THE REAL THING

Real Thing Stories And Sketches

Robert Louis Stevenson

Real Thing Stories And Sketches:

The Real Thing Doris Lessing, 2010-10-19 Doris Lessing has a powerful voice and a particular one. It speaks in anger at the distortion of personal relations in a unsound society but speaks it with a wit that manages to be both pitiless and compassionate. Richard Eder, Los Angeles Times. The stories and sketches in this collection penetrate to the heart of human experience with the passion and intelligence readers have come to expect of Doris Lessing. Most of the pieces are set in contemporary London, a city the author loves for its variety, its diversity, the way it connects the life of animals and birds in the parks to the streets. Lessing's fiction also explores the darker corners of relationships between women and men as in the rich and emotionally complex title story in which she uncovers a more parlous reality behind the facade of the most conventional relationship between the sexes. *A Reader's Companion to the Short Story in English* Erin Fallon, R.C. Feddersen, James Kurtzleben, Maurice A. Lee, Susan Rochette-Crawley, 2013-10-31

Although the short story has existed in various forms for centuries, it has particularly flourished during the last hundred years. *Reader's Companion to the Short Story in English* includes alphabetically arranged entries for 50 English language short story writers from around the world. Most of these writers have been active since 1960 and they reflect a wide range of experiences and perspectives in their works. Each entry is written by an expert contributor and includes biography, a review of existing criticism, a lengthier analysis of specific works, and a selected bibliography of primary and secondary sources. The volume begins with a detailed introduction to the short story genre and concludes with an annotated bibliography of major works on short story theory.

Doris Lessing and the Forming of History Brazil Kevin Brazil, 2016-09-20 Explores Doris Lessing's innovative engagement with historical change in her own lifetime and beyond. The death of Nobel Prize-winning Doris Lessing sparked a range of commemorations that cemented her place as one of the major figures of twentieth and twenty-first century world literature.

This volume views Lessing's writing as a whole and in retrospect focusing on her innovative attempts to rework literary form to engage with the challenges thrown up by the sweeping historical changes through which she lived. The 12 original chapters provide new readings of Lessing's work via contexts ranging from post-war youth politics and radical women's writing to European cinema, analyse her experiments with genres from realism to autobiography and science fiction and draw on previously unstudied archive material. The volume also explores how Lessing's writing can provide insight into some of the issues now shaping twenty-first century scholarship including trauma, ecocriticism, the post-human and world literature as they emerge as defining challenges to our own present moment in history.

Key Features Offers a critical overview of the full range of Lessing's work setting the agenda for future study of her writing. Provides new readings of an unprecedented range of Lessing's writing including previously unstudied archive material, landmark novels such as *The Golden Notebook*, drama and reportage, essays, memoirs and short stories. Situates Lessing in relation to new literary and cultural contexts including the nineteenth-century novel, series, cinema and post-war youth culture. Relates Lessing's work to contemporary theoretical debates on post-humanism, trauma, ecocriticism, radical women's writing and world literature.

Museums in a Digital Age

Ross Parry, 2013-01-11. The influence of digital media on the cultural heritage sector has been pervasive and profound. Today museums are reliant on new technology to manage their collections. They collect digital as well as material things. New media is embedded within their exhibition spaces. And their activity online is as important as their physical presence on site. However, digital heritage as an area of practice and as a subject of study does not exist in one single place. Its evidence base is complex, diverse and distributed, and its content is available through multiple channels on varied media in myriad locations and different genres of writing. It is this diaspora of material and practice that this Reader is intended to address. With over forty chapters by some fifty authors and co-authors from around the world spanning over twenty years of museum practice and research, this volume acts as an aggregator drawing selectively from a notoriously distributed network of content. Divided into seven parts on information, space, access, interpretation, objects, production and futures, the book presents a series of cross-sections through the body of digital heritage literature, each revealing how a different aspect of curatorship and museum provision has been informed, shaped or challenged by computing.

Museums in a Digital Age is a provocative and inspiring guide for any student or practitioner of digital heritage.

The Legend of Sleepy Hollow and Other Stories From the Sketch Book

Washington Irving, 2006-04-04. Sage storyteller and wit, Washington Irving created such staples of American fiction as the stories *Rip Van Winkle* and *The Legend of Sleepy Hollow*. He earned his preeminence in early American literature with the masterpieces in miniature collected here: dozens of stories, travel essays, biographical discourses and literary musings. His influence on American writers is unquestioned: wrote Edgar Allan Poe, and his stories have proved as enduring as the Catskill Mountains the author immortalized. Exceptional talent, I am one of his most ardent admirers. I admired Mr Irving's work so much in fact that I gave it the ultimate praise I borrowed it. Edgar Allan Poe. With an
