Predatory Globalization A Critique:

Predatory Globalization Richard Falk, 1999-10-25 Trends towards economic globalization are changing the world in fundamental respects

Predatory Globalization Richard A. Falk, 1999 Many ideas guiding the formation of global policy are pushing states in the opposite direction toward cruelty and irresponsibility This book contends that the fate of humanity depends on how the role of the state unfolds

Civilising Globalisation David Kinley, 2009-08-13 Economic globalisation and universal human rights both have the aspiration and power to improve and enrich individuals and communities However their respective institutions methods practices and goals differ leading to both detrimental clashes and beneficial synergies In this book David Kinley analyses how human rights intersect with the trade aid and commercial dimensions of global economic relations taking the view that while the global economy is a vitally important civilising instrument it itself requires civilising according to human rights standards Combining meticulous research with highly informed views and experiences he outlines the intellectual policy and practical frameworks for ensuring that the global economy advances the ends of human rights argues for better exploitation of the global economy's capacity to distribute as well as create wealth and proposes mechanisms by which to minimise and manage the socially debilitating effects of its market failures and financial meltdowns

Radical Thoughts on Ethical Leadership Carole L. Jurkiewicz, Robert A. Giacalone, 2017-08-01 Radical Thoughts on Ethical Leadership provides contributions from established scholars with fresh perspectives on ethical leadership with challenging viewpoints that have been given little coverage in the literature to date Radical Thoughts on Ethical Leadership includes theoretical perspectives that are founded on unconventional approaches radical outside the box ideas that would be difficult to get through the conventional journal review process The volume brings together noted researchers from a variety of disciplines and explore non mainstream approaches to ethics and social responsibility theory research and practice in both business and public administration Grounded in the established literature and providing insight for researchers managers administrators or organizations at large the volume establishes new paradigms for the field of ethical leadership

Global Activism Ruth Reitan, 2012-08-21 This comprehensive study traces the transnationalization of activist networks analyzing their changing compositions and characters and examining the roles played by the World Social Forum in this process Comparing four of the largest global networks targeting the neoliberal triumvirate of the World Bank the IMF and the World Trade Organization the Jubilee anti debt campaigners Via Campesina peasant farmers Our World Is Not For Sale and the anarchistic Peoples Global Action Written by a scholar activist the book highlights that despite their diversity these collective actors follow a similar globalizing path and that networks in which solidarity is based on a shared identity perceived as threatened by neoliberal change are gaining strength Social forums are depicted as a fertile ground to strengthen networks and a common ground for cooperative action among them but also a battleground over the future of the forum process the global anti neoliberal struggle and other possible worlds in the making Global Activism will appeal to

students and scholars interested in globalization international relations IPE and social movements

Mitchell,Kerry Ward,2016-08-23 The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field The forty four articles in this book take stock of the history evolving literature and current trajectories of new world history These essays together with the editors introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts approaches and insights valuable to their own work The selections are organized in ten chapters that survey the history of the movement the seminal ideas of founding thinkers and today s practitioners changing concepts of world historical space and time comparative methods environmental history the big history movement globalization debates over the meaning of Western power and ongoing questions about the intellectual premises and assumptions that have shaped the field

Globalism Manfred B. Steger,2002 Globalism The New Market Ideology rejects the notion that we find ourselves at the end of ideology and that democracy has won Instead Steger argues that the opening decade of the 21st century will constitute a teeming battlefield of clashing ideologies The chief protagonist is the dominant neoliberal market ideology Steger calls globalism After identifying and evaluating the five central claims of globalism including assertions that globalization is inevitable nobody is in charge of globalization and globalization benefits everyone Steger offers an overview of the counterclaims made by anti globalist forces Visit our website for sample chapters

Neoliberalism and National Culture Cory Blad,2011-09-20 Neoliberal globalization is understood to have a corrosive effect on the state Reductions in economic regulatory capacities combined with an ideological attack on the public necessity of social spending has left many with the impression that the state is a weakened institution at best This book argues that despite popular claims to the

contrary global capitalism requires state institutional authority but the legitimation of this authority is increasingly tied to cultural rather than economic means Canada and Quebec are presented in historical comparative context as examples of how neoliberal states achieve global political economic integration while relying on cultural legitimation to maintain social policies working to mitigate social changes resulting from increased global integration **Globalisms** Manfred B.

Steger, 2008-12-16 This new edition of Manfred Steger's award winning book explores the three principal ideologies of our time the dominant market globalism based on a neoliberal vision of the world as a single marketplace the justice globalism developed over the last decade by a transnational coalition of global civil society forces and the jihadist globalism of radical Islamists seeking to galvanize their global community of believers into violent action Market globalism has responded to these challengers by turning into imperial globalism a political belief system that marries the capitalist language of the 1990s with the security concerns of our post 9/11 world Steger one of the world's leading scholars on these subjects explores globalization's central questions What exactly are the core claims of these conflicting globalisms How does the imperial globalism of the 2000s differ from the market globalism of the 1990s How has justice globalism managed to mature into a coherent ideology What are the most likely future trajectories of this great ideological struggle of the twenty first century Written with impressive historical and theoretical breadth this groundbreaking work is essential reading for all those concerned with the key questions that our shrinking world must face **Direct Action and Democracy Today** April

Carter, 2005-01-14 More and more people around the world are protesting to defend their rights resist injustice or oppose undemocratic rule In this book April Carter debates the nature and meaning of such protest and discusses the relationship between direct action and people's claims for greater democratic control not only against repressive regimes but also in liberal parliamentary states The book begins by looking at non violent direct action in historical context tracing its evolution from the end of the Second World War to the present day It examines the association between direct action and the social movements of recent decades and charts its role in the new global movement against neo liberal economic policies The second part of the book relates direct action to political theory to ascertain how it fits with theories of liberal republican and deliberative democracy It goes on to consider socialist and cosmopolitan approaches to democracy and popular resistance and concludes by looking at the implications of protest politics for current democratic thinking and contemporary world events This book will be a valuable resource for students and scholars of international politics and political theory

International Encyclopedia of Adult Education L. English, 2016-04-30 The Encyclopedia of Adult Education is the first comprehensive reference work in this important and fast growing field and is an invaluable resource for adult educators who research and teach in the fields of higher education work in community based settings or practise in public or private organizations Its 170 articles written by an international team of contributors from over 17 countries detail the research and practice of the field from its emergence as a separate discipline to the present day covering key concepts issues and
