Precalculus Concepts in Context Judy Flagg Moran, Marsha Jane Davis, Mary E. Murphy, 1996 When these authors found that conventional textbooks just weren't meshing well with the graphing technology they were using in their classes they went to the drawing board *Precalculus Concepts in Context* takes a fresh look at the content of precalculus and offers students a different approach to learning mathematics It begins with the real world of experience music commerce psychology natural science daily news etc and uncovers the mathematics already present The study of each new topic begins by examining the concept in a context from which the topic naturally arises

Precalculus Moran, Judy Flagg Moran, Marsha Davis, Mary Murphy, 2003-06 Moran Davis Murphy's text implements a modern approach to teaching precalculus by heavily emphasizing contexts in which mathematics can be used to solve real world problems and through active involvement of the student in the learning process Students are asked to answer questions and discover ideas throughout the body of the text and to explore mathematical concepts in group lab projects It employs a lively fun writing style to communicate concepts to students in a way that can be easily understood Graphing utilities are thoroughly integrated into the text and their use is required Users and reviewers have given this text high acclaim for its fresh applications projects and wonderful use of the discovery approach
