Precolumbian Gold Technology Style And Iconography:

Precolumbian Gold Colin McEwan, 2000 This compilation of 13 essays by leading international scholars archaeologists art historians metallurgists etc presents research into the technology and iconography of pre Columbian goldworking areas covered are Peru Bolivia and Chile Ecuador and Colombia Central America and the Caribbean **Gold and Power in Ancient Costa Rica, Panama, and Colombia** Jeffrey Quilter, John W. Hoopes, 2003 The lands between Mesoamerica and the Central Andes are famed for the rich diversity of ancient cultures that inhabited them Throughout this vast region from about AD 700 until the sixteenth century Spanish invasion a rich and varied tradition of goldworking was practiced The amount of gold produced and worn by native inhabitants was so great that Columbus dubbed the last New World shores he sailed as Costa Rica the Rich Coast Despite the long recognized importance of the region in its contribution to Pre Columbian culture very few books are readily available especially in English on these lands of gold *Gold and Power in Ancient Costa Rica Panama and Colombia* now fills that gap with eleven articles by leading scholars in the field Issues of culture change the nature of chiefdom societies long distance trade and transport ideologies of value and the technologies of goldworking are covered in these essays as are the role of metals as expressions and materializations of spiritual political and economic power These topics are accompanied by new information on the role of stone statuary and lapidary work craft and trade specialization and many more topics including a reevaluation of the concept of the Intermediate Area Collectively the volume provides a new perspective on the prehistory of these lands and includes articles by Latin American scholars whose writings have rarely been published in English *Precolumbian Gold* Colin McEwan, 2000 *Literaturangaben* Papers from an international conference held at the Museum of Mankind to mark the opening of the exhibition *The gilded image Pre Columbian gold from South and Central America* *Soils Stones and Symbols Cultural Perceptions of the Mineral World* Nicole Boivin, Owic, 2013-07-04 Ethnographic and archaeological records feature a rich body of data suggesting that understandings of the mineral world are in fact both culturally variable and highly diverse *Soils Stones and Symbols* highlights studies from the fields of anthropology archaeology and philosophy that demonstrate that not all individuals and societies view minerals as commodities to be exploited for economic gain or as passive objects of disembodied scientific enquiry In visiting such diverse contexts as contemporary India colonial period Australia and prehistoric Europe and the Americas the papers in this volume demonstrate that in pre industrial societies minerals are often symbolically meaningful ritually powerful and deeply interwoven into not just economic and material but also social cosmological mythical spiritual and philosophical aspects of life In addressing the theme of the mineral world this book is not only unique within the social and geo sciences but also at the forefront of recent attempts to demonstrate the importance of materiality to processes of human cognition and sociality It draws upon theoretical developments relating to meaning experience the body and material culture to demonstrate that studies of rock art landscapes architecture technology and resource use are all linked through

the minerals that constantly surround us and are the focus of our never ending attempts to understand and transform them

Golden Kingdoms Joanne Pillsbury, Timothy Potts, Kim N. Richter, 2017-09-26 This volume accompanies a major international loan exhibition featuring more than three hundred works of art many rarely or never before seen in the United States It traces the development of gold working and other luxury arts in the Americas from antiquity until the arrival of Europeans in the early sixteenth century Presenting spectacular works from recent excavations in Peru Colombia Panama Costa Rica Guatemala and Mexico this exhibition focuses on specific places and times crucibles of innovation where artistic exchange rivalry and creativity led to the production of some of the greatest works of art known from the ancient Americas The book and exhibition explore not only artistic practices but also the historical cultural social and political conditions in which luxury arts were produced and circulated alongside their religious meanings and ritual functions *Golden Kingdoms* creates new understandings of ancient American art through a thematic exploration of indigenous ideas of value and luxury Central to the book is the idea of the exchange of materials and ideas across regions and across time works of great value would often be transported over long distances or passed down over generations in both cases attracting new audiences and inspiring new artists The idea of exchange is at the intellectual heart of this volume researched and written by twenty

scholars based in the United States and Latin America **A Future for Archaeology** Robert Layton, Stephen Shennan, Peter Stone, 2016-09-16 Over the last thirty years issues of culture identity and meaning have moved out of the academic sphere to become central to politics and society at all levels from the local to the global Archaeology has been at the forefront of these moves towards a greater engagement with the non academic world often in an extremely practical and direct way for example in the disputes about the repatriation of human burials Such disputes have been central to the recognition that previously marginalized groups have rights in their own past that are important for their future The essays in this book look back at some of the most important events where a role for an archaeology concerned with the past in the present first emerged and look forward to the practical and theoretical issues now central to a socially engaged discipline and shaping its future This book is published in honor of Professor Peter Ucko who has played an unparalleled role in promoting awareness of the core issues in this volume among archaeologists **How Textile Communicates** Ganaele Langlois, 2023-12-14 In this

open access publication Ganaele Langlois describes how textile has been used as a medium of communication since the prehistoric period In fact up until the 19th century civilizations throughout the world manipulated thread and fabric to communicate in a way that would astound many of us now Unlike text and images textile is haptic and three dimensional Its meaning is unfixed constantly shifting as it circulates between different owners and creators In *How Textile Communicates* Langlois dissects textile's unique capacity for communication through a range of global case studies before examining the profound impact of colonialism on textile practice and the appropriation of this medium by capitalist systems A thought provoking contribution to the fields of both fashion and communication studies Langlois writing challenges readers

preconceptions and shines new light on the profound impact of textiles on human communication The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollections com Open access was funded by York University Toronto Canada

