Preachers Of Hate The Rise Of The Far Right:

Preachers of Hate Angus Roxburgh,2002 From his position as BBC Europe correspondent Angus Roxburgh lays bare the reason why Europe has become once again a fertile breeding ground for the far right through first hand interviews with its supporters and leaders He argues that we should be on high alert regarding the influence of radical thought intolerance and charismatic leadership on ordinary politics Since 1998 one by one the left wing governments of Europe have been toppled by miscalculating the severity of the problems that face them Deaf to the concerns of many of the traditionally left wing voters the entire spectrum of European political classes remain incapable of dealing with the strong domestic undercurrents surfacing in the aftermath of the events of September 2001

The Success and Failure of Right-Wing Populist Parties in the Benelux Countries Léonie de Jonge,2021-06-14 This book focuses on the varied support for the populist radical right in the Benelux countries Belgium the Netherlands and Luxembourg Despite many common characteristics right wing populist parties have historically been more successful in the Netherlands and Flanders than in Luxembourg and Wallonia This book argues that the variation in the success of right wing populist parties depends to a large extent on the way in which they are perceived and received in a given polity In the Netherlands and Flanders mainstream parties and the media have contributed to politicising issues pertaining to immigration and national identity thereby tilling the field for the populist radical right In Luxembourg and Wallonia mainstream parties and the media have resolutely limited the opportunities for right wing populist challengers to influence the public debate This volume will be of interest to practitioners as well as students and scholars of party politics the media the populist radical right and the Benelux region

Hate Speech and Freedom of Speech in Australia Katharine Gelber,Adrienne Sarah Ackary Stone,2007 Hate speech laws have existed in various forms

in Australia for well over a decade Unlike other countries such as the United States and Canada they have not faced constitutional hurdles to their existence The general acceptance of hate speech laws in Australia opens intellectual space for the exploration of a range of interesting questions regarding the laws operation the underlying values they pursue and the context within which hate speech is occurring How should the regulation of hate speech be balanced against Australia's political and cultural commitment to freedom of speech Who are the hate speakers and how does their speech manifest What types of hate speech are targeted by existing laws How are these laws enforced How can the laws be changed to improve governments response to hate speech How does the emergence of bills of rights affect the regulation of hate speech Drawing on a broad range of academic and practical experts this book addresses these questions The essays in first part of this book outline the landscape within which hate speech regulation occurs They include consideration of the legal policy and historical context for vilification the ways in which the language of hatred is changing and a new look at the longstanding debate about the tension between freedom of speech and hate speech as a conflict between liberty and equality In part two the book considers the practice of hate speech regulation in a variety of Australian institutions and includes practical perspectives from the legal profession In the final part the essays consider hate speech regulation within a broader human rights framework taking into account the emergence of bills of rights in Australian states

National Narcissism Eric Beckett Weaver, 2006 National Narcissism offers a groundbreaking anthropological and sociological approach to nationalism through an expos of the belief systems and psychology of extreme nationalists for whom nationalism is a form of religion This theoretical approach is illustrated with examples primarily taken from Hungary with a special focus in two chapters on the role of gender in nationalism The state of politics and society in Hungary is also examined in a way that steps beyond the usual simplistic flat narratives of what Hungarians are like by stressing the broad variety of viewpoints current in Hungarian society the milieu in which a small minority of extreme nationalists are able to make their voice heard out of proportion to their numbers or political support The theory offered by National Narcissism has wide ranging implications for the future study of extremist nationalism in nation states throughout the world Sociologists anthropologists nationalism studies
