Real Talk 2 Lida Baker, Judith Tanka, 2008-08 *Real Talk 2* by Lida Baker and Judith Tanka helps teachers transport high intermediate to advanced students out of the language classroom and into the world of authentic English. Each of the book's eight thematic chapters has four parts: In Person, On the Phone, On the Air, and In Class. With *Real Talk 2*, teachers can expose students to spontaneous face-to-face conversations, phone conversations, and messages, radio broadcasts, and academic lectures. Features include instruction and practice in language skills for everyday use and for academic situations, clear explanations, and activities to teach natural use of intonation, stress reductions, thought groups, and difficult-to-pronounce sounds. Structured and graduated note-taking activities that prepare students for university and college-level lectures. Recorded speakers with a variety of accents, both native and nonnative. End-of-chapter synthesizing activities that help students prepare for TOEFL speaking tasks and academic speaking situations. All of these features guide students to communicate confidently and successfully in a wide variety of settings. For intermediate to high-intermediate students, see *Real Talk 1*.

Authenticity in English Language Teaching Leo Will, 2018 Authenticity is one of the most rampant buzzwords in ELT (English Language Teaching). Many have weighed in on what authenticity should mean and on how it may be achieved. The book at hand is an extensive analysis of authenticity as a term and as a concept within the academic field of ELT. The research data comprises virtually all definitions and conceptualizations of authenticity in the international ELT literature. However, only a limited number of texts contribute to what can be called an explicit negotiation of authenticity. A discourse-analytical approach is taken to disentangle the hubbub of commentaries and to eventually extrapolate from it six distinct concepts which are attached to the term authenticity. Michel Foucault's seminal theories are invoked, affording additional insights into discourse dynamics and power structures among individuals and institutions in ELT.

Reconceptualising Authenticity for English as a Global Language Richard S. Pinner, 2016-06-07 This book examines the concept of authentic English in today's world where cultures are in constant interaction and the English language works as a binding agent for many cross-cultural exchanges. It offers a comprehensive review of decades of debate around authenticity in language teaching and learning and attempts to synthesise the complexities by presenting them as a continuum. This continuum builds on the work of eminent scholars and combines them within a flexible framework that celebrates the process of interaction whilst acknowledging the complexity and individual subjectivity of authenticity. Authenticity is approached as a complex dynamic construct that can only be understood by examining it from social, individual, and contextual dimensions in relation to actual people. Authenticity is a problem not just for language acquisition but one which affects us as individuals belonging to society.
