Prealgebra: A Text/Workbook Charles P. McKeague, 2008-12-31 Pat McKeague's sixth edition of PREALGEBRA is the traditional text for the modern student. Retaining the clarity and patience in explanation and concept development that has made it the book of choice for so many over the years, this new edition is replete with new examples, applications, and fresh new technology options. Throughout this text, you'll find hundreds of new and relevant applications with timely references to topics like gas prices and to companies like Google and Yahoo. Real data is used throughout and wherever possible has been updated to reflect recent changes. By showing how mathematics is used every day, the author makes students feel more at ease with the topics at hand. In a course where many students are entering with math anxiety, McKeague almost immediately calms students with chapter and section introductions, provides just-in-time study tips, and then helps students prepare with Getting Ready for Class boxes found throughout the text. This new edition comes complete with Enhanced WebAssign (EWA), the easy-to-use homework management system. With EWA, you can assign, collect, grade, and record homework assignments via the web. This complete learning system for students includes text-specific exercises as well as tutorials, videos, and links to online tutoring and eBook sections of the text. Important Notice: Media content referenced within the product description or the product text may not be available in the eBook version.

Prealgebra and Introductory Algebra Joanne S. Lockwood, Richard N. Aufmann, 2013-02-12 As in previous editions, the focus in PREALGEBRA INTRODUCTORY ALGEBRA 3E International Edition remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples and then providing them with the opportunity to immediately solve similar problems helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Third Edition also features a new design enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow.

Prealgebra and Introductory Algebra: An Applied Approach Richard N. Aufmann, Joanne Lockwood, 2010-03-05 As in previous editions, the focus in PREALGEBRA INTRODUCTORY ALGEBRA remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To

examples and the paired Examples and You Try It problems The role of active participant is crucial to success Presenting students with worked examples and then providing them with the opportunity to immediately work similar problems helps them build their confidence and eventually master the concepts To this point simplicity plays a key factor in the organization of this edition as in all other editions All lessons exercise sets tests and supplements are organized around a carefully constructed hierarchy of objectives This objective based approach not only serves the needs of students in terms of helping them to clearly organize their thoughts around the content but instructors as well as they work to design syllabi lesson plans and other administrative documents The Second Edition features a new design enhancing the Aufmann Interactive Method and the organization of the text around objectives making the pages easier for both students and instructors to follow
