Prehispanic Source Materials For The Study Of Philippine History:

Prehispanic Source Materials for the Study of Philippine History William Henry Scott, 1984 **Barangay** William Henry Scott, 1994 Barangay presents a sixteenth century Philippine ethnography Part One describes Visayan culture in eight chapters on physical appearance food and farming trades and commerce religion literature and entertainment natural science social organization and warfare Part Two surveys the rest of the archipelago from south to north The Social Dynamics of Deforestation in the Philippines Gerhard van den Top, 2003 This work offers a detailed case study on the dynamics of forest use degradation and loss in Northeast Luzon Philippines Following an interdisciplinary approach the study charts the degradation and loss of forest in this area between 1950 and 1990 as it relates to the social and political context of logging forest migration and changes in upland agriculture Based on ten years of research the author introduces us to the actions livelihood options and motives of all the principal group of actors **An Inculturation Model of the Catholic Marriage Ritual** David William Antonio, 2002 In An Inculturation Model of the Catholic Marriage Ritual David William Antonio presents a model of how the Catholic Ritual of Marriage may be adapted to the language culture and traditions of a particular people specifically the Ilocanos of Northern Luzon in the Philippines Vatican II called for the revision and adaptation of the rite of marriage exhorting local churches to develop their own rites suited to their people's particular customs and traditions The work of preparing a rite of marriage for a particular region cannot be limited to merely translating the typical edition There has to be a thorough examination of both the editio typica and the people's religious and cultural traditions the socio economic and political realities that confront them attending to the positive values expressed therein Only a dialogical process such as this will guarantee a liturgy that is faithful to the Christian tradition and meaningful to a given people An Inculturation Model of the Catholic Marriage Ritual will serve as a model for people of other cultures who have to do similar liturgical preparation and will be important especially to churches whose membership includes people who experienced colonization but never lost the riches of their own cultures in the blending of cultures and beliefs that followed The Hybrid Tsinoys Juliet Lee Uytanlet, 2016-06-28 The Hybrid Tsinoys is a study of hybridity and homogeneity as sociocultural constructs in the development of current ethnic identities of Chinese Filipinos This study employs a descriptive ethnographic research method to discover how they see or define themselves in terms of ethnicity Chinese Filipino or both and how their perspectives affect other aspects of their lives language marriage and family The research proposes that there are different kinds of Chinese Filipinos as evidenced in the six classifications in chapter 4 Further most of them have constructed a hybrid culture exclusively and uniquely their own On the one hand they are still attached to their cultural roots on the other hand they cannot evade the fact that they are influenced by their host country and the present global and migratory age we live in Second third and fourth generation Chinese Filipinos demonstrate their hybridity in language and mindset This dissertation also lays out some challenges in relation to doing mission among them **A Forest**

of Dreams Noah Theriault, 2025-09-30 After the fall of the Marcos regime in 1986 the Philippines became the first country in Asia to codify Indigenous rights This hard fought reform aimed to protect the ancestral lands of the archipelago s remaining Indigenous communities Since then these communities have become increasingly embroiled in resource politics and many have found that claiming their rights does as much to facilitate their dispossession as to prevent it In *A Forest of Dreams* Noah Theriault examines the entanglement of capitalism conservation and indigeneity in southern Palawan a place widely coveted as the Philippines last frontier Drawing on a decade of research Theriault reveals how bureaucrats investors and conservationists impose their own designs on Indigenous rights as they vie for land labor and legitimacy But he also asks how those designs collide with the dreams both figurative and literal of Indigenous persons themselves What results is a story of unexpected agency and contingency in which humans wildlife and powerful forest beings complicate prevailing theories of social and environmental change Through the experiences of a specific community *A Forest of Dreams* traces how Palawan families understand and influence the powerful forces that have enclosed them within an ancestral domain a protected landscape and an expanding plantation zone Each chapter opens with a memorable historical or ethnographic episode from Lapulapu s fateful battle with Magellan and the primitivist visions of Charles Lindbergh to truckloads of tree planting college students a screeching civet oneiric owl sorcery and a bitter dispute over almaciga resin Informed by Palawan analyses of their own history Theriault argues that efforts to save the last frontier have reinforced rather than disrupted long term processes of colonization and capitalist expansion Yet he also shows how studies of the environment development and human rights in Southeast Asia can better account for the critical agency of those whose lands are at stake *Making World*

Development Work Grégoire Leclerc, Charles A. S. Hall, 2007-06-16 The authors reexamine world development usually the province of economists as professionals trained in the natural sciences They show how we have and might use tested scientific and technical procedures and concepts as well as science itself to achieve much better results than what has been characteristic of the past Leclerc and Hall contend that to scholars with a scientific background the process of development and the economic logic behind it often look almost surrealistic The basic question at the foundation of this review is this Why should something so important as world development something capable of absorbing such vast sums of money and of human goodwill something that impacts the people and the environment so much continue to be organized and planned using economic techniques and theories that are both unconfirmed experimentally and proven to have led to development failures

BOOK JACKET **Philippine Ethnography** Shiro Saito, 2019-09-30 This volume is a comprehensive listing of reference sources for Philippine ethnology excluding physical anthropology and de emphasizing folklore and linguistics It is published as part of the East West Bibliographic Series This listing includes books journal articles mimeographed papers and official publications selected on the basis of the ratings of sixty two Philippine specialists Several titles were added to fill the need for material in certain areas 2 Peter and Jude Samson L. Uytanlet, 2023-08-31 2 Peter and Jude though brief are rich

resources for understanding the call to live godly and holy lives. Importantly they provide essential discussion on false teachers, individuals whom many of us today narrowly define based on their unorthodox views or teachings. While there is truth in this definition, Dr. Uytanlet expands on this by skillfully expounding 2 Peter and Jude to show that our understanding of false teachers should be broadened to include lifestyle and character. In acknowledging these important areas, 2 Peter and Jude demonstrate that false teachers may hold to correct doctrines but their loose morals and abuse of power make them false teachers. This key commentary highlights the importance of mining these Catholic Epistles further and expertly brings their messages to an Asian context. The Asia Bible Commentary Series empowers Christian believers in Asia to read the Bible from within their respective contexts. Holistic in its approach to the text, each exposition of the biblical books combines exegesis and application. The goal is to strengthen the Body of Christ in Asia by providing a pastoral and contextual exposition of every book of the Bible.

Prehistoric Maritime Cultures and Seafaring in East Asia Chunming Wu, Barry Vladimir Rolett, 2019-12-03. This book focuses on prehistoric East Asian maritime cultures that predated the Maritime Silk Road. The Four Seas and Four Oceans navigation system recorded in historical documents of ancient China. Origins of the Maritime Silk Road can be traced to prosperous Neolithic and Metal Age maritime-oriented cultures dispersed along the coastlines of prehistoric China and Southeast Asia. The topics explored here include Neolithisation and the development of prehistoric maritime cultures during the Neolithic and early Metal Age; the expansion and interaction of these cultures along coastlines and across straits; the two-layer hypothesis for explaining genetic and cultural diversity in south China and Southeast Asia; prehistoric seafaring and early sea routes; the paleogeography and vegetation history of coastal regions; Neolithic maritime livelihoods based on hunting, fishing, foraging, adaptations, rice and millet cultivation and their dispersal along the coast and across the open sea; and interaction between farmers and maritime-oriented hunter-fisher foragers. In addition, a series of case studies enhances understanding of the development of prehistoric navigation and the origin of the Maritime Silk Road in the Asia Pacific region.
