Prehistoric London Elizabeth Oke Gordon,John Aneurin Grey Griffith,1932 The Oxford Handbook of Contemporary British and Irish Poetry Peter Robinson,2013-09-26 The Oxford Handbook of Contemporary British and Irish Poetry offers thirty eight chapters of ground breaking research that form a collaborative guide to the many groupings and movements the locations and styles as well as concerns aesthetic political cultural and ethical that have helped shape contemporary poetry in Britain and Ireland The book s introduction offers an anthropological participant observer approach to its variously conflicted subjects while exploring the limits and openness of the contemporary as a shifting and never wholly knowable category The five ensuing sections explore a history of the period s poetic movements its engagement with form technique and the other arts its association with particular locations and places its connection with and difference from poetry in other parts of the world and its circling around such ethical issues as whether poetry can perform actions in the world can atone redress or repair and how its significance is inseparable from acts of evaluation in both poets and readers Though the book is not structured to feature chapters on authors thought to be canonical on the principle that contemporary writers are by definition not yet canonical the volume contains commentary on many prominent poets as well as finding space for its contributors enthusiasms for numerous less familiar figures It has been organized to be read from cover to cover as an ever deepening exploration of a complex field to be read in one or more of its five thematically structured sections or indeed to be read by picking out single chapters or discussions of poets that particularly interest its individual readers Landscape and Subjectivity in the Work of Patrick Keiller, W.G. Sebald, and Iain Sinclair David Anderson,2020-08-27 This book situates the film maker Patrick Keiller alongside the writers W G Sebald and Iain Sinclair as the three leading voices in English psychogeography offering new insights to key works including *London The Rings of Saturn* and *Lights Out for the Territory* Excavating social and political contexts while also providing plentiful close analysis it examines the cultivation of a distinctive affective mode or sensibility especially attuned to the cultural anxieties of the twentieth century s closing decades *Landscape and Subjectivity* explores motifs including essayism the reconciliation of creativity with market forces and the foregrounding

of an often agonised or melancholic It asks whether the work can collectively be seen to constitute a critical theory of contemporary space and suggests that Keiller Sebald and Sinclair s contributions represent a highly significant moment in English culture s engagement with landscape environment and itself The book s analyses are fuelled by archival and topographical research and are responsive to various interdisciplinary contexts including the tradition of the English Journey the set of ideas associated with the spatial turn critical theory the so called heritage debate and more recent theorisation of the anthropocene *Catalogue of the London Library, St. Jame's Square* London Library,1920 *Psychogeography* Merlin Coverley,2010-10-01 The term psychogeography is used to illustrate a bewildering array of ideas from ley lines and the occult to urban walking and political radicalism where does it come from and what exactly does it mean Psychogeography is the point where psychology and geography meet in assessing the emotional and behavioral impact of urban space The relationship between a city and its inhabitants is measured firstly through an imaginative and literary response secondly on foot through walking the city This creates a tradition of the writer as walker and has both a literary and a political component This guide examines the origins of psychogeography in the Situationist Movement of the 1950s exploring the theoretical background and its political applications as well as the work of early practitioners such as Guy Debord and Raoul Vaneigem Elsewhere psychogeographic ideas continue to find retrospective validation in much earlier traditions from the visionary writing of William Blake and Thomas De Quincey to the rise of the fl neur on the streets of 19th century Paris and on through the avant garde experimentation of the Surrealists These precursors are discussed here alongside their modern counterparts for today these ideas hold greater currency than ever through the popularity of writers and filmmakers such as Iain Sinclair and Peter Ackroyd Stewart Home and Patrick Keiller This guide offers both an explanation and definition of the terms involved an analysis of the key figures and their work and practical information on psychogeographical groups and organizations *Journey to Avalon* Chris Barber,David Pykitt,2025-09-12 This book reveals the true identity of Arthur and locates his courts and long forgotten battle sites such as Badon and Camlan It also uncovers the secret of the mysterious Isle of Avalon and Arthur s resting place in a Breton church The authors present a convincing and conclusive answer to the puzzle of King Arthur Glossary of terms in Welsh and English Bibliography Index 78 illustrations *Mapping Cultures* L. Roberts,2012-05-29 An interdisciplinary collection exploring the practices and cultures of mapping in the arts humanities and social sciences It features contributions from scholars in critical cartography social anthropology film and cultural studies literary studies art and visual culture marketing museum studies architecture and popular music studies **The Book of Unconformities** Hugh Raffles,2022-04-18 From the author of *Insectopedia* a powerful exploration of loss grief endurance and the absences that permeate the present Unconformities are gaps in the geological record physical evidence of breaks in time For Hugh Raffles these holes in history are also fissures in feeling knowledge memory and understanding In this endlessly inventive riveting book Raffles enters these gaps drawing together threads of geology history literature philosophy

and ethnography to trace the intimate connections between personal loss and world historical events and to reveal the force of absence at the core of contemporary life Through deeply researched explorations of Neolithic stone circles Icelandic lava mica from a Nazi concentration camp petrified whale blubber in Svalbard the marble prized by Manhattan s Lenape and a huge Greenlandic meteorite that arrived in New York City along with six Inuit adventurers in 1897 Raffles shows how unconformities unceasingly incite human imagination and investigation yet refuse to conform heal or disappear A journey across eons and continents The Book of Unconformities is also a journey through stone this most solid ancient and enigmatic of materials it turns out is as lively capricious willful and indifferent as time itself
