

Polluting for Pleasure

Creating nearly as much atmospheric pollution as all of our automobiles and spilling 15 times more oil into our waters than the *Exxon Valdez*—every year—unregulated powerboats are creating a national disaster

Polluting For Pleasure:

Polluting for Pleasure Andre Mele, 1993 In the tradition of *Silent Spring* and *Unsafe at Any Speed* comes this frightening landmark environmental study The message seemingly innocuous recreational boats particularly outboards are polluting as much as all the cars and trucks in America and the marine industry has been holding its breath hoping that nobody notices Polluting for Pleasure begins with the author accidentally discovering that pleasure boats have been spilling oil into the environment on a magnitude that is staggering In addition to being 80 times more polluting than automobile engines the more than 8 million two cycle outboard engines put more oil into American waters than 15 Exxon Valdez oil spills annually Oil like dirt collecting on the sides of a bathtub contaminates the shores and marshlands of our lakes and rivers the cradles of all marine life This important new book not only studies the problem of pollution from powerboats and the environmental effects it also offers constructive suggestions for alleviating the problem *Federal Water Pollution Control Act*
