Prejudices: Sixth Series Henry Louis Mencken, 1927

H.L. Mencken Henry Louis Mencken, 1919 H L Mencken was

the most provocative and influential journalist and cultural critic in twentieth century America In this volume and a companion The Library of America presents all six series of Prejudices 1919 1927 the iconoclastic collections that helped blast American literature out of its complacency and into a new age of frankness and maturity The fantastic linguistic inventiveness full bodied humor and unwaveringly fierce courage of his journalism made him a liberating force for his contemporaries and a figure who remains unique in American writing from publisher s description

Prejudices: Fourth, fifth, and sixth series Henry Louis Mencken, 2010

Treatise on the Gods H.L. Mencken, 2013-03-20 I am quite

convinced that all religions at bottom are pretty much alike On the surface they may seem to differ greatly but what appears on the surface is not always religion Go beneath it and one finds invariably the same sense of helplessness before the cosmic mysteries and the same pathetic attempt to resolve it by appealing to higher powers from Treatise on the Gods H L Mencken is perhaps best known for his scathing political satire But politicians as far as Mencken was concerned had no monopoly on self righteous chest thumping deceit and thievery He also found religion to be an adversary worthy of his attention and in Treatise on the Gods he offers some of his best shots a choreographed cannonade Mencken examines religion everywhere from India to Peru from the myths of Egypt to the traditional beliefs of America s Bible Belt He compares Incas and Greeks examines doctrines dogmas sacred texts heresies and ceremonies He ranges far and wide but returns at last to the subject that most provokes him Christianity He reviews the history of the Church and its founders It is Tertullian who is credited with the motto Credo quia absurdum est I believe because it is incredible Needless to say he began life as a lawyer Mencken is no less interested in the dissidents The Reformers were men of courage but not many of them were intelligent Against the old time religion of fellow countrymen Mencken posed as a figure of old time skepticism and he reaped the whirlwind

Controversial even before it was published in 1930 Treatise on the Gods remains what its author wished it to be the plain clear challenge of honest doubt

Service Clubs in American Society Jeffrey A.

Charles, 1993 Placing the clubs in the context of twentieth century middle class culture Charles maintains that they

represented the response of locally oriented traditional middle class men to societal changes The groups emerged at a time when service was becoming both a middle class and a business ideal As voluntary associations they represented a shift in organizing rationale from fraternalism to service The clubs and their ideology of service were welcome as a unifying force at a time when small cities and towns were beset by economic and population pressures

News Notes of California Libraries California State Library,1928 Vols for 1971 include annual reports and statistical summaries **The Southern Press** Douglas O. Cumming,2009 The Southern journalist was more likely to be a Romantic and an intellectual The region's journalism was personal colorful and steeped in the classics This title suggests that the South's journalism struck a literary pose closer to the older English press than to the democratic penny press or bourgeois magazines of the urban North

The Indicted South Angie Maxwell,2014 Indicted South Public Criticism Southern Inferiority and the Politics of Whiteness Mencken Chrestomathy H.L. Mencken,2012-03-07 Edited and annotated by H L M this is a selection from his out of print writings They come mostly from books the six installments of the Prejudices series A Book of Burlesques In Defense of Women Notes on Democracy Making a President A Book of Calumny Treatise on Right and Wrong but there are also magazine and newspaper pieces that never got between covers from the American Mercury the Smart Set and the Baltimore Evening Sun and some notes that were never previously published at all Readers will find edification and amusement in his estimates of a variety of Americans Woodrow Wilson Aimee Semple McPherson Roosevelt I and Roosevelt II James Gibbons Huneker Rudolph Valentino Calvin Coolidge Ring Lardner Theodore Dreiser and Walt Whitman Those musically inclined will enjoy his pieces on Beethoven Schubert and Wagner and there is material for a hundred controversies in his selections on Joseph Conrad Thorstein Veblen Nietzsche and Madame Blavatsky *American Isolationism Between the World Wars* Kenneth D. Rose,2021-04-25 American Isolationism Between the World Wars The Search for a Nation's Identity examines the theory of isolationism in America between the world wars arguing that it is an ideal that has dominated the Republic since its founding During the interwar period isolationists could be found among Republicans and Democrats Catholics and Protestants pacifists and militarists rich and poor While the dominant historical assessment of isolationism that it was provincial and short sighted will be examined this book argues that American isolationism between 1919 and the mid 1930s was a rational foreign policy simply because the European reversion back to politics as usual insured that the continent would remain unstable Drawing on a wide range of newspaper and journal articles biographies congressional hearings personal papers and numerous secondary sources Kenneth D Rose suggests the time has come for a paradigm shift in how American isolationism is viewed The text also offers a reflection on isolationism since the end of World War II particularly the nature of isolationism during the Trump era This book will be of interest to students and scholars of U S Foreign Relations and twentieth century American history **Curriculum, Accreditation and Coming of Age of Higher Education** Roger L. Geiger,2018-02-06 This latest volume in Roger Geiger's distinguished series on the history of higher

education begins with a rare glimpse into the minds of mid nineteenth century collegians Timothy J Williams mines the diaries of students at the University of North Carolina to unearth a not unexpected preoccupation with sex but also a complex psychological context for those feelings Marc A VanOverbeke continues the topic in an essay shedding new light on a fundamental change ushering in the university era the transition from high schools to college The secularization of the curriculum is a fundamental feature of the emergence of the modern university Katherine V Sedgwick explores a distinctive manifestation by questioning why the curriculum of Bryn Mawr College did not reflect the religious intentions of its Quaker founder and trustees Secularization is examined more broadly by W Bruce Leslie who shows how denominational faith ceded its ascendancy to Pan Protestantism Where does the record of contemporary events end and the study of history begin A new collection of documents from World War II to the present invites Roger Geiger's reflection on this question as well as consideration of the most significant trends of the postwar era Educators chafing under current attacks on higher education may take solace or dismay from the essay Shaping a Century of Criticism in which Katherine Reynolds Chaddock and James M Wallace explore H L Mencken's writings which address enduring issues and debates on the meaning and means of American higher education
