

What is **VideoText** *Interactive* ?

VideoText Interactive is an innovative company that is blazing new trails in math education. Our programs, "**Algebra: A Complete Course**," and "**Geometry: A Complete Course**" use new, interactive, video-based strategies to teach Algebra and Geometry from start to finish. Students love the brief lessons, and the clear explanations of the concepts.

The main components are the "videotext" (the video lessons), and a WorkText. However, unlike textbooks that may use a video supplement, in this case, the video lessons ARE the textbook! With **computer-generated graphics**, **animation**, and **color-sequencing**, the student will actually enjoy watching the mathematics concepts develop right on the screen.
