*Pregnant Man* Gordon Churchwell, 2010-11-16 Gordon Churchwell has a problem he's never faced before his wife Julie is pregnant What is happening to me It's 6:30 A.M. My Wife is peeing on what looks like a scale model of the spaceship from 2001 A Space Odyssey It's an early pregnancy test called something like First Alert or Early Response some name that sounds like a smoke detector or a piece of EMS equipment From this unavoidable physiological fact follows the greatest psychological crisis of his life a story that eventually illuminates the journey of all men and women as they make the passage to becoming parents What really goes through a pregnant man's mind Combining his personal story with interviews with doctors midwives evolutionary scientists and other fathers to be Gordon Churchwell delivers the gritty intimate details as well as important new information in an irreverent style that mixes poignancy wit and laugh out loud humor He covers all the issues without flinching On relationships There are moments when you are not just individuals trying to solve a personal problem but representatives of your gender acting out some social drama Over Julie's shoulder I see a chorus of angry women On sex While the party line is that Julie remains my beautiful partner to whom I am devoted to Mr. Weenie she is beginning to look like Danny DeVito in Batman Returns On why men find change difficult Why do I feel like a bystander in the most important 280 days of my life Where are the stories that make a man feel like he's in it and not out of it The answer is simple When it comes to the stories of fatherhood our culture has discarded them When he starts having morning sickness Churchwell turns science detective and makes some startling discoveries He finds out that male pregnancy symptoms are extremely common and uncovers evidence of a physiological paternal response men have hormonal changes too which help prepare them emotionally for fatherhood Does nature make fathers out of men Working with a leading evolutionary psychologist Churchwell argues for a revolutionary new perspective on a man's role in reproduction Parental investment on both sides is not automatic Pregnancy behavior is part of a continual process of negotiation about parental commitment A

man's response to pregnancy including sympathetic symptoms may signal his plans about investing in the child. His behavior can directly affect the mother's own response including the quality of her maternal care. By showing that men have a physiological transformation of their own that integrates them into the biology of the family, Churchwell restores men to the story of reproduction. Expecting is an important contribution to the new literature of fatherhood that will amuse and inspire men and women as they transform themselves into parents. This personal story ends where it began with him and his wife Julie struggling this time as a team through a harrowing thirty-five hour birth ordeal and welcoming their daughter Olivia into the world.

On the Nature of the Universe Lucretius, 2008-10-09. Therefore this terror and darkness of the mind, Not by the sun's rays nor the bright shafts of day, Must be dispersed as is most necessary. But by the face of nature and her laws. Lucretius' poem On the Nature of the Universe combines a scientific and philosophical treatise with some of the greatest poetry ever written. With intense moral fervor, Lucretius demonstrates to humanity that in death there is nothing to fear, since the soul is mortal and the world and everything in it is governed not by the gods but by the mechanical laws of nature. By believing this, men can live in peace of mind and happiness. Lucretius bases his argument on the atomic theory expounded by the Greek philosopher Epicurus. His poem explores sensation, sex, cosmology, meteorology, and geology through acute observation of the beauties of the natural world and with moving sympathy for man's place in it. Sir Ronald Melville's

accessible and accurate verse translation is complemented by an introduction and notes situating Lucretius scientific theories within the thought of 1st century BCE Rome and discussing the Epicurean philosophy that was his inspiration and why the issues Lucretius poem raises about the scientific and poetical views of the world continue to be important ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

The Dramatic Journey of Eugene O'Neill and Samuel Beckett Jaya Kapoor, 2020-06-25 The moderns found these two writers to be one of them and the post moderns said their essence was post modern They were found to have deep existential core and humanism was the defining spirit of their works When a writer writes with deep empathy for the human situation the work is freed from the traps of ideologies and techniques It reaches out to people beyond time and space Truth is complex and individual in manifestation but simple and universal in essence This simplicity is the most difficult to achieve and most prized achievement of an artist This simplicity of the communication is what the journey of O'Neill and Beckett has been all about Their journey is marked by unsparing effort to give a universal metaphor to an immensely subjective experience The voices of two of the greatest dramatists come together to tell not just what drama has been all about in the 20th Century but also what it is in our own day It looks not just into the plots or characters to understand their works but also how they communicated so much more through the way they visualized the technical aspects and theatrical impact of their plays

Nurturing Dads William Marsiglio, Kevin Roy, 2012-01-01 American fathers are a highly diverse group but the breadwinning live in biological dad prevails as the fatherhood ideal Consequently policymakers continue to emphasize marriage and residency over initiatives that might help foster healthy father child relationships and creative co parenting regardless of marital or residential status In Nurturing Dads William Marsiglio and Kevin Roy explore the ways new initiatives can address the social cultural and economic challenges men face in contemporary families and foster more meaningful engagement between many different kinds of fathers and their children What makes a good father The firsthand accounts in Nurturing Dads show that the answer to this question varies widely and in ways that counter the mainstream provide and reside model of fatherhood Marsiglio and Roy document the personal experiences of more than 300 men from a wide range of socioeconomic backgrounds and diverse settings including fathers to be young adult fathers middle class dads stepfathers men with multiple children in separate families and fathers in correctional facilities They find that most dads express the desire to have strong close relationships with their children and to develop the nurturing skills to maintain these bonds But they also find that disadvantaged fathers including young dads and those in constrained financial and personal circumstances confront myriad structural obstacles such as poverty inadequate education and poor job opportunities Nurturing Dads asserts that society should help fathers become more committed and attentive caregivers and that federal and state agencies work sites grassroots advocacy groups and the media all have roles to play Recent efforts to introduce state initiated paternity leave should be coupled with social programs that encourage fathers to develop unconditional commitments to children to co parent with mothers to establish partnerships with their children s other caregivers and to develop parenting skills and resources before becoming fathers via activities like volunteering and mentoring kids Ultimately Marsiglio and Roy argue such combined strategies would not only change the policy landscape to promote engaged fathering but also change the cultural landscape to view nurturance as a fundamental aspect of good fathering Care is a human experience not just a woman s responsibility and this core idea behind Nurturing Dads holds important implications for how society supports its families and defines manhood The book promotes
