Prayers And Tears Of Jacques Derrida Religion Without Religion:

The Prayers and Tears of Jacques Derrida John D. Caputo, 1997-09-22 Caputo's book is riveting. A singular achievement of stylistic brio and impeccable scholarship, it breaks new ground in making a powerful case for treating Derrida as homo religiosus. There can be no mistaking the importance of Caputo's work. Edith Wyschogrod: No one interested in Derrida in Caputo or in the larger question of postmodernism and religion can afford to ignore this pathbreaking study. Taking full advantage of the most recent and least discussed writings of Derrida, it offers a careful and comprehensive account of the religious dimension of Derrida's thought. Merold Westphal *The Adventure of Weak Theology* Štefan Štofaník, 2018-10-16 In this distinctive exploration of John D. Caputo's work, Štefan Štofaník traces Caputo's journey of philosophical discovery from his earlier more conventional academic writings to his later, almost confessional works of weak theology and his deep engagement with Derrida. Štofaník draws upon Caputo's life story to help explain sudden shifts in Caputo's thinking, offers intricate readings of philosophical passages that have all too often been taken for granted, and joins in Caputo's effort to find a theology that can be trusted and that does not rely upon dogmatic and hierarchical authority. At the same time, Štofaník subtly disagrees with aspects of Caputo's view and turns to the work of Antoine de Saint-Exupéry as a way to suggest that one cannot take leave of the tradition of theology as easily as Caputo thinks. At times *The Adventure of Weak Theology* reads like a letter to Caputo, and Štofaník's own passion for theology, his deep understanding of Caputo's work, and his gift for writing makes this an immensely appealing book for both admirers and critics of Caputo. Religion With/Out Religion James Olthuis, 2003-09-02 Written in response to John Caputo's *The Prayers and Tears of Jacques Derrida*, this work gathers together cutting-edge theologians and philosophers to examine the relationship between Derridan deconstruction and religion. Containing a lengthy counter-response by Caputo as well as an interview, *Religion With Out Religion* will be required reading for all those involved in contemporary theological debate. *Fascinatingly Disturbing* Alexander Darius Ornella, Stefanie Knauss, 2010-04-07 Michael Haneke is one of Europe's most successful and controversial film directors. Awarded the Palme d'Or and numerous other international awards, Haneke has contributed to and shaped contemporary auteur cinema and is becoming more and more popular among academics and cinephiles. His mission is as noble as it is provocative: he wants to rape the audience into independence, to wake them up from the lethargy caused by the entertainment industry. The filmic language he employs in this mission is both highly characteristic and efficient, and yet his methods are open to criticism for their violence toward and manipulation of the audience. The aim of this book is to analyze critically Haneke's aesthetics, his message, as well as his ethical motivation from an interdisciplinary and intercultural perspective. Contributors to the book come from a variety of academic disciplines and cultural backgrounds: European and North American. **The Politics of Praise** William W. Young III, 2017-03-02 While the revelation of God's name is a central theological topic, its ethical and political significance are often overlooked. In a world filled with violence committed in the

