Real Politics Jean Bethke Elshtain, 2000-03-10 One of America's foremost public intellectuals Jean Bethke Elshtain has been on the frontlines in the most hotly contested and deeply divisive issues of our time Now in Real Politics Elshtain gives further proof of her willingness to speak her mind courting disagreement and even censure from those who prefer their ideologies neat At the center of Elshtain's work is a passionate concern with the relationship between political rhetoric and political action For Elshtain politics is a sphere of concrete responsibility Political speech should therefore approach the richness of actual lives and commitments rather than present impossible utopias In her essays Elshtain finds in the writings of Václav Havel Hannah Arendt and Albert Camus a language appropriate to the complexity of everyday life and politics and she critiques philosophers and writers who distance us from a concrete embodied world She argues against those repressive strains within contemporary feminism which insist that families and even sexual differentiation are inherently oppressive Along the way she challenges an ideology of victimization that too often loses sight of individual victims in its pursuit of abstract goals Elshtain reaffirms the quirky and by no means simple pleasures of small town life as a microcosm of the human condition and considers the current crisis in American education and its consequences for democracy Beyond exploring the details of political life over the past two decades Real Politics advocates a via media politics that avoids unacceptable extremes and serves as a model for responsible political discourse Throughout her diverse and insightful writings Elshtain champions a civic philosophy that tends to the dignity of everyday life as a democratic imperative of the first order Jean Bethke Elshtain is a person of rare intellect The moral wisdom that pervades these essays reminds us that when all is said and done politics is about the life and death of real people who are anything but abstractions Her erudition is remarkable but equally stunning is

her eye for the significant What she is so good at is helping us see the moral and political significance of the everyday Stanley Hauerwas Duke University Real Politics serves as a forceful reminder that Jean Elshtain has been dealing with the real world in twenty five years of powerful essaying Transcending ideological categories she writes out of hope that human beings can enjoy those capacities of reason and faith which make them human It is a pleasure to be reintroduced to her sustained intelligence Alan Wolfe Boston University

Spreading Misandry Paul Nathanson, Katherine K. Young, 2001 Paul Nathanson and Katherine Young argue that men have routinely been portrayed as evil inadequate or as honorary women in popular culture since the 1990s These stereotypes are profoundly disturbing the authors argue for they both reflect and create a hatred and thus further fracture an already fractured society In *Spreading Misandry* they show that creating a workable society in the twenty first century requires us to rethink feminist and other assumptions about men The first in an eventual three part series *Spreading Misandry* offers an impressive array of evidence from everyday life case studies from movies television programs novels comic strips and even greeting cards to identify a phenomenon that is just now being recognised as a serious cultural problem Discussing misandry the sexist counterpart of misogyny the authors make clear that this form of hatred must not be confused with reverse sexism or anger and should neither be trivialised nor excused They break new ground by discussing misandry in moral terms rather than purely psychological or sociological ones and refer critically not only to feminism but to political ideologies on both the left and the right They also illuminate the larger context of this problem showing that it reflects the enduring conflict between the Enlightenment and romanticism

inherent flaws in postmodernism and the dualistic us versus them mentality that has influenced Western thought since ancient times A groundbreaking study *Spreading Misandry* raises serious questions about justice and identity in an increasingly polarised society It is important for anyone interested in ethics gender popular culture or are just concerned about the society we are creating *Spreading Misandry* does make a convincing argument that since the 1990s Men have become society's official scapegoats and held responsible for all evil Women are society's official victims and held responsible for all good Independent on Sunday 4 August 2002

Radical Conversion Christopher M. Duncan, 2021-07-13 *Radical Conversion* utilizes both analytic and normative philosophic theoretical frameworks to study the relationship between Christian Catholic conceptualizations of politics citizenship faith and religion as viewed through a quasi theological lens The work is situated in the context of the American liberal tradition and in conversation and debate with the public philosophy that attempts to sustain it and provide a rationale for its perpetuation In a single sentence the book's thesis is that for America to fully realize its authentic and unique moral and political mission and secure it into the future it will need to become both more Catholic and more catholic Concordantly that mission properly understood is nothing less than the recognition and protection of the idea of the sacredness of every individual human person and their right to flourish and realize the fullness of their particular vocation as a child of God

Situationist International Anthology, 2024-10-08 The *Situationist International Anthology* is the most comprehensive and accurately translated collection of situationist writings in English In 1957 a few European avant garde groups came together to form the Situationist International Picking up where the dadaists and surrealists had left off the situationists challenged people's passive conditioning with carefully calculated scandals and the playful tactic of d tournament rerouting hijacking Seeking a more extreme social revolution than was dreamed of by most leftists they developed an incisive critique of the global spectacle commodity system and of its Communist pseudo opposition and their new methods of agitation helped trigger the May 1968 revolt in France Since then situationist theories and tactics have continued to inspire radical currents all over the world This volume presents a rich variety of articles leaflets graffiti and internal documents ranging from experiments in psychogeography to lucid analyses of the Watts riot the Vietnam War the Prague Spring the Chinese Cultural Revolution and other crises and upheavals of the sixties For this new edition all the translations have been fine tuned and the bibliography has been updated to include comments on dozens of newer books by and about the situationists

Women, Television and Everyday Life in Korea Youna Kim, 2012-07-26

Fusing audience research and ethnography the book presents a compelling account of women's changing lives and identities in relation to the impact of the most popular media culture in everyday life television Within the historically specific social conditions of Korean modernity Youna Kim analyzes how Korean women of varying age and class group cope with the new environment of changing economical structure and social relations The book argues that television is an important resource

for women stimulating them to research their own lives and identities Youna Kim reveals Korean women as creative energetic and critical audiences in their responses to evolving modernity and the impact of the West Based on original empirical research the book explores the hopes aspirations frustrations and dilemmas of Korean women as they try to cope with life beyond traditional grounds Going beyond the traditional Anglo American view of media and culture this text will appeal to students and scholars of both Korean area studies and media and communications studies **Placing the Border in Everyday Life** Reece Jones, Corey Johnson, 2016-04-22 Bordering no longer happens only at the borderline separating two sovereign states but rather through a wide range of practices and decisions that occur in multiple locations within and beyond the state s territory Nevertheless it is too simplistic to suggest that borders are everywhere since this view fails to acknowledge that particular sites are significant nodes where border work is done Similarly border work is more likely to be done by particular people than others This book investigates the diffusion of bordering narratives and practices by asking who borders and how Placing the Border in Everyday Life complicates the connection between borders and sovereign states by identifying the individuals and organizations that engage in border work at a range of scales and places This edited volume includes contributions from major international scholars in the field of border studies and allied disciplines who analyze where and why border work is done By combining a new theorization of border work beyond the state with rich empirical case studies this book makes a ground breaking contribution to the study of borders and the state in the era of globalization
