Cultural Economy of Ancient Greece Catherine E. Pratt, 2021-03-18 In this book Catherine E Pratt explores how oil and wine became increasingly entangled in Greek culture from the Late Bronze Age to the Archaic period Using ceramic architectural and archaeobotanical data she argues that Bronze Age exchange practices initiated a strong network of dependency between oil and wine production and the people who produced exchanged and used them After the palatial collapse these prehistoric connections intensified during the Iron Age and evolved into the large scale industries of the Classical period Pratt argues that oil and wine in pre Classical Greece should be considered cultural commodities products

that become indispensable for proper social and economic exchanges well beyond economic advantage Offering a detailed diachronic account of the changing roles of surplus oil and wine in the economies of pre classical Greek societies her book contributes to a broader understanding of the complex interconnections between agriculture commerce and culture in the ancient Mediterranean

Coming Together Attila Gyucha, 2019-02-28 Archaeologists anthropologists and classicists discuss how urbanization first emerged in strikingly different sociopolitical contexts in North America Europe and the Near East The pursuit for universally applicable definitions of the terms urban and city has frequently distracted scholars from scrutinizing processes of how ancient nucleated settlements evolved and developed Based on the premise that similar social dynamics to a great extent governed nucleation trajectories throughout human history Coming Together focuses on both prehistoric aggregated and early urban settlements Drawing from a variety of theoretical and methodological approaches archaeologists anthropologists and classicists discuss how nucleation unfolded in strikingly different sociopolitical contexts in North America Europe and the Near East The major themes of the volume are nucleation s origins pathways to sustainability and the transformative role of these sites in sociopolitical and cultural change