name of God how might invoking God's name enable peace community and hope The Politics of Praise argues that the redemptive potential of naming God lies in how this event transforms friendship It breaks new ground by tracing the connections between naming God and friendship in the work of Thomas Aquinas and Jacques Derrida Advancing an innovative reading of Aquinas on the divine names the book explores how Dionysius mysticism shapes Aquinas appropriation of Aristotle's ethics then retraces how Derrida's reading of religion renders possible an alternative conception of friendship These explorations lead to a surprising convergence between Aquinas and Derrida on the conditions of friendship Giving Beyond the Gift Elliot R. Wolfson, 2014-02-03 This book explores the co dependency of monotheism and idolatry by examining the thought of several prominent twentieth century Jewish philosophers Cohen Buber Rosenzweig and Levinas While all of these thinkers were keenly aware of the pitfalls of scriptural theism to differing degrees they each succumbed to the temptation to personify transcendence even as they tried either to circumvent or to restrain it by apophatically purging kataphatic descriptions of the deity Derrida and Wyschogrod by contrast carried the project of denegation one step further embarking on a path that culminated in the aporetic suspension of belief and the consequent removal of all images from God a move that seriously compromises the viability of devotional piety The inquiry into apophasis transcendence and immanence in these Jewish thinkers is symptomatic of a larger question Recent attempts to harness the apophatic tradition to construct a viable postmodern negative theology a religion without religion are not radical enough Not only are these philosophies of transcendence guilty of a turn to theology that defies the phenomenological presupposition of an immanent phenomenality but they fall short on their own terms inasmuch as they persist in employing metaphorical language that personalizes transcendence and thereby runs the risk of undermining the irreducible alterity and invisibility attributed to the transcendent other The logic of apophasis if permitted to run its course fully would exceed the need to posit some form of transcendence that is not ultimately a facet of immanence Apophatic theologies accordingly must be supplanted by a more far reaching apophasis that surpasses the theolatrous impulse lying coiled at the crux of theism an apophasis of apophasis based on accepting an absolute nothingness to be distinguished from the nothingness of an absolute that does not signify the unknowable One but rather the manifold that is the pleromatic abyss at being's core Hence the much celebrated metaphor of the gift must give way to the more neutral and less theologically charged notion of an unconditional givenness in which the distinction between giver and given collapses To think givenness in its most elemental phenomenological sense is to allow the apparent to appear as given without presuming a causal agency that would turn that given into a gift Theory for Religious Studies William E. Deal, Timothy K. Beal, 2004-11-01 In this handy volume two professors of religious studies provide the student of religious studies whether the motivated undergraduate graduate student or professor with a brief review of theorists work from the perspective of religious studies For example in 5-10 pages the reader will get a review of Emmanuel Levinas's work as it offers insights for scholars in religious studies followed by a selected bibliography In short this is a guide

for students of religious studies that will take major theoretical writers in the humanities and social sciences and explain their relevance to the study of religion *Violence, Hospitality, and the Cross* Hans Boersma,2006-04 Offers a new model for understanding the atonement sensitive to both the Christian tradition and its postmodern critics **Deeper Than Oblivion** Raz Yosef,Boaz Hagin,2016-05-19 In this collection leading scholars in both film studies and Israeli studies show that beyond representing familiar historical accounts or striving to offer a more complete and accurate depiction of the past Israeli cinema has innovatively used trauma and memory to offer insights about Israeli society and to engage with cinematic experimentation and invention Tracing a long line of films from the 1940s up to the 2000s the contributors use close readings of these films not only to reconstruct the past but also to actively engage with it Addressing both high profile and lesser known fiction and non fiction Israeli films *Deeper than Oblivion* underlines the unique aesthetic choices many of these films make in their attempt to confront the difficulties perhaps even impossibility of representing trauma By looking at recent and classic examples of Israeli films that turn to memory and trauma this book addresses the pressing issues and disputes in the field today Neoplatonism after Derrida Stephen Gersh,2006-10-01 This volume deals with the relation between Jacques Derrida s writing and Neoplatonism ancient patristic medieval Starting from the undeniable fact of Derrida s continuous engagement with this tradition the present study deals not only with the actual reading of the Neoplatonists by Derrida Derrida after Neoplatonism but also with a hypothetical reading of Derrida by Neoplatonism *Neoplatonism after Derrida* Thus the intended audience is both philologists and philosophers interested in the encounter of ancient and contemporary thought Separate chapters are devoted to a general study of Neoplatonism and Deconstruction commentaries on three Derridean texts in which their Neoplatonic implications are developed and a treatment of the problem of non discursive thought in which all Neoplatonic and Derridean perspectives are transcended **The European Reception of John D. Caputo's Thought** Martin Koci,Joeri Schrijvers,2022-10-27 This book gathers the European reception of John D Caputo s proposal for a radical theology of our time Philosophers and theologians from within Europe respond to Caputo s attempt to configure a less rigid less dogmatic form of religion These scholars in turn receive responses by Caputo This volume so aims to strengthen the development of radical theology in Europe and abroad Christianity after Christendom Martin Koci,2023-09-07 What comes after the end of Christendom Christianity has ceased to function as the dominant force in society and yet the Christian faith continues How are we to understand Christianity in this after Bringing into conversation seven unorthodox or heretical continental philosophers including Jan Patocka Jean Luc Nancy Gianni Vattimo and John D Caputo Martin Koci re centres the debates around philosophy s so called return to religion to address the current not Christian but not yet non Christian culture In the modern context of increasing secularization and pluralization Christianity after Christendom boldly proposes that Christians must embrace the demise of Christianity as a meta narrative and see their faith as an existential mode of being in the world Whilst not denying the religion s history this after of Christianity

emancipates the discourse from the socio historical focus on Christendom and introduces new perspectives on Christianity as an embodied religious tradition as a way of being even as a faithfulness to the world In dialogue with a broad range of philosophical movements including deconstruction phenomenology hermeneutics and postmodern critiques of religion this is a timely examination of the present and future of post Christendom Christianity **The Archaic** Paul Bishop,2011-09-30

