Faith Facing Reality John W. de Gruchy,2022-10-21 The COVID 19 pandemic and the war in Ukraine have starkly reminded us of the realities that threaten our future on planet Earth Christian faith is not a way of escaping these realities but of engaging them in the struggle for justice and peace motivated by love enabled by faith and

sustained by hope This is based on the conviction that in Jesus Christ the reality of God has become redemptively embodied within the reality of the world Written within the context of South Africa but with global vision and in conversation with the legacy of Dietrich Bonhoeffer this book is an attempt to stir up discussion and inform action in connecting worldly and transcendent reality Inevitably this will be controversial not least because that is something that Bonhoeffer risked This is certainly true when it comes to the five realities that provide much of the book's substance the persistence of racism the will to power scientism and soulless technology the conflict in Israel Palestine and the threat of wars and pandemics Is it possible to believe in the God of Jesus Christ in such a world If so what does that mean and how does it help us live creatively redemptively and faithfully To answer these questions the author examines the meaning of faith the human desire for transcendence and the need for conversion wisdom solidarity and responsible freedom

Premodern Faith in a Postmodern Culture Peter Drilling, 2006-07-26 Since the European Enlightenment of the 18th century traditional religious faith has been challenged from many sides Both the modern and postmodern worldviews have confronted religious belief The Christian doctrine of God is no exception Premodern Faith in a Postmodern Culture A Contemporary Theology of the Trinity acknowledges these challenges to the Christian doctrine of God and explains their sources in philosophical terms Through careful thoughtful analysis Peter Drilling offers a way to meet these challenges so that Christian Faith in the triune God survives and thrives By using the theological method articulated by the philosopher theologian Bernard Lonergan this book demonstrates a reasonable and authentic process of coming to faith This method includes various directions believers can take both theoretical and practical to apply faith in the Trinity Drilling's multi faceted approach looks at this faith through the diverse perspectives of analogous understanding spirituality ecclesiology philosophy and interreligious dialogue This work is unique in its view of the entire historical development of the Trinity from historical sources to the new postmodern conceptions of God

The Sensate Culture Harold O. J. Brown,2007-01-15 Why have so many lost confidence and hope in spite of the progress of modern times Why do even those who deny their despair run ever faster in pursuit of pleasures that burn all thought from their minds Distinguished Christian thinker Harold O J Brown argues in this incisive analysis that our culture suffers such symptoms because we have cut ourselves off from our spiritual roots We are in the last stages of what the late Russian scholar Pitirim Sorokin called a late degenerate sensate culture Furthermore this crisis of culture is too opaque to be penetrated by human understanding and efforts alone Instead we must begin by confessing our need for grace and wisdom from above Brown shows how with that confession Christians may be able to point the way out of cultural despair They above all people know the power of faith hope and love Hence the author can conclude that There are some indications that disillusionment with the fading favors of a rotting sensate culture is causing people to become receptive to solutions that are identifiably Christian The Journal of Religion ,1979 Includes section Book reviews **Public Theology** Gnana

Patrick,2020-04-07 This book situates public theology within the genre of political theology Drawing upon the distinct strands of political theologies identified by Daniel M Bell Jr Gnana Patrick treats public theology as the form of political theology for our contemporary era and takes special care to relate these strands of political theologies to the Indian context thereby opening up the theological horizon for Indian public theology Further Public Theology dwells upon certain prominent features of our contemporary global world and discerns the human need for experiencing transcendence today Taking faith to be the catalyst for this experience of transcendence it points to civil society as the interstice through which faith can be imparted to the contemporary world And it argues for the relevance of public theology for that work *Encounter* ,1985

