

The Pregnancy Experience

Why will no one tell me what happens at the hospital?

What happens if I fail one of the genetics screens?

Why is it so hard to tell people not to touch me?

Why do I feel so alone?

Why can't I keep a list of things to do organized in my head anymore?

Why doesn't my husband feel as connected to our baby?

Pregnancy Experience:

On Female Body Experience Iris Marion Young, 2005-01-27 Written over a span of more than two decades the essays by Iris Marion Young collected in this volume describe diverse aspects of women's lived body experience in modern Western societies Drawing on the ideas of several twentieth century continental philosophers including Simone de Beauvoir Martin Heidegger Luce Irigaray Julia Kristeva and Maurice Merleau Ponty Young constructs rigorous analytic categories for interpreting embodied subjectivity The essays combine theoretical description of experience with normative evaluation of the unjust constraints on their freedom and opportunity that continue to burden many women The lead essay rethinks the purpose of the category of gender for feminist theory after important debates have questioned its usefulness Other essays include reflection on the meaning of being at home and the need for privacy in old age residences as well as essays that analyze aspects of the experience of women and girls that have received little attention even in feminist theory such as the sexuality of breasts or menstruation as punctuation in a woman's life story Young describes the phenomenology of moving in a pregnant body and the tactile pleasures of clothing While academically rigorous the essays are also written with engaging style incorporating vivid imagery and autobiographical narrative On Female Body Experience raises issues and takes positions that speak to scholars and students in philosophy sociology geography medicine nursing and education

roles in childbirth and the ways in which birth transforms a man's identity and his relations with his partner his new baby and society In other societies birth is recognized as an important rite of passage for fathers Yet in American culture despite the fact that fathers are admitted into delivery rooms little attention is given to their transition to fatherhood

Lips, 2020-04-10 Are sex and gender really two different things How malleable is gender identity Do both gender and sex have to be conceptualized as binaries as having two distinct but complementary categories Should we emphasize gender differences or is that the wrong question When should we call a gender difference small Are women really nonaggressive or does that label stem from stereotyping How does subtle or modern sexism work on its targets Scholarship on these and other gender related questions has exploded in recent years Hilary Lips synthesizes that research for students in an accessible and readable way Concepts on sex and gender are presented with the social context in which they were developed As in previous editions Lips takes a multicultural approach discussing the gender experiences of people from a wide range of races cultures socioeconomic statuses and gender and sexual identities She emphasizes empirical research but takes a critical approach to that research
