Preachers And People In The Reformations And Early Modern Period:

Preachers and People in the Reformations and Early Modern Period Larissa Taylor, 2001-01-01 This anthology provides a broad overview of the social history of preaching throughout Western and Central Europe with sections devoted to genre specific countries and commentary on the appeal of the Reformation messages

Preachers and People in the Reformations and Early Modern Period Larissa Taylor, 2021-10-01 Sermons are an invaluable source for our knowledge of religious history and sociology anthropology and the mental landscape of men and women in pre modern Europe of what they were taught and what they practiced But how did an individual process the preached message from the pulpit How exactly do written sermons duplicate the preached Word Do they at all The 11 leading scholars who have contributed to this book do not offer uniform answers or an all encompassing study of preaching in the Reformations and early modern period in Europe They do however provide new insights on Catholic Lutheran and Reformed preaching in Western and Central Europe Part One examines changes in sermon structure style and content in Christian sermons from the thematic sermon typical of the Middle Ages to the wide variety of later preaching styles Catholic preaching after Trent proves not to be monolithic and intolerant but a hybrid of forms past and present applied as needed to particular situations Lutheran homiletic theory is traced from Luther and through Melancthon the intention of the sermon being to transform the worship service based on exegesis of Scripture In Reformed worship the expository sermon often given on a daily basis with a continuing exegesis was designed to communicate the tenets of the faith in terms that the laity could understand plain style Part Two deals with the social history of preaching in France where preachers often incited their hearers to attack human beings or holy objects or were themselves attacked in Italy where preaching became a collective and home grown product in early modern Germany where the authorities strove for uniformity of preaching practice and the preacher was seen as a moral guardian in Switzerland where leaders from Zwingli on sought to bring religious practice conduct and government in line with biblical teaching and propagated a pastoral vision of preaching in England where after the Reformation preachers became the indispensable agents of salvation but clergy and congregations were often ill prepared for the task in Scandinavia where post Reformation sermons have a clear didactic aim teaching obedience to the authorities and in the Low Countries characterized by its numerous denominations all with their own churches and particular practices in terms of preaching The volume ends with a consideration of the influence of late medieval preaching on the Reformation concluding that the diversity of emphasis on how the practice of penance was preached and received very likely affected the appeal or not of the Lutheran Reformed message in a given country

Experiencing Exile David van der Linden, 2016-04-22 The persecution of the Huguenots in France followed by the revocation of the Edict of Nantes in 1685 unleashed one of the largest migration waves of early modern Europe Focusing on the fate of French Protestants who fled to the Dutch Republic *Experiencing Exile* examines how Huguenot refugees dealt with the complex realities of living as strangers abroad and how they seized upon religion and stories of their own past to comfort them in exile The book widens the scope of scholarship on the Huguenot Refuge by looking beyond the beliefs and fortunes of high profile refugees to explore the lives of ordinary exiles Studies on Huguenots in the Dutch Republic in particular focus almost exclusively on the intellectual achievements of a small group of figures including Pierre Bayle and the Basnage brothers whereas the fate of the many refugees who joined them in exile remains unknown This book puts the masses of Huguenot refugees back into the history of the Refuge examining how they experienced leaving France and building a new life in the Dutch Republic Divided into three sections *The Economy of Exile Faith in Exile and Memories in Exile* the book argues that the Huguenot exile experience was far more complicated than has often been assumed Scholars have treated Huguenot refugees either as religious heroes as successful migrants or as modern philosophers while ignoring the many challenges that exile presented As this book demonstrates Huguenots in the Dutch Republic discovered that being a religious refugee in early modern Europe was above all a complex and profoundly unsettling experience fraught with socio economic religious and political challenges rather than a clear cut quest for religious freedom

Preaching a Dual Identity Nicholas Must, 2017-08-21 In *Preaching a Dual Identity* Nicholas Must examines seventeenth century Huguenot sermons to study the development of French Reformed confessional identity under the Edict of Nantes Of key concern is how a Huguenot hybrid identity was formulated by balancing a strong sense of religious particularism with an enthusiastic political loyalism Must argues that sermons were an integral part of asserting this unique confessional position in both their preached and printed forms To demonstrate this Must explores a variety of sermon themes to access the range of images and arguments that preachers employed to articulate a particular vision of their community as a religious minority

