Realm Of Value A Critique Of Human Civilization:

Realms of Value Ralph Barton Perry, 1954 **Realms of Value** m Ralph Barton Perry, 1954 The Palgrave Handbook of the History of Human Sciences David McCallum, 2022-08-27 The Palgrave Handbook of the History of Human Sciences offers a uniquely comprehensive and global overview of the evolution of ideas concepts and policies within the human sciences Drawn from histories of the social and psychological sciences anthropology the history and philosophy of science and the history of ideas this collection analyses the health and welfare of populations evidence of the changing nature of our local communities cities societies or global movements and studies the way our humanness or human nature undergoes shifts because of broader technological shifts or patterns of living This Handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields a means of understanding patterns of social change and the conduct of institutions as well as the histories of these ways of knowing probe the contexts circumstances and conditions which underpin continuity and change in the way we count analyse and understand ourselves in our different social worlds It reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences and between these and changes and continuities in societies and conducts as 21st century research moves into new intellectual and geographic territories more diverse fields and global problematics

PHILOSOPHY AND WORLD PROBLEMS - Volume I John McMurtry, 2011-12-11 Philosophy and World Problems theme is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Philosophy and World Problems deals in three volumes and covers several topics with a myriad of issues of great relevance to our world on Philosophy and World Problems Philosophy resists conclusions because its method across disagreements like modern science to which it gives rise always leaves issues open to counter argument and furtherance of understanding This is how philosophy differs from religious sectarian and other dogmas and closed systems of thinking Yet agreement across the research contributing to this work is implicit or explicit on one meta principle whatever is incoherent with organic social and ecological life requirements through time is false and evil to the extent of its reduction and destruction of life fields and support systems These three volumes are aimed at a wide spectrum of audiences University and College Students Researchers and Educators John Dewey and Environmental Philosophy Hugh P. McDonald, 2012-02-01 Hugh P McDonald s John Dewey and Environmental Philosophy breaks new ground by applying Dewey s insights to a new approach to philosophy of the environment the concern for the rights of animals the preservation of rare species habitats and landscapes and the health of the whole ecology The book summarizes much of the current literature on environmental ethics concentrating on the writings of major figures in the movement Tom Regan J Baird Callicott Holmes Rolston and Bryan Norton The heart of the book consists of a detailed analysis of Dewey s ethics his theory of intrinsic value and his holistic approach to moral justification Arguing against the

idea that Dewey's philosophy is anthropocentric McDonald makes a strong case that using Dewey's philosophy will result in a superior framework for environmental ethics **Encyclopedia of Ethics: P-W** Lawrence C. Becker, Charlotte B.

Becker, 2001 A revised expanded and updated edition with contributions by 325 renowned authorities in the field of ethics All of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features *Realms of Value* Ralph Barton Perry, 2001 **The Mystery of Values** Ludwig Grünberg, 2021-11-08 This study of axiology explores the axiocentricity of being human Human beings dwell in the realm of value Values are not simply what persons have values in large part are what persons are The mystique of values is analyzed here in terms of their cultural phenomenological and ontological status The relationship between science and values is debated Values should not be submitted to reductionism Postmodernism raises new problems for the future of a philosophy of values Yet we may direct our hopes toward happiness universalism and humanism as inseparable from value life **The Genealogy of Values** Edward Andrew, 1995 Until the time of Karl Marx and John Stuart Mill philosophers generally held economics to be an integral element of moral philosophy These days the language of values moral aesthetic and cognitive dominates philosophic discourse even though contemporary philosophers rarely hold economics to be integral to moral philosophy Examining the thought of Friedrich Nietzsche and the art of Marcel Proust Edward Andrew provides the first sustained critical analysis of values discourse an analysis that deconstructs its content and its form **Phenomenology of Values and Valuing** J.G. Hart, Lester Embree, 2013-04-17

Although a key aspect of the phenomenological movement is its contribution to value theory axiology and value perception almost all the major figures devoted a great part of their labors to these topics there has been relatively little attention paid to these themes This volume in part makes up for this lacuna by being the first anthology on value theory in the phenomenological movement It indicates the scope of the issues by discussing e.g. the distinctive acts of valuing openness to value the objectivity of values the summation and combination of values the deconstruction of values the value of absence and the value of nature It also contains discussions of most of the major representative figures not only in their own right but also in relationship to one another Von Ehrenfels Brentano Scheler Hartmann Husserl Heidegger Schutz and Derrida
