

and Speciation in Paleozoic Bryozoans. Ausley and Paeffgen is a careful consideration of Paleozoic bryozoan diversity from several morphological points of view, but unfortunately neglects biogeographic and community ecological dimensions of the problem. Paper 9 (Coordinated Stasis and Evolutionary Ecology of Silurian to Middle Devonian *Phoron* in the Appalachian Basin, Beier and Baird) is unique in this volume, because it stays close to the facts of biostratigraphy and their interpretation. Several examples of species-level anagenesis within community groups are alluded to (for example Fig. 9.1, the *Levinsella* and *Stricklandella* lineages; Fig. 9.2, the *Elavotheca*-*Amphigenia* lineage). For the *Euroetia* and *Stricklandella* lineages most of the evidence is developed outside of the area considered by the authors. The many other lineages cited in the two figures cannot be documented within the Central Appalachian area, because of limited biostratigraphic continuity in the fauna. Paper 10 (Phylogeny in Trends and Speciation: Analyzing Macroevolutionary Processes and Levels of Selection, Lieberman) is another exercise in logic that shows little understanding of the real world of biofacies (evolving community groups) through time or the fact that community groups are arranged in a sequence of evolutionary units and subunits through the Phanerozoic.

Organismal coverage is small. Three papers emphasize bryozoans, in accord with interests of one of the Editors. Examples are restricted to marine invertebrates.

Only one paper (No. 9) considers the community ecological context from which samples were obtained. None of the authors considered that speciation occurs within a community ecological context, i.e., species do not randomly bounce around during evolutionary time from one environment to another (Beier and Baird come closest to avoiding this pitfall). Since the primary constraint on thinking about speciation modes must accord with the biofacies continuity trend community group within ecological-evolutionary units and subunits of the fossil record, failure to consider this information deprives much of the elegant logic displayed in most of the papers of its potential value. All papers, except No. 8, suffer from treating

the evolution of individual taxa in a manner that separates them from the other organisms with which they are closely associated in evolutionary time. Logic, no matter how brilliant, must accord with the patterns observed in nature.

The volume is well printed, with few printers' errors, priced moderately for these days, and a fair indication of current thinking in Paleobiological circles about some aspects of speciation. I doubt that it will have much long-term impact on the field, but strongly recommend several chapters for reading.

*Modern Pollen Rain, Vegetation and Climate in Lowland East Java, Indonesia*, by K.R.M. Beuning, Balkema, Rotterdam, Harlower, 1996. vii + 48 pp., 48 plates, Price £11.10/20, ISBN 90-5410-629-8.

This thin volume, number 14 in the series *Modern Quaternary Research in Southeast Asia*, focuses on the examination of modern pollen spectra from 10 low-latitude lakes and reservoirs positioned along a rainfall gradient covering the eastern, most climatically seasonal, half of Java. The study is clearly aimed at putting Southeast Asian palynology on a firm scientific footing by cautious and systematic sample selection, thorough sedimentological analysis of each sediment sample matrix, and comprehensive documentation of the pollen. The pollen samples are interpreted in relation to the nature of each site, some qualitative assessment of surrounding catchment vegetation, and the regional rainfall gradient. In common with previous studies in the lowland tropics which are naturally rainforested and where little ecological research has been conducted, the majority of taxa, though not the majority of pollen, are unidentified. In an attempt to overcome this problem for vegetation and climate reconstruction, the interesting approach of dividing the pollen into site-specific groups and groups related to different parts of the rainfall gradient is adopted.

The results are somewhat equivocal. It is demonstrated that the pollen generally reflects the vegeta-

Water Civilization Yoshinori Yasuda,2012-10-24 Water Civilization From Yangtze to Khmer Civilizations comprises three major topics 1 Discovery of the origin of rice agriculture and the Yangtze River civilization in southern China was mainly based on investigation of the Chengtoushan archaeological site the earliest urban settlement in East Asia The origin of rice cultivation can be traced back to 10000 BC with urban settlement starting at about 6000 BP 2 The Yangtze River civilization collapsed around 4200 BP Palaeoenvironmental studies including analyses of annually laminated sediments in East and Southeast Asia indicate a close relationship between climate change and the rise and fall of the rice cultivating and fishing civilization and 3 Migrations from southern China to Southeast Asia occurred after about 4200 BP Archaeological investigation of the Phum Snay site in Cambodia including analyses of DNA and human skeletal remains reveals a close relationship to southern China indicating the migration of people from southern China to Southeast Asia This publication is an important contribution to understanding the environmental history of China and Cambodia in relation to the rise and fall of the rice cultivating and fishing civilization which we call water civilization

**The Djief Hunters, 26,000 Years of Rainforest Exploitation on the Bird's Head of Papua, Indonesia** Juliette M. ## **Pollen Rain Vegetation And Climate In Lowland East Java Indonesia Introduction**

In today's digital age, the availability of Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Pollen Rain Vegetation And Climate In Lowland East Java Indonesia versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and

making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Pollen Rain Vegetation And Climate In Lowland East Java Indonesia books and manuals for download and embark on your journey of knowledge?