in France *Richard Hooker and Reformed Orthodoxy* W. Bradford Littlejohn, Scott N. Kindred-Barnes, 2017-03-13 For more than forty years now there has been a steady stream of interest in Richard Hooker This renaissance in Hooker Studies began with the publication of the Folger Library Edition of the Works of Richard Hooker With this renaissance has come a growing recognition that it is anachronistic to classify Hooker simply as an Anglican thinker but as yet no generally agreed upon alternative label or context for his thought has replaced this older conception in particular the question of Hooker's Reformed identity remains hotly contested Given the relatively limited engagement of Hooker scholarship with other branches of Reformation and early modern scholarship to date there is a growing recognition that Hooker must be evaluated not only against the context of English puritanism and conformism but also in light of his broad international Reformed context At the same time it has become clear that if this is so scholars of continental Reformed orthodoxy must take stock of Hooker's work as one of the landmark theological achievements of the era This volume aims to facilitate this long needed conversation bringing together a wide range of scholars to consider Richard Hooker's theology within the full context of late 16th and early 17th century Reformed orthodoxy both in England and on the Continent The essays seek to bring Hooker into conversation not merely with contemporaries familiar to Hooker scholarship such as William Perkins but also with such contemporaries as Jerome Zanchi and Franciscus Junius predecessors such as Heinrich Bullinger and successors such as John Davenant John Owen and Hugo Grotius In considering how these successors of Hooker identified themselves in relation to his theology these essays will also shed light on how Hooker was perceived within 17th century Reformed circles The theological topics touched on in the course of these essays include such central issues as the doctrine of Scripture predestination Christology soteriology the sacraments and law It is hoped that these essays will continue to stimulate further research on these important questions among a wide community of scholars [The Reformation of the Decalogue](#) Jonathan Willis, 2017-10-12 Explores how the English Reformation transformed the meaning of the Ten Commandments which in turn helped shape the Reformation itself **Rule Britannia? Britain and Britishness 1707-1901** Peter Lindfield, Christie Margrave, 2015-09-04 The concept of Britishness and its constituent facets has over the past decade come increasingly to the fore In particular this can be seen in the politically and socially engaging debates surrounding the Scottish Referendum in 2014 It is an idea manifested both physically and cognitively that every Briton is aware of and engages with to a greater or lesser extent Thus the concept of Britishness is extremely current and crosses cultural political and socio economic boundaries Nevertheless Britishness is a challenging term to define and explore given its tremendously wide ranging nature and dynamic personally shaped characteristics Considering historical ideas of Britishness however can enhance the understanding of national identity in the modern world This volume does just that by gathering together original academic essays that explore the expression and understanding of Britishness in literature philosophy music historical documents art and design Each contribution offers a detailed investigation of primary material including architecture furniture historical

Scandal and Reputation at the Court of Catherine de Medici Una McIlvenna,2016-05-12 Scandal and Reputation at the Court of Catherine de Medici explores Catherine de Medici s flying squadron the legendary ladies in waiting of the sixteenth century French queen mother who were alleged to have been ordered to seduce politically influential men for their mistress s own Machiavellian purposes Branded a cabal of cuckoldry by a contemporary critic these women were involved in scandals that have encouraged a perception which continues in much academic literature of the late Valois court as debauched and corrupt Rather than trying to establish the guilt or innocence of the accused Una McIlvenna here focuses on representations of the scandals in popular culture and print and on the collective portrayal of the women in the libelous and often pornographic literature that circulated information about the court She traces the origins of this material to the all male intellectual elite of the parlementaires lawyers and magistrates who expressed their disapproval of Catherine s political and religious decisions through misogynist pamphlets and verse that targeted the women of her entourage Scandal and Reputation at the Court of Catherine de Medici reveals accusations of poisoning and incest to be literary tropes within a tradition of female defamation dating to classical times that encouraged a collective and universalizing notion of women as sexually voracious duplicitous and ultimately dangerous In its focus on manuscript and early print culture and on the

