Realistic Philosophy Of Religion:

Realism and Religion Andrew Moore, Michael Scott, 2007 This book draws together a distinguished group of philosophers and theologians to present new thinking on realism and religion The religious realism antirealism debate concerns the questions of God's independence from human beings the nature of religious truth and our access to religious truths Although both philosophers and theologians have written on these subjects there has been little sustained investigation into these issues akin to that found in comparable areas of research such as ethics or the philosophy of science The contributors present a variety of contrasting positions on key issues in the religious realism debate This volume of original essays will both introduce newcomers to the field and suggest new lines of research for those already familiar with it *God Pro Nobis* Karin Johannesson, 2007 In theology and the philosophy of religion questions concerning God's existence are often understood and discussed in terms of metaphysical realism Metaphysical realism however is a philosophically untenable perspective according to this study Its impact on the philosophy of religion is therefore problematic By using arguments presented by W V Quine Hilary Putnam and William P Alston the author shows why metaphysical realism is a philosophically untenable perspective and what this implies when it comes to questions concerning God's existence Drawing on the work of Putnam Michael Dummett and Donald Davidson the author elaborates a non metaphysical realist perspective that she recommends as a philosophically tenable alternative that can be used in theology and the philosophy of religion Non metaphysical realism this study claims encourages philosophers of religion to engage in a fruitful reflection on present day problems caused by the phenomenon of religion and of importance to human beings living in today's society *God and Realism* Peter Byrne, 2017-07-05 Peter Byrne's study of God and realism offers a critical survey of issues surrounding the realist interpretation of theism and theology Byrne presents a general argument for interpreting the intent of talk about God in a realist fashion and argues that judging the intent of theistic discourse should be the primary object of concern in the philosophy of religion He considers a number of important ideas and thinkers supporting global anti realism and finds them all wanting After the refutation of global anti realism Byrne considers a number of important arguments in favour of the notion that there is something specific to talk about God which invites an anti realist interpretation of it Here he looks at verificationism the writings of Don Cupitt forms of radical feminist theory and the ideas of D Z Phillips The book concludes with a discussion of whether theology as a discursive academic discipline can be interpreted realistically Offering a comprehensive survey of the topic and of the leading literature in the field this book presents key arguments for exploring issues brought to bear upon the realism debate Students and scholars of philosophy of religion philosophy of language metaphysics theory of knowledge and theology will find this an invaluable new contribution to the field *Religion, Reality, and a Good Life* Eberhard Herrmann, 2004 Do we have access to reality as it is conceptualized by us Against metaphysical realism and postmodern relativism Eberhard Herrmann develops a pragmatic realism It stresses reality as conceptualized

reality while at the same time not ruling out objectivity Contents include The Nature of the Enquiry The Philosophical Problem Formulated Religion and Philosophy Philosophy Reasons for and Against Metaphysical Realism Critique of Semantic Realism Pragmatic Realism Realism from an Internal Perspective Religious Metaphysical Realism Religious Metaphysical Anti Realism Religious Statements as Purported Assertions Christian Theism The Character of Religious Utterances Pragmatic Realism The Function of Religion Two Material Definitions of Truth Perspectives on Views of Life The Role of the Emotions in Our Conception of Reality Emotions and the Conceptualization of Values *God in the Act of Reference* Erica Appelros,2017-03-02 To claim to believe in God without accepting that God exists independently of human minds would mean reducing God to merely a human construct thus not real enough for being the object of religious worship This book sets out to challenge this common view on existence and religious belief Arguing from concrete examples of language use in children s make believe play and other ordinary situations Erica Appelros suggests that what makes us consider something to be real involves our capacities to relate to our surroundings not only on grounds of their physical characteristics but also on grounds of human construction This book makes a substantial contribution to the contemporary debate within philosophy of religion on religious realism and non realism and suggests innovative and constructive solutions to the perennial philosophical and religious issue of what is meant by talking about God and God s existence **A Realistic Philosophy of Religion** Arthur Campbell Garnett,1963 *Pragmatic Realism, Religious Truth, and Antitheodicy* Sami Pihlström,2020-02-03 As a traditional theological issue and in its broader secular varieties theodicy remains a problem in the philosophy of religion In this remarkable book Sami Pihlström provides a novel critical reassessment of the theodicy discourse addressing the problem of evil and suffering He develops and defends an antitheodicy view arguing that theodicies seeking to render apparently meaningless suffering meaningful or justified from a God s Eye View ultimately rely on metaphysical realism failing to recognize the individual perspective of the sufferer Pihlström thus shows that a pragmatist approach to the realism issue in the philosophy of religion is a vital starting point for a re evaluation of the problem of theodicy With its strong positions and precise arguments the volume provides a new approach which is likely to stimulate discussion in the wider academic world of philosophy of religion *Realism in Religion* Robert Cummings Neville,2010-07-02 A philosophical consideration of key religious issues from a pragmatist s perspective **The Realist Hope** Dr Christopher J Insole,2013-05-28 Taking into consideration analytical continental historical post modern and contemporary thinkers Insole provides a powerful defence of a realist construal of religious discourse Insole argues that anti realism tends towards absolutism and hubris Where truth is exhausted by our beliefs about truth there is no conceptual space for doubting those beliefs only a conception of truth as absolute given and accessible can guarantee the very humility sense of fallibility and sensitivity to difference that the anti realist rightly values Cutting through some of the tired and well rehearsed debates in this area Insole provides a fresh perspective on approaches influenced by Wittgenstein Kant and apophatic theology The defence of realism offered is unusual

in being both analytically precise and theologically sensitive with a view to some of the wider and less well explored cultural ethical and political implications of the debate **Prolegomena to Religious Pluralism** P. Byrne, 1995-08-23 This book surveys the thesis that all religions are alike in referring and relating to a single common transcendent and sacred reality It treats this thesis as one in the philosophy of religion and systematically sets out its main philosophical strengths and weaknesses The key to understanding and defending pluralism is argued to lie in a realist understanding of religion which is defined by way of an account of the reference of names for sacred transcendent reality