Tibes L. Antonio Curet,Lisa M. Stringer,2010 The prehistoric civic ceremonial center of Tibes is located on the southern coast of Puerto Rico just north of the modern coastal city of Ponce Protected on two sides by a river and on the other two sides by hills this approximately 10 5 acre site remains as fertile and productive today as when first occupied over 2 000 years ago Such a rich region would have been a choice location for native peoples because of the diversity in all resources from land air and sea and also symbolically crucial as a liminal space within the landscape It may have been regarded as a space charged with numen or cosmic energy where different parts of the cosmos natural vs supernatural or world of the living vs world of the dead overlap Archaeological evidence reveals a long occupation about 1 000 years possibly followed by an extensive period of sporadic ceremonial use after the site itself was practically abandoned In this volume nineteen Caribbeanists examine the geophysical paleoethnobotanical faunal lithics base rock osteology bone chemistry and nutrition social landscape and ceremonial constructs employed at Tibes

Archaeology of Early Colonial Interaction at El Chorro de Maíta, Cuba Roberto Valcárcel Rojas,2016-01-19 During Spanish colonization of the Greater Antilles the islands natives were forced into labor under the encomienda system The indigenous people became Indios their language appearance and identity transformed by the domination imposed by a foreign model that Christianized and civilized them Yet El Chorro de Ma ta retained many of its indigenous characteristics In this volume one of the first in English to examine and document an archaeological site in Cuba Roberto Valc rcel Rojas analyzes the construction of colonial authority and the various attitudes and responses of natives and other ethnic groups His pioneering study reveals the process of transculturation in which new individuals emerged Indians mestizos criollos and helps construct the vital link between the pre Columbian world and the development of an integrated and new history

A History of the World in 100 Objects Neil MacGregor,2011-10-27 An enthralling and profoundly humane book that every civilized person should read The Wall Street Journal The blockbuster New York Times bestseller and the

companion volume to the wildly popular radio series When did people first start to wear jewelry or play music When were cows domesticated and why do we feed their milk to our children Where were the first cities and what made them succeed Who developed math or invented money The history of humanity is one of invention and innovation as we have continually created new things to use to admire or leave our mark on the world In this groundbreaking book Neil MacGregor turns to objects that previous civilizations have left behind to paint a portrait of mankind's evolution focusing on unexpected turning points Beginning with a chopping tool from the Olduvai Gorge in Africa and ending with a recent innovation that is transforming the way we power our world he urges us to see history as a kaleidoscope shifting interconnected constantly surprising A landmark bestseller A History of the World in 100 Objects is one of the most unusual and engrossing history books to be published in years None could have imagined quite how the radio series would permeate the national consciousness Well over 12.5 million podcasts have been downloaded since the first programme and more than 550 museums around Britain have launched similar series featuring local history MacGregor's voice comes through as distinctively as it did on radio and his arguments about the interconnectedness of disparate societies through the ages are all the stronger for the detail afforded by extra space A book to savour and start over The Economist **Material Encounters and Indigenous Transformations in the Early Colonial Americas**, 2019-04-09

Material Encounters and Indigenous Transformations in the Early Colonial Americas brings together 15 archaeological case studies that offer new perspectives on colonial period interactions in the Caribbean and surrounding areas through a specific focus on material culture and indigenous agency

The Cambridge World Prehistory Colin Renfrew, Paul Bahn, 2014-06-09 The Cambridge World Prehistory provides a systematic and authoritative examination of the prehistory of every region around the world from the early days of human origins in Africa two million years ago to the beginnings of written history which in some areas started only two centuries ago Written by a team of leading international scholars the volumes include both traditional topics and cutting edge approaches such as archaeolinguistics and molecular genetics and examine the essential questions of human development around the world The volumes are organised geographically exploring the evolution of hominins and their expansion from Africa as well as the formation of states and development in each region of different technologies such as seafaring metallurgy and food production The Cambridge World Prehistory reveals a rich and complex history of the world It will be an invaluable resource for any student or scholar of archaeology and related disciplines looking to research a particular topic tradition region or period within prehistory **Renewing the House** Alice Victoria Maud Samson, 2010

Over two thousand archaeological features cut directly into the limestone bedrock and an artefact assemblage of pottery shell and stone led to reconstructions of fifty domestic structures thirty of which are houses and interpretations of the spatial organization and chronology of the site between ca AD 800 and 1504 Caciques and Cemi Idols José R.
