Praying On The Edge Human Rights For Concerned Christians:

Praying on the Edge Bryan Owen, 2004-11 This is a book for groups It s for believing groups and doubting groups and concerned groups and groups who are not sure where they re going It s a book for groups that want to do something for groups that want to change a bit of the world maybe their bit of the world for the better It s for groups that are no longer content just to sit and talk and pray important as that is but for people who now want to add meaningful action to their being together We live in a painful world so there is much for us to do We can do it individually or we can do it with others We can do it denominationally or we can do it ecumenically We can do it from within the Christian ghetto or we can do it hand in hand with those on the edge of faith and with our secular neighbours in the wider community There is much to do and what we choose to do we do simply because we want to be faithful to Jesus And because there is so much to do someone s life somewhere in this world may depend on the decision we make **Ministry on the Edge** Kenneth L. Vaux, 2010-04-01

Edge Michael Kelly, 2016-09-16 Asia as a continent accounts for half the world s population Within its boundaries there is an incomparable diversity of cultures socio economic standards and political structures And all the world s major religions Hinduism Islam Judaism Buddhism and Christianity have their origins in Asia Little wonder that religion is always involved in the flash points that occur across the region Religious freedom and religious persecution know no boundaries and are alive and well in all their complexions from Korea in the north to Indonesia in the south from the Philippines in the east to Pakistan in the west And UCAAN has reporters and analysts across Asia s full extent We have brought our unique network to the task of examining and the evaluating the prospects for religious freedom and the causes of religious persecution in Asia As rational beings we humans actualize our highest capacity when we make choices For that exercise we need freedom At the heart of all freedoms political economic and cultural especially is the freedom to believe Religious freedom is the fundamental

freedom Belief and its restriction attack the heart of freedom But the circumstances and conditions of religious freedom and the persecution of believers vary greatly across the continent The range and reach of those circumstances and conditions across Asia are what this volume offers

Faith and Learning on the Edge David Claerbaut, 2004 Beginning with an autobiographical journey through his disappointing experiences with faith and learning both in his student and professorial career in Christian colleges David Claerbaut addresses the issues of faith and learning in higher education

Faith on the Edge Leonardo Boff, 2011-10-07 A major voice in liberation theology and once silenced for a year by the pope for his outspoken views Leonardo Boff here presents a collection of his controversial essays attacking poverty and political persecution As a Brazilian Boff is witness to and active in the liberation movement within the Catholic Church in Latin America He claims that the Church there is redefining itself as a modern populist movement It is in Latin America writes Boff that the Church of the future is being molded There are more Catholics in Latin America than on any other continent Soon more than half of the members of the Church will live here European countries with their demographic decline and meager religious creativity their theology liturgy and pastoral ministry consisting almost entirely of syntheses of material drawn from the past are gradually losing their universal relevance It is in Latin America that the Church's principal new challenges are appearing What is the relationship between the gospel and the liberation of the oppressed How can Christian love be reconciled with participation in the wild class struggle taking place around us How can Christianity help overcome the relations of international injustice prevailing in the unequal relationships between rich countries and poor ones Advocating a sympathetic but critical relationship between liberation theology and Marxism Boff claims that historical materialism is the social scientific method conducive to liberation theology He also discusses the political dimension of faith the Church's role in the struggle for human rights the nature of the popular Church the rights of the poor and the oppressed and the kind of future they may anticipate Boff's bold reflections on these and other issues make vital reading for anyone concerned with faith and justice in today's world

Religion on the Edge Courtney Bender, 2013 The thirteen essays in this volume offer a challenge to conventional scholarly approaches to the sociology of religion They urge readers to look beyond congregational settings beyond the United States and to religions other than Christianity and encourage critical engagement with religion's

complex social consequences By expanding conceptual categories the essays reveal how aspects of the religious have always been part of allegedly non religious spaces and show how by attending to these intellectual blindspots we can understand aspects of identity modernity and institutional life that have long been obscured Religion on the Edge addresses a number of critical questions What is revealed about the self pluralism or modernity when we look outside the U S or outside Christian settings What do we learn about how and where the religious is actually at work and what its role is when we unpack the assumptions about it embedded in the categories we use Religion on the Edge offers groundbreaking new methodologies and models bringing to light conceptual lacunae re centering what is unsettled by their use and inviting a significant reordering of long accepted political and economic hierarchies The book shows how social scientists across the disciplines can engage with the sociology of religion By challenging many of its long standing empirical and analytic tendencies the contributors to this volume show how their work informs and is informed by debates in other fields and the analytical purchase gained by bringing these many conversations together Religion on the Edge will be a crucial resource for any scholar seeking to understand our post modern post secular world
