## **Predictive Astrology An Insight:**

**Predictive Astrology** Dinesh Shankar Mathur,1999-01-01 Astrology can be considered a useful branch of knowledge only if its concepts and principles could be applied to assess the personality and life of a person and to look into the years ahead to tell him as to what is in store for him The Signs Houses and Planets are the three basic factors which need to be understood clearly for developing successful predictive ability In PREDCTIVE ASTROLOGY AN INSIGHT rules and facts pertaining to each of these factors have been given and the effect of one factor on the other has been analysed in a very comprehensible and instructive manner For timing the events in the life of a person correctly the Vimshottari Dasa System has been rationalised to fit the calendar in vogue and details of supportive transit indications have also been given This book is a manual of practical astrology designed to enable the reader to handle queries relating to various facets of everyday life successfully

*Predictive Astrology* Dinesh Shankar Mathur,1999 Astrology can be considered a useful branch of knowledge only if its concepts and principles could be applied to assess the personality and life of a person and to look into the years ahead to tell him as to what is in store for him

*Foretelling Widowhood* Mr̥dulā Trivedī,2008-01-01 Foretelling Widowhood is the fruit of research work carried out by us during the last two decades A work of predictive astrology it amalgamates a plethora of principles enshrined in various classical texts and practical study of birth charts of those who have been unfortunate enough to suffer the immeasurable grief and plight of untimely widowhood Untimely widowhood is the biggest tragedy that can befall a woman and is irreversible In olden days widowhood in general and untimely widowhood in particular was considered an unpardonable sin and a woman had to commit Sati that is to mount the pyre of her late husband Was not this inhuman Women would be ever grateful to Raja Ram Mohan Rai whose untiring efforts led to rooting out of this obnoxious practice A common belief among masses as also amongst self styled astrologers is that mangati females or those females having kuja dosa in their birth charts are predisposed to suffer widowhood We would like to humbly opine that this belief is only partially correct It is not certain that females having kuja dosa will essentially undergo the miseries of marital disaster such as widowhood Many females who suffered untimely widowhood were not mangati either from ascendant or from Moon or from Venus This is difinitely a wrong concept that widowhood will curse only a mangati female In fact much is not known about the kuja dosa and its actual effect

*The Art of Predictive Astrology* Carol Rushman,2002 Astrologer Carol Rushman lays out a step by step system that astrologers can use to forecast significant events including love and financial success When finished with the book they will be able to predict cycles and trends for the next several years and give their clients 15 important dates for the coming year

**Fundamentals of Astrology** M. Ramakrishna Bhat,1988-01-01 Astrology is both Science and Art Hence only the talented can appreciate and understand it Rightly Visnugupta declares that nobody other than a sage can master the ocean like science of astrology The great Varahamihira declares No sin will creep into a place that is sanctified by the presence of a true astrologer No person who studies and divines the course of destiny will ever

be found in hell but will reside permanently in the world of Brahman This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings and gives a spiritual bias to astrology The reader is taken step by step in this work from the rudiments Viz the distribution of constellations in the Zodiacal belt which is divided into twelve Signs and the planetary hierarchy through the method of calculating the ascendant and other houses of a natal chart assessment of the strengths influences aspects affliction mutual relations etc of the planets to the final stage of reading the brighter and darker sides of the subject's life his chances of success and failure their periods ingress of the soul into the mortal coil and exit therefrom as well as its departure to other worlds according to its karma In this book an attempt has been made to give a good account of the science of astrology with a view to making the reader a good and true astrologer It also shows that astrology does not make man a fatalist a helpless automation in the hands of a merciless Fate It should on the other hand help him to take to self exertion and self help This hoary lore according to the author is to be practised not for selfish ends but to guide the needy and the distressed to remove the cause of their suffering and to turn their attention towards God

**An Unique and Scientific Study of Rahu and Ketu** Saket Shah, 2020-03-29 Astrology is an integral part of Indian culture It is as old as the vedas It explains the celestial phenomena and the corresponding terrestrial events It explains the cause and effect of events The main basis of astrological thought is that the celestial phenomena effects the life and events on the earth It does not permit anyone to conclude any event just as an accident Celestial bodies generate a lot of energy in their movements and astrology shows us how we can use these energies operative in our lives in the best possible way Astrology is a science which helps the mankind

to put their life in the right path Astrology was tested and experienced for many centuries and its knowledge was handed down the ages to new generations A study of the civilizations flourished in different parts of the world shows that Astrology played an important role in their life The places where astrology does not flourish are mostly barbarous lacking in knowledge and they don't have any communication with the universe In India astrology has been considered as the best guide to achieve the fourfold objectives of life and they are Dharma Artha Kama and Moksha All the activities of human being are directed towards the achievement of these goals and astrology helps us to achieve them in an organized manner Astrology has reached this stage after nullifying the criticisms which it has to face from the beginning itself Astrology has the seven visible grahas Sun Moon Mars Mercury Jupiter Venus and Saturn along with the two lunar nodes Rahu and Ketu Rahu and Ketu are accepted as grahas in Indian astrology only They are considered as shadowy grahas The details available about Rahu and Ketu are confusing Astrological texts don't have a unanimous opinion about Rahu Ketu These opinions create confusion in the mind of astrologers as well as astrology followers So there is a need of study on Rahu Ketu Rahu Ketu are considered as recent developments by many scholars But this is not true Their references are available in Vedas itself So with a view to give some clear opinion on Rahu Ketu I have chosen this subject for study Further we know that astrology is the most criticized subject and research in this field are very less So I have tried to answer these criticisms and I hope that my study will encourage more researches in this field
