## **Predication In Caribbean English Creoles Creole Language Library Vol 10:**

**Predication in Caribbean English Creoles** Donald Winford, 1993-01-01 This is the first major study of the conservative or basilectal English creoles of the Anglophone Caribbean since Bailey's 1966 and Bickerton's 1975 descriptions of Jamaican and Guyanese Creole respectively. The book offers a comprehensive unified treatment of the core areas of CEC predication including the verb complex, auxiliary ordering, voice and valency, copular and attributive predication, serial verb constructions and complementation. Particularly note-worthy is its utilization of an extremely rich data base and a variety of sources to provide an up to date state of the art account of predicate structures in CEC. The book presents new analyses of several areas of CEC syntax including such phenomena as passivization, serialization and complementation which have not been thoroughly analyzed if at all in the previous literature. The areas covered in the book involve a wide range of grammatical phenomena centering around the various sub-classes of verb and their subcategorization. The book consists of an introduction, a conclusion and six chapters each of which explores some aspect of the behavior of verbs or verb-like predicators and the constructions in which they occur. The book is intended to be a pre-theoretical account of the facts of CEC predication. However, to further elucidate the workings of the grammar and add some degree of explicitness to the description, the author also presents more formal analyses of the grammatical phenomena employing the framework of Generalized Phrase Structure Grammar (GPSG).

**Dictionary of the English/Creole of Trinidad & Tobago** Lise Winer, 2009-01-16 Using the historical principles of the Oxford English Dictionary, Lise Winer presents the first scholarly dictionary of this unique language. The dictionary comprises over 12,200 entries including over 4,500 for flora and fauna alone, with numerous cross-references. Entries include definitions, alternative spellings, pronunciations, etymologies, grammatical information and illustrative citations of usage. Winer draws from a wide range of sources: newspapers, literature, scientific reports, sound recordings of songs and interviews, spoken language to provide a wealth and depth of language clearly situated within a historical, cultural and social context.

*Creoles, Their Substrates, and Language Typology* Claire Lefebvre, 2011-01-01 Since creole languages draw their properties from both their substrate and superstrate sources, the typological classification of creoles has long been a major issue for creolists, typologists and linguists in general. Several contradictory proposals have been put forward in the literature. For example, creole languages typologically pair with their superstrate languages (Chaudenson 2003) with their substrate languages (Lefebvre 1998) or even creole languages are alike (Bickerton 1984) such that they constitute a definable typological class (McWhorter 1998). This book contains 25 chapters bearing on detailed comparisons of some 30 creoles and their substrate languages. As the substrate languages of these creoles are typologically different, the detailed investigation of substrate features in the creoles leads to a particular answer to the question of how creoles should be classified typologically. The bulk of the data show that creoles reproduce the typological features of their substrate languages. This argues that creoles cannot be claimed to constitute a definable typological class. The Syntax of Jamaican Creole Stephanie Durrleman, 2008 This book offers an in depth study of the overall syntax of basilectal Jamaican Creole the first since Bailey 1966 The author a Jamaican linguist meticulously examines distributional and interpretative properties of functional morphology in Jamaican Creole JC from a cartographic perspective Cinque 1999 2002 Rizzi 1997 2004 thus exploring to what extent the grammar of JC provides morphological manifestations of an articulate IP CP and DP The data considered in this work offers new evidence in favour of these enriched structural analyses and the instances where surface orders differ from the underlying functional skeleton are accounted for in terms of movement operations This investigation of Jamaican syntax therefore allows us to conclude that the poor inflectional morphology typical of Creole languages in general and of basilectal Jamaican Creole in particular does not correlate with poor structural architecture Indeed the free morphemes discussed as well as the word order considerations that indicate syntactic movement to designated projections serve as arguments in favour of a rich underlying functional map

**Language Issues in Saint Vincent and the Grenadines** Paula Prescod, 2015-02-15 This collection is a pioneer study of linguistic phenomena in St Vincent and the Grenadines written by scholars who are both respected in their field of research and connected to the linguistic realities in the geographic area under investigation This book covers the subfields of sociolinguistics discourse analysis ethnography historical linguistics and syntax It concentrates on mainland St Vincent and the Grenadine island of Bequia The volume will appeal to a broad audience including not just specialists in linguistics but also teacher trainers and educators

**Issues in the Study of Pidgin and Creole Languages** Claire Lefebvre, 2004-01-01 The content of this book is concerned with various issues at stake in Creole studies that are also of interest for general linguistics These include the general issue of Creole genesis and of the accelerated linguistic change that characterizes the

emergence of these languages as compared to ordinary cases of linguistic change the problem of the development of morphology in incipient Creoles the problem of the validity of data in linguistic analysis the issue of multifunctionality as regards the concept of lexical entry the question of whether Creole languages are semantically more transparent than languages not known as Creoles the issue of whether Creole languages constitute a typologically identifiable class and the problem of the interaction between the processes involved in the emergence and development of Creole languages The purpose of this book is to present the major debates that are currently taking place in the field of Creole studies evaluate the arguments against data mainly drawn from Haitian Creole and address the issues at stake within the framework of new paradigms The various positions on each issue are summarized on the basis of a thorough review of the literature

**Substrate and Adstrate** Micah Corum, 2015-04-24 This volume provides a large scale in depth analysis of locative structures in Nigerian Pidgin and Ghanaian Pidgin English and compares those structures to locatives in their lexifier substrate and adstrate languages The work draws on new research methods for investigating substrate and adstrate influence in semantics and creole genesis

**Traveling Conceptualizations** Andrea Hollington, 2015-08-15 Traveling Conceptualizations is a monograph which is concerned with African cultural conceptualizations in Jamaican It contributes to the study of Transatlantic relations between Africa and Jamaica and in particular to the understanding of African influences in Jamaican linguistic practices The book constitutes a first study of these phenomena from a cognitive linguistic perspective and investigates traveling conceptualizations at the intersection of language culture and cognition The author explores Jamaican linguistic practices in different domains namely conceptualizations involving parts of the human body conceptualizations of events roles and relations underlying serial verb constructions and conceptualizations of kinship and names The study can be regarded as an innovative contribution as it looks not only at linguistic expressions on the surface but discusses the underlying cultural and cognitive basis of semantic structures The study thus aims at making African Jamaican connections on the conceptual level visible and also discusses notions of consciousness agency and emblematicity

**History, Society and Variation** J. Clancy Clements, Thomas A. Klingler, Deborah Piston-Hatlen, Kevin J. Rottet, 2006-07-19 This volume presents a collection of new articles by sixteen specialists in the field of pidgin and creole studies assembled in honor of the world renowned creolist Albert Valdman The articles written from a variety of theoretical perspectives are organized thematically in three sections on the history of specific pidgins or creoles including Louisiana Creole and Haitian Creole on the sociohistorical settings that gave rise to these contact languages and issues affecting their future development and on issues of linguistic variation and change In keeping with Valdman's own primary interests the French based creoles receive the most attention including both those of the Atlantic zone and those of the Indian Ocean but the volume also presents significant scholarship on English and Portuguese based varieties