Faith, Reason, and Culture George Karuvelil,2020-07-24 In this book George Karuvelil seeks to establish the rationality of religion and theology in the contemporary world Theology has always required some philosophical basis Moreover Christian theology has had a dynamic character that enabled it to adapt to more than one philosophy depending on the need of the time For instance it shifted in accordance with the change from Neo Platonism to Aristotelianism in the thirteen century However this dynamism has been absent since the dawn of modernity when reason became identified with modern science to disastrous results While the advent of postmodernism has brought the limits of modernism to light it has done nothing to establish the rationality of religion other than to treat religion as a cultural phenomenon along with science This book conceives fundamental theology as a discipline that seeks religious truth in the midst of diverse perspectives ranging from militant atheism to violent religious fanaticism **Faith and Culture** Emmanuel Osigwe,2022-12-05 The recognition of the intersection of faith and culture has become a significant trend in contemporary theology Cultures are locations of divine activity The Sacramental Theology of Elochukwu Uzukwu in Light of Vatican II and Its Application in African Context brings freshness to the dominant Catholic sacramental thinking by offering an African appropriation of the Christian faith through African cultures It demonstrates the historical interaction of the Christian faith with multiple anthropologies that resonates with different peoples to celebrate rituals that convey divine activity This work engages the theology of Elochukwu Uzukwu a recent African sacramental liturgical theologian whose work reflects the elements of sacramental and liturgical renewal of the Second Vatican Council especially in its openness to a plurality of cultures This book retrieves resources from the African universe to offer a contextual appropriation of the interface between faith and African cultures It highlights the African view of the body in its expressive worship and significance of relationality as an undergirding existential philosophy of life Consequently it offers a flexible theological methodology that avoids polarities It provides an additional resource to the philosophical and theological approach to the perennial problem of duality and theologies constructed on this template This study moves beyond monocultural sacramental expression to engage symbols and indigenous resources to articulate an African sacramental theology **From Faith to Fun** Russell Heddendorf,2009-02-26 Abraham and Sarah were presented with a paradox when God told them they would have a son in their old age Paradox in the Old Testament plays an important

part in the dialogue between God and the Jews In the New Testament paradox is prominent in Jesus teaching and helps to explain the Christian understanding of salvation Intuitive Leadership (ēmerision: Emergent Village resources for communities of faith) Tim Keel,2007-10-01 As our culture shifts from modern to postmodern pastors and church leaders are finding that old rigid church leadership systems and structures no longer seem to work Church leaders are searching for and discovering new creative ways of leading emphasizing intuition creativity narrative and an embrace of the chaos and tension of our time Tim Keel pastor of a thriving emergent church and a rising leader in the emergent church movement offers a thought provoking yet practical exploration of this new style he calls Intuitive Leadership His fresh approach will be welcomed by pastors and lay leaders interested in the emergent conversation and how Christian mission should look in our rapidly changing culture **Mediating Faith** Clint Schnekloth,William H. Willimon,2014 The church struggles with media Whether it is a denomination negotiating the 24 hour news cycle or a church evaluating how Facebook or online games are influencing the youth group media is raising questions and placing demands on communities of faith in ways that could not have been imagined just 20 years ago Thus the importance of understanding media for the church has never been greater In Mediating Faith church leaders of all kinds will find Clint Schnekloth an engaging and insightful guide to this new and sometimes wondrous world In doing so he offers an evaluation and theological response to the trans media era that highlights its potential to transform our work and world Far from frightening Schnekloth highlights the opportunities and the riches of this fascinating time **Returning to Reality** Paul Tyson,2014-07-29 Could it be that we have lost touch with some basic human realities in our day of high tech efficiency frenetic competition and ceaseless consumption Have we turned from the moral the spiritual and even the physical realities that make our lives meaningful These are metaphysical questions questions about the nature of reality but they are not abstract questions These are very down to earth questions that concern power and the collective frameworks of belief and action governing our daily lives This book is an introduction to the history theory and application of Christian metaphysics Yet this book is not just an introduction it is also a passionately argued call for a profound change in the contemporary Christian mind Paul Tyson argues that as Western culture s Christian Platonist understanding of reality was replaced by modern pragmatic realism we turned not just from one outlook on reality to another but away from reality itself This book seeks to show that if we can recover this ancient Christian outlook on reality reframed for our day then we will be able to recover a way of life that is in harmony with human and divine truth
