In the past fifty years the study of indigenous and pre Columbian art has evolved from a groundbreaking area of inquiry in the mid 1960s to an established field of research This period also spans the career of art historian Esther Pasztory Few scholars have made such a broad and lasting impact as Pasztory both in terms of our understanding of specific facets of ancient American art as well as in our appreciation of the evolving analytical tendencies related to the broader field of study as it developed and matured The essays collected in this volume reflect scholarly rigor and new perspectives on ancient American art and are contributed by many of Pasztory s former students and colleagues A testament to the sheer breadth of Pasztory s accomplishments *Visual Culture of the Ancient Americas* covers a wide range of topics from Aztec picture writing to nineteenth century European scientific illustration of Andean sites in Peru The essays written by both established and rising scholars from across the field focus on three areas the ancient Andes including its representation by European explorers and scholars of the nineteenth century Classic period Mesoamerica and its uses within the cultural heritage debate of the twentieth and twenty first centuries and Postclassic Mesoamerica particularly the deeper and heretofore often hidden meanings of its cultural production Figures maps and color plates demonstrate the vibrancy and continued allure of indigenous artworks from the ancient Americas Pre Columbian art can give more Pasztory declares and the scholars featured here make a compelling case for its incorporation into art theory as a whole The result is a collection of essays that celebrates Pasztory s central role in the development of the field of Ancient American visual studies even as it looks toward the future of the discipline      *The Encyclopedia Americana* ,1919      The Art and Architecture of Ancient America George Kubler,1993-01-01 Offers a survey of the paintings and architecture of the Mexican Mayan and Andean peoples

**Library of Congress Subject Headings: P-Z** Library of Congress. Subject Cataloging Division,1988 **Latin America at the End of Politics** Forrest D. Colburn,2018-06-05 After decades of ideological struggle much of it in the service of an elusive socialist ideal Latin America has embraced liberalism democracy and unfettered markets But liberalism has triumphed more by default than through exuberance The region s democracies are fragile and lethargic Despite pronounced social inequality widespread poverty and other difficulties the populace is not engaged in deep discussions about state and society The end of ideological contests has dampened political conflict but likewise lessened the sense of urgency for solving trenchant problems Political fatigue and devotion to acquisition have smothered egalitarianism as even an ideal There is an uneasy social indifference Latin America at the End of Politics explores this period of circumscribed political passions through deft portrayals of crucial political economic social and cultural issues governance entrepreneurs and markets urban bias poverty the struggle for women s equality consumerism crime environmental degradation art and migration of the poor Discussions of these issues are enriched by the poignant narratives of emblematic individuals many of whom are disoriented by the ideological void of the era Forrest Colburn s highly original analysis draws on his deep scholarly and personal familiarity with Latin America The collage of issues discussed set in a provocative framework offers a compelling interpretation of Latin America in the aftermath of the last century s ideological battles and a way to begin to talk about the region s future Library of Congress Subject Headings Library of Congress.