Groundless Gods The Theological Prospects of Post Metaphysical Thought deals with possible interpretations of an emerging interest in contemporary theology postmetaphysical theology This book attempts to openly come to grips not only with what metaphysics and postmetaphysics imply but also with what it could mean to do or not do theology from the standpoint of the nonmetaphysician The book asks for instance whether this world has any singular definition and whether God is some being standing apart from the world or an experience within the world **The Meanings We Choose** Charles H. Cosgrove,2004-09-01 The Meanings We Choose is an engagement with responsible bible reading Hebrew Bible Old Testament and New Testament texts for the past as well as for the present and future Its stated perspectives are multi denominational Christian but the implications of such readings go far beyond a specific confessional framework In the

present political climate the aware responsible personal is meaningful for any community confessedly religious as well as otherwise While the articles collected in this volume broadly speaking can and perhaps should be compartmentalized as ideological criticism their significance for reading ideologies different from their own is more than considerable

Derrida after the End of Writing Clayton Crockett, 2017-11-07 What are we to make of Jacques Derrida's famous claim that every other is every other if the other could also be an object a stone or an elementary particle Derrida's philosophy is relevant not just for human ethical language and animality but to profound developments in the physical and natural sciences as well as ecology Derrida After the End of Writing argues for the importance of reading Derrida's later work from a new materialist perspective In conversation with Heidegger Lacan and Deleuze and critically engaging newer philosophies of speculative realism and object oriented ontology Crockett claims that Derrida was never a linguistic idealist Furthermore something changes in his later philosophy something that cannot be simply described as a turn In Catherine Malabou's terms there is a shift from a motor scheme of writing to a motor scheme of plasticity Crockett explores some of the implications of interpreting Derrida through the new materialist lens of technicity or plasticity attending to the significance of ethics religion and politics in his later work By reading Derrida from a new materialist perspective Crockett provides fresh readings of his ideas of sovereignty religion responsibility and mourning These new readings produce fruitful engagements with the thinkers who have followed Derrida including Malabou Timothy Morton John D Caputo and Karen Barad Here is a new reading of Derrida that moves beyond conventional understandings of poststructuralism and deconstruction a reading that is responsive to and critical of some of the crucial developments shaping the humanities today

The Future of Continental Philosophy of Religion Clayton Crockett, B. Keith Putt, Jeffrey W. Robbins, 2014-06-26 What is the future of Continental philosophy of religion These forward looking essays address the new thinkers and movements that have gained prominence since the generation of Derrida Deleuze Foucault and Levinas and how they will reshape Continental philosophy of religion in the years to come They look at the ways concepts such as liberation sovereignty and post colonialism have engaged this new generation with political theology and the new pathways of thought that have opened in the wake of speculative realism and recent findings in neuroscience and evolutionary psychology Readers will discover new directions in this challenging and important area of

philosophical inquiry **Sodomscapes** Lowell Gallagher, 2017-06-01 Sodomscapes presents a fresh approach to the story of Lot's wife as it's been read across cultures and generations. In the process, it reinterprets foundational concepts of ethics, representation, and the body. While the sudden mutation of Lot's wife in the flight from Sodom is often read to confirm our antiscopic bias, a rival tradition emphasizes the counterintuitive optics required to nurture sustainable habitations for life in view of its unforeseeable contingency. Whether in medieval exegesis, Russian avant-garde art, Renaissance painting, or today's Dead Sea health care tourism industry, the repeated desire to reclaim Lot's wife turns the cautionary emblem of the mutating woman into a figural laboratory for testing the ethical bounds of hospitality. Sodomscape, the book's name for this gesture, revisits touchstone moments in the history of figural thinking and places them in conversation with key thinkers of hospitality. The book's cumulative perspective identifies Lot's wife as the resilient figure of vigilant dwelling whose in-betweenness discloses counterintuitive ways of understanding what counts as a life amid divergent claims of being with and being for.
