culture **Inside Reality TV** Ragan Fox,2018-09-03 In the summer of 2010 Ragan Fox was one of twelve people selected to participate in the twelfth season of CBS's reality program Big Brother Offering a rare autobiographical and behind the scenes peek behind Big Brother's theatrical curtain Fox provides a scholarly account of the show's casting procedures secret soundstage interactions and viewer involvement while investigating how the program's producers fans and players theatrically render identities of racial and sexual minorities Using autoethnography textual analysis and spectator commentary as research Inside Reality TV reflects on and critiques how identity is constructed on reality television and the various ways in which people from historically oppressed groups are depicted in mass media *Reacting to Reality Television* Beverley Skeggs,Helen Wood,2012 The unremitting explosion of reality television across the schedules has become a sustainable global phenomenon generating considerable popular and political fervour The zeal with which television executives seize on the easily replicated formats is matched equally by the eagerness of audiences to offer themselves up as television participants for others to watch and criticise But how do we react to so many people breaking down fronting up tearing apart dominating empathising humiliating and seemingly laying bare their raw emotion for our entertainment Do we feel sad when others are sad Or are we relieved by the knowledge that our circumstances might be better As reality television extends into the experiences of the everyday it makes dramatic and often shocking the mundane aspects of our intimate relations inviting us as viewers into a volatile arena of mediated morality This book addresses the impact of this endless opening out of intimacy as an entertainment trend that erodes the traditional boundaries between spectator and performer demanding new tools for capturing television's relationships with audiences Rather than asking how the reality television genre is interpreted as text or representation the authors investigate the politics of viewer encounters as interventions evocations and more generally mediated social relations The authors show how different reactions can involve viewers in tournaments of value as women viewers empathise and struggle to validate their own lives The authors use these detailed responses to challenge theories of the self governmentality and ideology A must read for both students and researchers in audience studies television studies and media and communication studies *A Companion to Reality Television* Laurie Ouellette,2016-12-19 International in scope and more comprehensive than existing collections A Companion to Reality Television presents a complete guide to the study of reality factual and nonfiction television entertainment encompassing a wide range of formats and incorporating cutting edge work in critical social and political theory Original in bringing cutting edge work in critical social and political theory into the conversation about reality TV Consolidates the latest broadest range of scholarship on the politics of reality television and its vexed relationship to culture society identity democracy and ordinary people in the media Includes primetime reality entertainment as well as precursors such as daytime talk shows in the scope of discussion Contributions from a list of international leading scholars in this field

How Real Is Reality TV? David S. Escoffery, 2014-12-03 American viewers are attracted to what they see as the non scripted unpredictable freshness of reality television But although the episodes may not be scripted the shows are constructed within a deliberately designed framework reflecting societal values The political economic and personal issues of reality TV are in many ways simply an exaggerated version of everyday life allowing us to identify perhaps more closely than we care to admit with the characters onscreen With 16 essays from scholars around the world this volume discusses the notion of representation in reality television It explores how both audiences and producers negotiate the gulf between representations and truth in reality shows such as Survivor The Apprentice Big Brother The Nanny American Idol Extreme Makeover Joe Millionaire and The Amazing Race Various identity categories and character types found in these shows are discussed and the accuracy of their television portrayal examined Dealing with the concept of reality audience reception gender roles minority portrayal and power issues the book provides an in depth look at what we see or think we see in reality TV

Reality Television and Arab Politics Marwan M. Kraidy, 2010 This book analyzes how reality television fuelled heated polemics over cultural authenticity gender relations and political participation in the Middle East
