Celtic Roots Thomas Airlie Brown, 2001 Thomas Airlie Brown plunges the reader directly into the action and integrally weaves them into the book so tightly it will not be easy for them to lay it down The book is historical fiction leading up to a fairy tale although it is so well leavened with helpings of historical and archeological facts that all may end up to be factual after all What he calls the Celtic Domain is traced from its first appearance in the Middle Europe follows the migration trail across Western Europe into Britain and Ireland then deals with the apparently unstoppable spread of the Roman Empire into Celtic territory and covers the major battles that resulted Arthur and Camelot fill the final section with a new interpretation that intrigues as it develops and ends with an Epilogue that highlights the reasons why the Celts known world conquerors before the Romans could not compete with the political and military sophistication of the Roman Empire The Appendix with its numbered sections referred to in the text contains tidbits of little known information and history that add to the enjoyment of the read

Nafziger, 2017-12-29 The topical chapters in this cutting edge collection at the intersection of comparative law and anthropology explore the mutually enriching insights and outlooks of the two fields Comparative Law and Anthropology adopts a foundational approach to social and cultural issues and their resolution rather than relying on unified paradigms of research or unified objects of study Taken together the contributions extend long developing trends from legal anthropology to an anthropology of law and from externally imposed to internally generated interpretations of norms and processes of legal significance within particular cultures The book's expansive conceptualization of comparative law encompasses not only its traditional geographical orientation but also historical and jurisprudential dimensions It is also noteworthy in blending the expertise of long established acclaimed scholars with new voices from a range of disciplines and backgrounds
