Pawel Lech Polkowski,2023-03-27 This book presents proceedings of the conference devoted to rock art and graffiti studies in Egypt and Sudan that took place in Cairo from 10th to 12th November 2019 The thematic spectrum of the contributions is very wide in terms of both their geographical and their chronological range encompassing figural and textual sources dating from the Late Palaeolithic through the Predynastic Dynastic and Graeco Roman periods up to Christian and Islamic times Many of the papers combine evidence from various archaeological domains and also attempt to better integrate graffiti and rock art materials in search of a common ground for research Thus the volume provides a good overview of the current state of investigations in these two fields of study in Egypt and Nubia *Environment and Society in Roman North Africa* Brent D. Shaw,2024-12-11 The impact of a changing environment on human society and conversely the impact of man s activities upon the environment are important and contentious subjects today Climatic and environmental change have also been credited with bringing about major shifts in human history One such case is that of the decline of Roman North Africa and its conquest by the Arabs The evidence for this process is however far from clear cut and Professor Shaw s concern in these studies is firstly to re examine what is known from both archaeological and written sources and how it has been interpreted work which has led to some substantial revisions of accepted accounts In the final three articles he turns to analyse how Roman society functioned on the edge of the desert and in particular to investigate the careful exploitation and control of critical water resources **The Figured Landscapes of Rock-Art** George Nash,Christopher Chippindale,2004-04 A companion to *The Archaeology of Rock Art* Cambridge 1998 this new collection edited by Christopher Chippindale and George Nash addresses the most important component around the rock art panel its landscape The Figured Landscapes of Rock Art draws together the work of many well known scholars from key regions of the world for rock art and for rock art
