are related to their choice of spouse and how they racially identify and raise their children Increasingly mixed people in the United States are identifying with multiple races However the authors find that mixed race people are not a monolith and that how and why they identify varies considerably between and within each group They found several common factors that influenced whether mixed race people choose to identify as biracial solely White or solely as a racial minority These factors include the history of the specific minority race in the U S the racial demographics of where they were raised their social and cultural exposure to their White and non White backgrounds their attachment to their racial backgrounds and how they are seen racially by others The way mixed heritage people identify was closely tied to the race of their spouse However having a White spouse did not necessarily mean the mixed race person felt disconnected from their non White heritage White spouses varied in their racial consciousness and their interest in the culture of their mixed race spouse s minority ancestry The spouse s race and the nature of racial overlap between the spouses was also key in the racial upbringing of a mixed heritage person s child In families where the parents share a minority racial heritage couples lean into their shared family race which guides their parenting choices and family life Many mixed heritage parents found it important to foster racial pride in their children and combat negative racial stereotypes Liebler and Song caution against making superficial predictions about the state of race relations in the U S based on an increase in the multiracial population They show that race has not become less salient in the lives of many mixed race people American society is not post racial Mixed Heritage in the Family breaks new ground provides compelling insights in its examination of the lives of mixed race people and shows how complicated racial identification can be

Multiracials and Civil Rights Tanya Katerí Hernández, 2021-01-19 Narratives of mixed race people bringing claims of racial discrimination in court illuminating traditional understandings of civil rights law As the mixed race population in the United States grows public fascination with multiracial identity has promoted the belief that racial mixture will destroy racism However multiracial people still face discrimination Many legal scholars hold that this is distinct from the discrimination faced by people of other races and traditional civil rights laws built on a strict black white binary need to be reformed to account for cases of discrimination against those identifying as mixed

race In *Multiracials and Civil Rights* Tanya Kater Hernandez debunks this idea and draws on a plethora of court cases to demonstrate that multiracials face the same types of discrimination as other racial groups Hernandez argues that multiracial people are primarily targeted for discrimination due to their non whiteness and shows how the cases highlight the need to support the existing legal structures instead of a new understanding of civil rights law The legal and political analysis is enriched with Hernandez's own personal narrative as a mixed race Afro Latina Coming at a time when explicit racism is resurfacing Hernandez's look at multiracial discrimination cases is essential for fortifying the focus of civil rights law on racial privilege and the lingering legacy of bias against non whites and has much to teach us about how to move towards a more egalitarian society
