The impact of feminism on political concepts and debates Georgina Blakeley,Valerie Bryson,2024-06-04 Many feminists have engaged with the man made concepts and approaches of traditional political analysis to produce an increasingly sophisticated and wide ranging body of thought The starting point of this book is the belief that such work is not simply something for the girls rather it has profound and complex implications without which our understanding of political processes and ideas would be impoverished This book provides an accessible overview and assessment of the impact of recent feminism by bringing together leading feminist and pro feminist political theorists and analysts to focus on key concepts such as rationality citizenship democracy and democratisation development and empowerment Each chapter takes a malestream concept and examines both the

British Literature and the Life of Institutions Benjamin Kohlmann, 2021-11-25 British Literature and the Life of Institutions charts a literary prehistory of the welfare state in Britain around 1900 but it also marks a major intervention in current theoretical debates about critique and the dialectical imagination By placing literary studies in dialogue with political theory philosophy and the history of ideas the book reclaims a substantive reformist language that we have ignored to our own loss This reformist idiom made it possible to imagine the state as a speculative and aspirational idea as a fully realized form of life rather than as an uninspiring ensemble of administrative procedures and bureaucratic processes This volume traces the resonances of this idiom from the Victorian period to modernism ranging from Mary Augusta Ward George Gissing and H G Wells to Edward Carpenter E M Forster and Virginia Woolf Compared to this reformist language the economism that dominates current debates about the welfare state signals an impoverishment that is at once intellectual cultural and political Critiquing the shortcomings of the welfare state comes naturally to us but we often struggle to offer up convincing defences of its principles and aims This book intervenes in these debates by urging a richer understanding of critique if we want to defend the state Kohlmann argues we need to learn to think about it again

Conflict of Beliefs Jacob MBUA Ngeve PhD FCAS, 2023-01-16 The book talks of strongly held beliefs and how these lead to conflicts This applies to rivaling nations as well as to individuals in competition These beliefs have been found to be influenced by the environment in which those who hold these beliefs are brought up or in the circumstances in which they find themselves A bad legacy of beliefs handed over to a new generation or to an individual in a position of authority may influence them throughout their lifespan just as colonizers handed over legacies to their colonies these subjects used the bad practices they inherited from their superiors to subjugate the individuals they in turn supervised This trickle down effect has been a negative practice which has led to enormous conflicts in societies and this in turn has had

a conflictual effect on the subjects they have had to control Examples are taken from our leaders and those they have had under them It has become a vicious cycle which turns out to be a snare without an end We find that there is a civilization struggle resulting from this conflict of beliefs Overall whether negative or positive it is for a survival of the fittest

Colonial Lives of Property Brenna Bhandar,2018-05-03 In *Colonial Lives of Property* Brenna Bhandar examines how modern property law contributes to the formation of racial subjects in settler colonies and to the development of racial capitalism Examining both historical cases and ongoing processes of settler colonialism in Canada Australia and Israel and Palestine Bhandar shows how the colonial appropriation of indigenous lands depends upon ideologies of European racial superiority as well as upon legal narratives that equate civilized life with English concepts of property In this way property law legitimates and rationalizes settler colonial practices while it racializes those deemed unfit to own property The solution to these enduring racial and economic inequities Bhandar demonstrates requires developing a new political imaginary of property in which freedom is connected to shared practices of use and community rather than individual possession

Collisions at the Crossroads Genevieve Carpio,2019-04-16 There are few places where mobility has shaped identity as widely as the American West but some locations and populations sit at its major crossroads maintaining control over place and mobility labor and race In *Collisions at the Crossroads* Genevieve Carpio argues that mobility both permission to move freely and prohibitions on movement helped shape racial formation in the eastern suburbs of Los Angeles and the Inland Empire throughout the nineteenth and twentieth centuries By examining policies and forces as different as historical societies Indian boarding schools bicycle ordinances immigration policy incarceration traffic checkpoints and Route 66 heritage she shows how local authorities constructed a racial hierarchy by allowing some people to move freely while placing limits on the mobility of others Highlighting the ways people of color have negotiated their place within these systems Carpio reveals a compelling and perceptive analysis of spatial mobility through physical movement and residence

In the Shadow of the Gallows Jeannine Marie DeLombard,2012-07-24 From Puritan Execution Day rituals to gangsta rap the black criminal has been an enduring presence in American culture To understand why Jeannine Marie DeLombard insists we must set aside the lenses of pathology and persecution and instead view the African American felon from the far more revealing perspectives of publicity and personhood When the Supreme Court declared in *Dred Scott* that African Americans have no rights which the white man was bound to respect it overlooked the right to due process which ensured that black offenders

even slaves appeared as persons in the eyes of the law In the familiar account of African Americans historical shift from plantation to prison we have forgotten how for a century before the Civil War state punishment affirmed black political membership in the breach while a thriving popular crime literature provided early America s best known models of individual black selfhood Before there was the slave narrative there was the criminal confession Placing the black condemned at the forefront of the African American canon allows us to see how a later generation of enslaved activists most notably Frederick Douglass could marshal the public presence and civic authority necessary to fashion themselves as eligible citizens At the same time in an era when abolitionists were charging Americans with the national crime of manstealing a racialized sense of culpability became equally central to white civic identity What for African Americans is the legacy of a citizenship grounded in culpable personhood For white Americans must membership in a nation built on race slavery always betoken guilt In the Shadow of the Gallows reads classics by J Hector St John de Cr vecoeur Edgar Allan Poe Frederick Douglass Herman Melville George Lippard and Edward Everett Hale alongside execution sermons criminal confessions trial transcripts philosophical treatises and political polemics to address fundamental questions about race responsibility and American civic belonging

Dialectics of the Self Ian Fraser,2021-02-02 Charles Taylor is a philosopher concerned with morality and the nature of the identity of individuals and groups in the West This book offers an evaluation of Taylor s conception of self and its moral and political possibilities **Uncertain citizenship** Anne-Marie Fortier,2021-04-13 Uncertainty is central to the governance of citizenship but in ways that erase even deny this uncertainty This book investigates uncertain citizenship from the unique vantage point of citizenisation twenty first century integration and naturalisation measures that make and unmake citizens and migrants while indefinitely holding many applicants for citizenship in what Fortier calls the waiting room of citizenship Fortier s distinctive theory of citizenisation foregrounds how the full achievement of citizenship is a promise that is always deferred if migrants and citizens are continuously citizenised so too are they migratised Citizenisation and migratisation are intimately linked within the structures of racial governmentality that enables the citizenship of racially minoritised citizens to be questioned and that casts them as perpetual migrants Drawing on multi sided fieldwork with migrants applying for citizenship or settlement and with intermediaries of the state tasked with implementing citizenisation measures and policies Fortier brings life to the waiting room of citizenship giving rich empirical backing to her original theoretical claims Scrutinising life in the waiting room enables Fortier to analyse how citizenship takes place takes time and takes hold in ways that conform exceed and confound frames of reference laid out in both citizenisation policies and taken for granted understandings of the citizen and the migrant Uncertain Citizenship s nuanced account of the social and institutional function of citizenisation and migratisation offers its readers a grasp of the array of racial inequalities that citizenisation produces and reproduces while providing theoretical and empirical tools to address these inequalities
