Recent Social Trends In The United States 1960-1990 Comparative Charting Of Social Change:

Recent Social Trends in the United States, 1960-1990 Theodore Caplow, Howard M. Bahr, John Modell, Bruce A. Chadwick, 1994-03-21 On Rachel Carson and her work and on current environmental challenges The four authors present information on various American trends demographic macroeconomic and macro technological Descriptions tables and graphs trace the dynamics of population specifically in relation to the expansion which followed the 1982-83 recession and analyze achievements in intelligence genetic engineering and space travel Annotation copyrighted by Book News Inc Portland OR

Recent Social Trends in France, 1960-1990 Michel Forsé, Jean-Pierre Jaslin, 1993-04-29 A prominent feature of the social revolution in France has been the decline of the great national institutions the Republic the Army the church and the schools which are losing their symbolic value and are no longer the targets of ideological disputes As a result there is a growing basic consensus among the French people At the same time the French have developed a new interest in managing local problems due to the decentralization law which has led to the establishment of many voluntary associations Changes in family life following the revolution of 1968 have led to greater instability among couples but at the same time have strengthened the kinship system resulting in increased life expectancy The customs of the French have also changed The French education system originally based on authority and regulations is now making increasing use of experimentation and negotiation As a result the attitude of the French towards authority has totally changed and the French have learned to negotiate and cooperate among themselves All these changes can be interpreted as progressive moves toward liberty equality and individualism There is little danger of social instability since French society remains in remarkably robust health

Recent Social Trends in Quebec, 1960-1990 Simon Langlois, Baillargeon, 1992-02-05 Readers will follow an intense period of social change in Quebec during which there was a remarkable increase in the level of modernization They will note a massive entry of women into the labour force and a growing service sector that now constitutes seventy percent of all economic activity They will observe also that the Quebecois have dramatically increased their television viewing and that while they express a generally high level of satisfaction with life the Quebecois must contend with escalating crime and suicide rates

Recent Social Trends in West Germany, 1960-1990 Wolfgang Glatzer, International Research Group on the Comparative Charting of Social Change in Advanced Industrial Societies, 1992 The third volume in the invaluable reference series Comparative Charting of Social Change examines social trends in West Germany during the period between 1960 and 1990 This was a special phase of German history the Federal Republic of Germany was founded in 1949 and by 1960 the main disturbances of the Second World War had been overcome The next thirty years saw relatively stable development in democratic institutions economic wealth and the welfare state This process however was not entirely without difficulties Environmental conditions deteriorated and unemployment grew especially in the 1980s A new reunified Germany replaced the old FRG in 1990 ushering in a fundamentally different social structure

Recent Social Trends in Canada,

1960-2000 Lance W. Roberts, 2005 Canadian society has changed dramatically since 1960 This work captures the scope and range of these changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent works and journalistic reports Recent Social Trends in Canada concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context Comparable volumes in the McGill Queen s Comparative Charting of Social Change series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context

The First Measured Century Theodore Caplow, Louis Hicks, Ben J. Wattenberg, 2001 Most history tells the story of the past through anecdotes but anecdotes do not always present an accurate or complete picture There is another way to look at history The rise of widespread systematic data collection in the twentieth century the first measured century allows us to examine the past 100 years with unprecedented clarity Now The First Measured Century uses social data to tell us what happened to everyday Americans in the twentieth century Whether the topic is politics sexual behavior economics immigration living arrangements religion longevity or public opinion this myth busting popular reference work shows that the facts often turn out to be more interesting than the fiction A special feature of The First Measured Century is original 1999 research that builds on the landmark sociological study of the 1920s Middletown With survey results that span more than seven decades The First Measured Century offers the longest timeline of consistent attitudinal data anywhere This panorama of the American twentieth century unfolds in a series of key trends each explained in a one page essay written for the general reader and illustrated by one or more vibrantly colored charts on the facing page The First Measured Century is an essential tool for anyone interested in journalism economics history political science sociology demography public relations business the arts or public policy

Recent Social Trends in Italy, 1960-1995 Alberto Martinelli, Antonio Chiesi, Sonia Stefanizzi, 1999-03-30 Italy remains an enigma for many observers Recent Social Trends in Italy 1960 1995 the sixth volume from the international Comparative Charting of Social Change program provides a new and convincing schema for its comprehension It shows that three essential institutions have structured and unified Italian society the family the church and political parties While the state remains a weak institution it is important as a regulator of the economy and of society through the welfare state The book which contains a long introduction by Alberto Martinelli on the uneven modernization of Italy shows the usefulness of analysing social change through study of a series of macro social trends These trends range from life style structures to fertility leisure consumption inequality religion and family among others This sixth national profile provides more arguments in favour of a hypothesis of diversification rather

than convergence of modern societies As Henri Mendras writes in the preface of the book The more we change the more we remain ourselves that is the conclusion of our comparative research and the Italian study provides further ample proof of it

