evidence intended to compel belief in a divinity John Clayton explores the surprisingly varied applications of such proofs in the work of philosophers and theologians from several periods and traditions thinkers as varied as Ramanuja al Ghazali Anselm and Jefferson He shows how the gradual disembedding of theistic proofs from their diverse and local religious contexts is concurrent with the development of natural theologies and atheism as social and intellectual options in early modern Europe and America Clayton offers a fresh reading of the early modern history of philosophy and theology arguing that awareness of such history and the local uses of theistic argument offer important ways of managing religious and cultural difference in the public sphere He argues for the importance of historically grounded philosophy of religion to the field of religious studies and public debate on religious pluralism and cultural diversity **An Enquiry concerning the**

The Grounds of Refugee Protection in the Context of International Human Rights and Humanitarian Law Mark R. von Sternberg, 2021-10-25 This volume examines the ways in which human rights and humanitarian law have influenced the development of the refugee definition as interpreted in the United States and Canada Analysis focuses on how these two significant jurisdictions have addressed refugee protection in a modern context The problem areas discussed include persecution during periods of upheaval resistance to the State in times of civil war opposition to coercive family planning programs and the diverse issues raised by gender based asylum claims The view is advanced that the grounds of refugee protection are not fixed but parallel discriminatory social and political attitudes towards defined groups The study also advocates that human rights and humanitarian law principles should continue to shape the evolution of refugee jurisprudence so as to achieve more effectively the Convention's goals This work will be of great interest to academics practitioners and policy makers in the refugee field as well as to scholars of international human rights and humanitarian law John Henry Newman: Fifteen Sermons Preached Before the University of Oxford John Henry

Newman, 2006 An edition with introduction and comprehensive notes of one of Newman's best known works The sermons

which explore the relation of faith and reason are a key document of the Oxford Movement *An Essay on the Harmonious Relations Between Divine Faith and Natural Reason to which are Added Two Chapters on the Divine Office of the Church* A. C. Baine, 1861 *An Account of Reason and Faith, in relation to the mysteries of Christianity. In reply to J. Toland's "Christianity not mysterious," etc* John Norris, 1790 *The Edinburgh Review, or Critical Journal: for July, 1834, January, 1835* THE EDINBURGH REVIEW, 1835 *The Edinburgh Review* , 1835 *The Edinburgh Review, Or Critical Journal: ... To Be Continued Quarterly* , 1835 *John Henry Newman: Fifteen Sermons Preached Before the University of Oxford* James David Earnest, Gerard Tracey, 2006-08-31 Newman himself called the Oxford University Sermons first published in 1843 the best not the most perfect book I have done He added I mean there is more to develop in it Indeed the book is a precursor of all his major later works including especially the Essay on the Development of Christian Doctrine and the Grammar of Assent Dealing with the relationship of faith and reason the fifteen sermons represent Newman's resolution of the conflict between heart and head that so troubled believers non believers and agnostics of the nineteenth century Their controversial nature also makes them one of the primary documents of the Oxford Movement This new edition provides an introduction to the sermons a definitive text with textual variants extensive annotation and appendices containing previously unpublished material *Essentials of Employment Law* David Lewis, Malcolm Sargeant, 2004 Lewis has updated his widely recommended text to take full account of all legislative changes that have come into effect since publication of the previous edition

Religious Commitment and Secular Reason Robert Audi, 2000-03-13 Many religious people are alarmed about features of the current age violence in the media a pervasive hedonism a marginalization of religion and widespread abortion These concerns influence politics but just as there should be a separation between church and state so should there be a balance between religious commitments and secular arguments calling for social reforms Robert Audi offers a principle of secular rationale which does not exclude religious grounds for action but which rules out restricting freedom except on grounds that any rational citizen would accept The book describes the essential commitments of free democracy explains how religious and secular moral considerations can be integrated to facilitate co operation in a world of religious pluralism and proposes ideals of civic virtue that express the mutual respect on which democracy depends Audi offers a balanced and sophisticated treatment of the relations between religion and politics in a modern secular society **The Ground and Goal of Human Life** Charles Gray Shaw, 1919 **The Problem of Political Foundations in Carl Schmitt and Emmanuel Levinas** Gavin Rae, 2016-09-17 In this book Gavin Rae analyses the foundations of political life by undertaking a critical comparative analysis of the political theologies of Carl Schmitt and Emmanuel Levinas In so doing Rae contributes to key debates in contemporary political philosophy specifically those relating to the nature of and the relationship between the theological the political and the ethical as well as those questioning the existence of ahistoric metaphysical ontological and epistemological foundations While the theological is often associated with belief in a fixed foundation such as God or the truth of a religion

Rae identifies another sense rooted in epistemology. On this understanding, the ontological limitations of human cognition mean that ultimately human truth is based in faith and so can never be certain. The argument developed suggests that Levinas' conception of the political is grounded in theology in the sense of religion, particularly the revelations of Judaism. For this reason, Levinas claims that the political decision is based on how to implement a prior religiously inspired norm of justice. Schmitt, in contrast, develops a conception of the political rooted in epistemic faith to claim that the political decision is normless. While sympathetic to Schmitt's conception of theology and its relationship to the political, Rae concludes by arguing that the emphasis Levinas places on responsibility is crucial to understanding the implications of this. The continuing relevance of Schmitt's and Levinas' political theologies is that they teach us that while the political decision is ultimately normless, we bear an infinite responsibility for the consequences of this normless decision.