transition from a world of orality to one dominated by literacy and textuality this study has relevance for scholars of literary history particularly those interested in pamphlet and libel culture *Building the Church of England* Stephen Tong, 2023-06-12 Were mid Tudor evangelicals roaring lions or meek lambs Did they struggle with a minority complex or were they comfortable with their position of political ascendancy under Edward VI How did their theological blueprint of the True Church fit their temporal realities By relocating the Book of Common Prayer at the centre of the English Reformation Stephen Tong gives new significance to two underacknowledged drivers of reform ecclesiology and liturgy Edwardian reformers caused a sensation in England by engaging with these questions which spilled over into Ireland and continued to cast a shadow over subsequent generations of the English Protestants *Calvin's Company of Pastors* Scott M. Manetsch, 2015 In Calvin's Company of Pastors Scott Manetsch examines the pastoral theology and practical ministry activities of Geneva's reformed ministers from the time of Calvin's arrival in Geneva until the beginning of the seventeenth century During these seven decades more than 130 men were enrolled in Geneva's Venerable Company of Pastors as it was called including notable reformed leaders such as Pierre Viret Theodore Beza Simon Goulart Lambert Daneau and Jean Diodati Aside from these better known epigones Geneva's pastors from this period remain hidden from view cloaked in Calvin's long shadow even though they played a strategic role in preserving and reshaping Calvin's pastoral legacy Making extensive use of archival materials published sermons catechisms prayer books personal correspondence and theological writings Manetsch offers an engaging and vivid portrait of pastoral life in sixteenth and early seventeenth century Geneva exploring the manner in which Geneva's ministers conceived of their pastoral office and performed their daily responsibilities of preaching public worship moral discipline catechesis administering the sacraments and pastoral care Manetsch demonstrates that Calvin and his colleagues were much more than ivory tower theologians or quasi agents of the state concerned primarily with dispensing theological information to their congregations or enforcing magisterial authority Rather they saw themselves as spiritual shepherds of Christ's Church and this self understanding shaped to a significant degree their daily work as pastors and preachers **Calvin and the Book** Karen E. Spierling, Bruce Gordon, Günter Frank, Ute Lotz-Heumann, Barbara Mahlmann-Bauer, Johannes Schilling, Günther Wassilowsky, Siegrid Westphal, Tarald Rasmussen, Mathijs Lamberigts, David M. Whitford, 2015-08-19 The Protestant Reformation has long had the reputation as being a movement of the Book led by reformers like John Calvin who were men of the Book The essays in this volume reveal many of the underlying complexities of these terms Building on research and scholarly discussions of recent decades these authors delve into a variety of topics related to John Calvin and the printed word ranging from the physical changes in printed texts in the first decades of the Reformation to Calvin's thinking about the relationship of two books the Bible and his own Institutes to Christian doctrine Calvin remains a towering figure in the Protestant Reformation whose theology and religious views are still often cast as rigid and unchanging These essays emphasize in contrast the evolutions and transitions

that were fundamental to Calvin's own participation in the Reformation and to the ways that his leadership influenced developments in Reformed Christianity in the following centuries. The contributors, international experts on the history of Calvin and Reformed Protestantism and on Calvin's theology, bring a wide variety of historical and theological approaches to bear on the question of Calvin's relationship to the printed word. Taken all together, these essays will push specialists and general readers to rethink standard assumptions about Calvin's influence on Reformed Christianity and, in particular, about the interplay among theology, Reformed discipline, religious education efforts, and the printed word in early modern Europe.

Teaching the Reformation Amy Nelson Burnett, 2006-10-12. Though the Reformation was sparked by the actions of Martin Luther, it was not a decisive break from the Church in Rome but rather a gradual process of religious and social change. As the men responsible for religious instruction and moral oversight at the village level, parish pastors played a key role in the implementation of the Reformation and the gradual development of a Protestant religious culture, but their ministry has seldom been examined in the light of how they were prepared for the pastorate. *Teaching the Reformation* examines the four generations of Reformed pastors who served the church of Basel in the century after the Reformation, focusing on the evolution of pastoral training and Reformed theology, the theory and practice of preaching, and the performance of pastoral care in both urban and rural parishes. It looks at how these pastors were educated and what they learned, examining not only the study of theology but also the general education in languages, rhetoric, and dialectic that future pastors received at the city's Latin school and in the arts faculty of the university. It points to significant changes over time in the content of that education, which in turn separated Basel's pastors into distinct generations. The study also looks more specifically at preaching in Basel, demonstrating how the evolution of dialectic and rhetoric instruction, and particularly the spread of Ramism, led to changes in both exegetical method and homiletics. These developments, combined with the gradual elaboration of Reformed theology, resulted in a distinctive style of Reformed Orthodox preaching in Basel. The development of pastoral education also had a direct impact on how Basel's clergy carried out their other duties: catechization, administering the sacraments, counseling the dying, and consoling the bereaved, and overseeing the moral conduct of their parishioners. The growing professionalization of the clergy, the result of more intensive education and more stringent supervision, contributed to the gradual implantation of a Reformed religious culture in Basel.

Preaching, Sermon and Cultural Change in the Long Eighteenth Century Joris Van Eijnatten, 2009. This study offers a broad outline of the history of the eighteenth-century sermon. Thematically, it provides an overview of the research over the past three decades, as well as suggesting new approaches to the history of preaching.
