Pre-capitalist Modes of Production Barry Hindess, 1975-01-01 Routledge Revivals: Pre-Capitalist Modes of Production (1975) (Roys Paul Q Hirst Dec'D), Barry Hindess, 2017-11-22 First published in 1975 this book investigates the various pre capitalist modes of production briefly indicated in the works of Marx and Engels and gives an examination of the conditions of the transition from one mode of production to another The fundamental concepts used in these investigations including those of mode of production of necessary labour and surpass labour of politics and state are derived from Capital and from other works of Marxist theory The primary aim of the analysis is to raise the conceptualisation of pre capitalist modes of production and of transition to a more rigorous level This book will appear controversial to both Marxists and non Marxists alike Pre-capitalist Modes of Production Barry and Hirst Hindess (Paul Q.),1979 **Studies on Pre-Capitalist** Modes of Production, 2015-08-28 In Studies on Pre Capitalist Modes of Production British and Argentinian historians analyse the Asiatic Germanic peasant slave feudal and tributary modes of production by exploring historical processes and diverse problems of Marxist theory The emergence of feudal relations the origin of the medieval craftsman the functioning of the law of value and the conditions for historical change are some of the problems analysed. The studies treat an array of precapitalist social formations Chris Wickham works on medieval Iceland and Norway John Haldon on Byzantium Carlos Garc a Mac Gaw on the Roman Empire Andrea Zingarelli on ancient Egypt Carlos Astarita and Laura da Graca on medieval Le n and Castile and Octavio Colombo on the Castilian later Middle Ages Contributors include Chris Wickham John Haldon Carlos Astarita Carlos Garc a Mac Gaw Octavio Colombo Laura da Graca and Andrea Zingarelli Mode of Production and Social The Making and Unmaking of the Haya Lived World Brad Formation Barry Hindess, Paul Q. Hirst, 1977-03-01 Weiss, 1996 At the center of this subtle ethnographic account of the Haya communities of Northwest Tanzania is the idea of a lived world as both the product and the producer of everyday practices Drawing on his experience living with the Haya Brad Weiss explores Haya ways of constructing and inhabiting their community and examines the forces that shape and transform these practices over time In particular he shows how the Haya a group at the fringe of the global economy have responded to the processes and material aspects of money markets and commodities as they make and remake their place in a changing world Grounded in a richly detailed ethnography of Haya practice Weiss's analysis considers the symbolic qualities and values embedded in goods and transactions across a wide range of cultural activity agricultural practice and food preparation the body's experience of epidemic disease from AIDS to the infant affliction of plastic teeth and long standing forms of social movement and migration Weiss emphasizes how Haya images of consumption describe the relationship between their local community and the global economy Throughout he demonstrates that particular commodities and more general market processes are always material and meaningful forces with the potential for creativity as well as disruption in Haya social life By calling attention to the productive dimensions of this spatial and temporal world his work highlights the importance of

human agency in not only the Haya but any sociocultural order Offering a significant contribution to the anthropological theories of practice embodiment and agency and enriching our understanding of the lives of a rural African people The Making and Unmaking of the Haya Lived World will interest historians anthropologists ethnographers and scholars of cultural studies

Making Sense of Marx Jon Elster, 1985-05-09 A critical examination of the social theories of Karl Marx

The Micro-Politics of Capital Jason Read, 2012-02-01 What is the relation between the economy or the mode of production and culture beliefs and desires How is it possible to think of these relations without reducing one to the other or effacing one for the sake of the other To answer these questions The Micro Politics of Capital re reads Marx in light of the contemporary critical interrogations of subjectivity in the works of Althusser Deleuze Guattari Foucault and Negri Jason Read suggests that what characterizes contemporary capitalism is the intimate intersection of the production of commodities with the production of desire beliefs and knowledge Service Workers in the Era of Monopoly Capital Fabian van Onzen, 2021-10-11 In Service Workers in the Era of Monopoly Capital Fabian van Onzen uses Marxist theory to analyse the process by which service and retail workers are exploited by the capitalist class His analysis takes us through the primary concepts of Marxism surplus value commodity form etc and demonstrates their relevance for understanding the service industry. The book reveals that service and retail workers shop employees cleaners hospitality workers are integral to the capitalist system and have significant power to transform society if organised properly Van Onzen argues that the key to ending the exploitation of service workers is through the socialist transformation of society The book contains an examination of what service work will be like under socialism and provides examples of how former socialist countries changed the nature of service labour Service Workers in the Era of Monopoly Capital is an important addition to Marxist theory which is still somewhat lacking in detailed accounts of the service and retail industry The State and Rural Class Formation in Ghana Piet Konings, 2018-10-24 First published in 1986 Africanists are nowadays devoting increasing attention to the role of the state both colonial and post colonial in the process of class formation in African societies. The present study of the role of the state in the process of rural class formation in Ghana can be viewed as both an expression of the current interest in and an addition to the growing body of literature on this subject How Revolutionary Were the Bourgeois Revolutions? Neil Davidson, 2012-07-24 An impressive contribution both to the history of ideas and to political philosophy Alasdair MacIntyre author of After Virtue Once of central importance to left historians and activists alike recently the concept of the bourgeois revolution has come in for sustained criticism from both Marxists and conservatives In this magisterial work Neil Davidson offers theoretical and historical insights about the nature of revolutions Through extensive research and comprehensive analysis Davidson demonstrates that what s at stake is far from a stale issue for the history books understanding that these struggles of the past offer far reaching lessons for today s radicals A monumental work Neil Davidson has given us what is easily the most comprehensive account yet of the life and times of the concept of bourgeois revolution and has also provided us with a refined set of theoretical tools

for understanding the often complex interactions between political revolutions which overturn state institutions and social revolutions which involve a more thoroughgoing transformation of social relations Colin Mooers author of The Making of Bourgeois Europe Davidson's book is one of immense and impressive erudition His knowledge of the history of Marxist theory and historiography is as detailed as it is comprehensive and must be well nigh unrivalled. The endless complex debates that characterize the Marxist tradition are distilled with clarity and illumination Times Literary Supplement A brilliant and fascinating book wide ranging and lucidly written Jairus Banaji author of Theory as History **Critical Perspectives on** Agrarian Transition B.