Recent Social Trends in Greece, 1960-2000 Dimitris Charalambis, Laura Maratou-Alipranti, Andromachi Hadjiyanni, 2004-02-25 The newest volume in the Comparative Charting of Social Change series highlights the main elements of demographic social political and economic development in Greece during the period 1960 2000 Based on a systematic analysis of available information and data this volume provides an overview of Greece's socio economic profile which changed significantly during the studied period The collapse of the dictatorship in 1974 and Greece's entry into the European Union EU in 1980 have led to a consolidation of democratic institutions and the improvement of living standards During the 1960s and 1970s the country experienced high rates of economic development and relatively low unemployment rates However this increase in economic development has slowed since the early 1980s and the unemployment rate has risen particularly among young people Consistent with recent social trends in other Western societies Greek society has become more tolerant and permissive with more diverse and flexible moral norms However the prevailing family model remains traditional and the Greek Orthodox Church continues to have a strong influence on many aspects of Greek society including social political and cultural life The organization of work also follows traditional patterns despite the introduction of new and flexible forms of employment Female participation in the labour market remains relatively low despite legislation and regulations that promote equality of opportunities between the sexes Consistent with recent social trends in other Western societies Greece's population is aging and the birth rate has stabilized at a relatively low level Contributors include Ioannis Antonopoulos Dimitri Economou University of Thessalia Evi Fagadaki Thomas Maloutas University of Thessalia Alberto Martinelli Ioannis Myrizakis Theodore Papadogonas Apostolos g Papadopoulos University of Ioannina Roy Panagiotopoulou Apostolis Rafailidis economist Paris Tsartas University of Aegean Kostas Yannakopoulos Elisabeth Allison Dionisis Balourdos Nikos Bouzas Kaliroi Daskalaki Amalia Frangiskou Emmy Fronimou Panayiotis Kafetzis Roxanne Kaftantzoglou John Kallas Chrysa Kappi Maria Ketsetzopoulou Helene Kovani Evdokia Manologlou Joannis Micheloyiannakis Aliki Mouriki Panagiota Papadopoulou Ioanna Papathanassiou Christos Papatheodorou Marina Petronoti Nikos Sarris Theoni Stathopoulou Hara Stratoudaki Haris Symeonidou Maria Thanopoulou Olga Tsakirides Joanna Tsiganou Christina Varouxu Efi Venizelou and Ersi Zacoboulou are all researchers at the National Centre for Social Research EKKE *Social Research* Piergiorgio Corbetta, 2003-04-16 This is an impressively detailed clearly written book It is a book that I would like students to read Clive Seale Goldsmiths College London Social Research Theory Methods and Techniques presents an understanding of social research practice through appreciation of its foundations and methods Stretching from the philosophy of science to detailed descriptions of both qualitative and quantitative techniques it illustrates not only how to do social research but also why particular techniques are used today The book is divided into three parts Part One Illustrates the two basic paradigms

quantitative and qualitative of social research describing their origins in philosophical thought and outlining their current interpretations Part Two Devoted to quantitative research and discusses the relationship between theory and research practice It also presents a discussion of key quantitative research techniques Part Three Examines qualitative research Topics range from classical qualitative techniques such as participant observation to more recent developments such as ethnomethodological studies Overall the author offers an engaging contribution to the field of social research and this book is a reminder of the solid foundations upon which most social research is conducted today As a consequence it will be required reading for students throughout the social sciences and at various levels Leviathan Transformed Theodore

Caplow, 2002-01-16 The authors using these goals as a checklist found that each of the seven states performs well in some areas and badly in others They discovered that all states approached these goals in a style shaped by their own history and in particular by how they have been affected by the troubles of the twentieth century Their investigations offer a new informative way of looking at these nation states and detail the social and political conditions in each state Contributors include Theodore Caplow Salustiano Del Campo Royal Academy of Political and Social Science Madrid Nikolai Genov Bulgaria Academy of Sciences Karl Otto Hondrich Goethe University Simon Langlois Universit de Laval Alberto Martinelli University of Milan and Henri Mendras OFCE Paris
