Realities Of Teachers Work Never A Dull Moment:

Realities of Teachers' Work Sandra Acker, 1999-04-01 The Realities of Teacher Work Never a Dull Moment follows the fortunes of the teachers at Hillview Primary School over ten years It explores what it is like to be a primary or elementary school teacher in an urban school with about 200 children mixed in social class and ethnicity and suggests what we may learn from them for the future Sandra Acker links her research with other literature on teachers work and describes the school as a workplace focusing on four key features the characteristics of the children the school's physical setting the available resources and the ethos of the school She successfully places us in the classroom giving vivid images of daily interactions with the children and shows too how teaching extends far beyond the classroom door The book explores the caring culture that has developed among the teachers and helps them to cope with the difficulties they encounter It also considers the school as located in the wider community by looking at changes in teachers careers over time and the effects on Hillview of recent educational reform This book shows us how and why we need to revise our assumptions about schools and teachers and see them not as isolated individuals in closed classrooms and self contained schools but as an integral part of a much broader community Above all it shows that teaching is hard demanding work that is influenced by workplace cultures and the gendered expectations society holds about teachers Teachers Matter: Connecting Work, Lives And Effectiveness Day, Christopher, Sammons, Pam, Stobart, Gordon, 2007-03-01 Based on a DfES funded study of 300 teachers in 100 primary and secondary schools in England the authors identify different patterns of influence and effect between groups of teachers which provide powerful evidence of the complexities of teachers work lives identity and commitment in relation to their sense of agency well being resilience and pupil attitudes and attainment This in turn provides a clear message for teachers teachers associations school leaders and policy makers internationally in understanding and supporting the need to build and sustain school and classroom effectiveness **Teachers' Career Trajectories and Work Lives** Martin Bayer, Ulf Brinkkjaer, Helle Plauborg, Simon Rolls, 2009-06-25 The working and career lives of teachers have changed radically over the last two decades Reforms have turned education into a commodity and pupils into consumers Yet not since 1992 has there been a comprehensive overview of research findings on teachers working lives This anthology plugs the gap by collecting various scholarly contributions and perspectives on teachers career trajectories and work lives The material includes an introduction to previous research within the field presents a range of contemporary research and offers suggestions as to what lies ahead Among the contributors are leading educational academics who describe a variety of national contexts illustrating how problems and challenges relating to the teaching profession manifest themselves and are tackled in different countries The anthology also shows just how many aspects of teachers career trajectories and work lives transcend national boundaries Common international themes include stronger ties between education and the economy and a growing importance placed on how students skills relate to the perceived needs of the labour market There is also a greater degree of

political interference in curriculum goals and processes and an expanding obsession with evaluation In many countries a whole generation of teachers are reaching retirement age changing the guard with a crop of new young recruits who are ever harder to attract At a time when there is an increasing focus on issues such as teacher recruitment retention and professional development this anthology offers insight and inspiration to teacher educators and educational policy makers as well as to current and prospective teachers It also aims at encouraging research into the field of teachers working lives

A passion for teaching [electronic resource] Christopher Day, 2004 This book is a celebration and an acknowledgement of the various forms of intellectual physical emotional and passionate endeavours in which teachers at their best engage Christopher Day demonstrates that teachers with a passion for teaching are those who are committed enthusiastic and intellectually and emotionally energetic in their work with children young people and adults alike Having this passion for helping pupils to learn has recently been identified as one of the four leadership characteristics mentioned in the HayMcBer Report on effective teachers Day recognises that passionate teachers are aware of the challenge of the broader social contexts in which they teach have a clear sense of identity and believe they can make a difference to the learning and achievement of all their pupils Offering a refreshing and positive view *A Passion for Teaching* is a contribution to understanding and improving the teaching profession and brings new insights to the work and lives of teachers It is written for all teachers teacher educators and student teachers who have a passion for education who love learners the learning life and the teaching life

Passage through the Threshold of Technological Change Elizabeth Majocha, 2015-06-17 Technology is becoming entrenched in schools daily operations and classrooms The evolution of information communication technology ICT is changing teachers delivery of content their interactions with students and their management of information Because ICT places new unfamiliar demands on preparation time it challenges teachers to strengthen their qualities to lead others and to help them thrive during technological change As a result of the author's research work towards her doctorate degree this book focuses on the four sets of qualities that are vital to teachers who are leading teachers administrators digitally native students parents and ICT professionals These qualities are hidden in every teacher and appear to be deceptively simple yet teachers need to nurture them within their core to effectively communicate and collaborate with others and expand their instructional repertoire with ICT As these qualities strengthen teacher leaders will be able to help their colleagues to realize their potential to use ICT beyond the classroom This book focuses on the essence of being a teacher leader Coaching and mentoring Assisting student learning Supporting others Becoming a curious technologist Taken from the author's research findings this book presents much needed teacher leadership reflections for teachers school administrators directors and professors on building qualities to lead others through weaving ICT into the culture of their classrooms
