Rebel Women:

Rebel Women Jane Eldridge Miller, 1997-03-15 With the rise of women's suffrage challenges to marriage and divorce laws and expanding opportunities for education and employment for women the early years of the twentieth century were a time of social revolution Examining British novels written in 1890-1914 Jane Eldridge Miller demonstrates how these social legal and economic changes rendered the traditional narratives of romantic desire and marital closure inadequate forcing Edwardian novelists to counter the limitations and ideological implications of those narratives with innovative strategies The original and provocative novels that resulted depict the experiences of modern women with unprecedented variety specificity and frankness Rebel Women is a major re-evaluation of Edwardian fiction and a significant contribution to literary history and criticism Miller's is the best account we have not only of Edwardian women novelists but of early 20th century women novelists the measure of her achievement is that the distinction no longer seems workable David Trotter The London Review of Books

Australian Women's Justice Deborah Jordan,2023-12-18 This book explores how women spearheaded the democratic suffrage campaign in colonial Queensland engaging with international debates on women s activism leadership advocacy print culture and social movements Australian Women s Justice provides a nuanced reading of the diversity and differences of the women s movement in Queensland from the time of first white colonisation federation to World War 1 by new research on

key women's organisations notably the Women's Equal Franchise Association and the Women's Peace Army. Framed through the lives of women suffrage participants including their encounters with First Nations women, it also looks beyond microhistory to explore broader themes of the intersection of race, gender, property, war and empire in the colonial context. Campaigns for enfranchisement and property rights and against conscription connect this story with larger international movements for women and labour and organisations such as the League of Nations. This book will be of interest to students and researchers of Australian feminism and suffragism as well as historians of feminist labour and peace movements both in Australia and internationally.

Women's Work Jennifer Moore, 2025-03-11. When women have full socioeconomic citizenship as well as equitable and respectful partnerships with men, transformative justice can be sustained in postconflict societies. In *Women's Work*, Jennifer Moore presents a reimagined theory of peacebuilding and transformative justice based on the experiences and insights of women farmers and microentrepreneurs who lived through protracted civil conflicts, drawing on seven years of interviews with women activists across ten communities: five in the Acholi region of Northern Uganda and five in the Moyamba and Koinadugu Districts of Sierra Leone. Despite the important differences between the preconflict and conflict histories and demographics of the two countries, Moore finds commonalities in the practical yet visionary approaches to community life emerging from the core values, daily activities and long range goals shared by rural cooperative members in both regions. Collective survival, communal healing and conflict resolution define the rhythm of these women's daily lives as they go about building peace piecemeal. They reject punitive retribution models and demand instead a peacebuilding model that advocates for advances in material well-being, the acknowledgment of state accountability for community suffering and reconciliation and restoration of community networks. But most important, Moore amplifies these women's voices when they insist that legal equality for women and healthy partnerships between women and men are also essential components to enduring transformation of their societies. Moore theorizes what peacebuilding looks like if it were modeled on these women-led matriarchically structured communities that proved not only to be effective at holding governments accountable but also to have the capacity to feed their people and revitalize their local economies. *Women's Work* shows that when women have full socioeconomic citizenship as well as equitable and respectful partnerships with men, transformative justice can be sustained through the arts of collective livelihood, violence-free conflict management and celebration.

Kitchen Economics Thomas Strychacz,2020-08-11 An analysis of how nineteenth century women regional writers represent political economic thought WINNER OF THE ELIZABETH AGEE PRIZE IN AMERICAN LITERATURE Readers of late nineteenth century female American authors are familiar with plots characters and households that make a virtue of economizing Scholars often interpret these scenarios in terms of a mythos of parsimony frequently accompanied by a sort of elegiac republicanism whereby self sufficiency and autonomy are put to the service of the greater good a counterworld to the actual economic conditions of the period In Kitchen Economics Women s Regionalist Fiction and Political Economy Thomas Strychacz takes a new approach to the question of how female regionalist fictions represent the economic by situating them within traditions of classical political economic thought Offering case studies of key works by Sarah Orne Jewett Mary Wilkins Freeman Harriet Beecher Stowe Rose Terry Cooke and Alice Dunbar Nelson this study focuses on three complex cultural fables the island commonwealth stadialism or stage theory and feeding the body politic which found formal expression in political economic thought made their way into endless public debates about the economic turmoil of the late nineteenth century and informed female authors These works represent counterparts not counterworlds to modernity and their characteristic stance is captured in the complex trope of feminaeconomica This approach ultimately leads us to

reconsider what we mean by the term economic for the emphasis of contemporary neoclassical economics on economic agents given over to infinite wants and complete self interest has caused the sufficiency and common good models of female regionalist authors to be misinterpreted and misvalued These fictions are nowhere more pertinent to modernity than in their alliance with today's important alternative economic discourses

James Joyce's Legacies in Contemporary Irish Women's Writing Annalisa Mastronardi, 2025-09-10 James Joyce's Legacies in Contemporary Irish Women's Writing is a groundbreaking study that for the first time explores in depth the influence of James Joyce on Irish women writers from his contemporaries to more recent voices With a particular focus on Anne Enright's *The Gathering* Eimear McBride's *A Girl Is a Half-formed Thing* and Emilie Pine's *Ruth* Pen this book examines how Irish women writers have engaged with Joyce's legacy Unlike their male counterparts who have often felt overshadowed by Joyce's influence Irish women writers have embraced and expanded upon his work viewing it not as a constraint but as an opening to new creative possibilities This book will be of particular value to Joyce scholars working in feminism and reception studies as well as students of Irish literature and women's writing It offers fresh insights into the evolving landscape of Irish literature and complicates Harold Bloom's theory of the Anxiety of Influence demonstrating how women writers perceive canonical figures like Joyce not as rivals but as trailblazers
