Regional Integration And Developing Countries:

Regional Integration and Development Maurice W. Schiff, L. Alan Winters, 2003 This text examines regionalism from the perspective of developing countries It presents a comprehensive account of existing theory and empirical results and incorporates the findings of formal analyses of the politics and dynamics of regionalism *Regional Integration Among Developing Countries* Rolf J. Langhammer, Ulrich Hiemenz, 1990 **Regional Integration Among Developing Countries, Revisited** András Inotai, 1991 The formation of new powerful economic and trading blocs and the transition to market economies in Central and perhaps Eastern Europe has fostered a trend toward new regionalism in the world economy which the virtual failure of the GATT negotiations may speed up To minimize economic losses and avoid marginalization regional groups of developing countries must increasingly work out common positions and join one of the influential groups

Regional Integration and Developing Countries Robert Christopher York, Organisation for Economic Co-operation and Development, 1993 **Economic Integration and Development** Mordechai Elihu Kreinin, Michael G. Plummer, 2003-01-01 The intriguing and provocative results on the effects of the single European market and NAFTA make this short book worth a read even if one is concerned only with how developing countries have been affected by regional trade agreements that do not include them Peter J Montiel *Journal of Regional Science* This book is an excellent attempt to pin down the effects of regional economic integration on developing countries it will prove to be a good guide for researchers and students of development economics working in the area of regional trading arrangements and policymakers and governments which are in the process of exploring the possibilities of forming free trade areas Pravakar Sahoo *Development Policy Review* Students interested in either the methodological issues inherent in research on trade or on the economics of trading blocs in general would profit from the book James J Hentz *The European Journal of Development Research* Questions related to the economics of regionalism became increasingly important beginning in the late 1980s when regional groupings started to become very popular as a tool of commercial policy The goal of this book is to address the question of whether or not regionalism in developed countries has truly benefited developing countries and to what degree regionalism among developing countries and between developed and developing countries will improve economic development prospects Mordechai Kreinin and Michael Plummer consider the implications of the emerging global trend of economic regionalism for developing countries The analysis focuses on the trade and investment effects of integration in developed countries on developing countries as well as the ramifications of regional integration in the latter After an extensive review of the theoretical and empirical literature pertinent to the economics of regionalism the book considers the ex post trade and direct foreign investment effects of the Single Market Program in Europe and NAFTA followed by chapters on ASEAN and economic integration in Latin America primarily MERCOSUR The study suggests three salient conclusions First in designing preferential trading arrangements developed countries should recognize and attempt to minimize the possible discriminating

effect on developing countries Second the developing countries have an abiding interest in the success of WTO negotiations that would minimize the discrimination against them of regional groupings in Europe and North America And third any customs unions or free trade areas among the developing countries themselves should be outward looking if they are to enhance the welfare of developing countries Economists and policy scholars as well as readers interested in regionalism and economic development will find this book a great resource

Regional Integration Among Developing Countries Rolf J. Langhammer, Ulrich Hiemenz, 1990-01-01 Regional Integration Altaf Gauhar, 1985 **Regional Integration in Developing Countries** Rasul Shams, 2003 New Dimensions in Regional Integration Jaime De Melo, Arvind

Panagariya, 1995 Interest in regional integration has recently revived in both developed and developing countries The US has responded to the lack of progress in the Uruguay Round of the GATT by pursuing bilateral trade negotiations while developing countries have been prompted to re evaluate the potential benefits of regional integration The tendency for the world trading system to divide into three blocs the European Community the Americas and East Asia is providing their members with guaranteed access to large markets however poor non member countries will suffer from the loss of access and the risk of trade wars is increased In this book leading international experts assess the renewed attractiveness of regional integration to individual countries the types of integration that are suitable to various circumstances the conditions necessary to their success and the relationship of regionalism to multilateral free trade

Regional Integration in Europe and Its Effects on Developing Countries Ulrich Hiemenz, Erich Gundlach, 1994 *Regional Integration in Europe and Its Effects on Developing Countries* Ulrich Hiemenz, Erich Gundlach, Rolf J. Langhammer, Peter

Nunnenkamp, 1994-06-01 **Governing Regional Integration for Development** Dr Antoni Estevadeordal, Dr Philippe De Lombaerde, Ms Kati Suominen, 2013-03-28 Developing countries have joined the rapidly growing global system of regional trade agreements RTAs over the past years The drive towards regional integration has advanced with the formation of new markets and groups in Latin America Africa Asia the Middle East and Oceania with few developing countries remaining outside these regional schemes This volume looks at how getting governance right is a central element for successful RTA implementation taking stock of the quality and effectiveness of the monitoring of development country RTAs around the world Organized by the main world regions and primarily focusing on developing country RTAs the book also includes two case studies focused on monitoring in developed country regional agreements by way of comparison The contributors operationalize governance in the context of RTA implementation with a more narrow and technical term of monitoring and provide eight important lessons for assessing monitoring around the world

Competition Policy and Regional Integration in Developing Countries Josef Drexler, 2012-01-01 This wonderful volume offers a timely and important look at competition policy where it is changing the most developing countries pursuing regional agreements It provides superb analytical discussions of the impact of regional competition policy integration why developing states have pursued this strategy and the

extent to which it is meeting their needs the editors have assembled a superb roster of experts so it is not a surprise that the book recommendations are insightful and deserving of attention from policy makers Andrew Guzman Berkeley Law School US This book presents a detailed study of the interface between regional integration and competition policies of selected regional trade agreements RTAs and the potential of regional competition laws to help developing countries achieve their development goals the book provides insights on the regional integration experiences in developing countries their potential for development and the role of competition law and policy in the process Moreover the book emphasizes the development dimension both of regional competition policies and of competition law This timely book delivers concrete proposals that will help to unleash the potential of regional integration and regional competition policies and also help developing countries to fully enjoy the benefits deriving from a regional market Bringing together analysis from well known scholars in the developed world with practical insight from scholars in countries hoping to exploit the potential of competition law this book will appeal to academics working in the field of competition law practitioners policy makers and officials from developing countries as well as those in development organizations such as UNCTAD

Regional Integration and Food Security in Developing Countries Alan Matthews, Food and Agriculture Organization of the United Nations, 2003-01-01 Developing countries are active participants in the formation of regional trade arrangements RTAs but viewpoints differ on the desirability and on the efficient design of regional integration The first objective of this paper is to review the regional integration debate for those involved in the preparation of food security strategies among developing countries The paper concentrates primarily on the economic arguments while acknowledging that political motivations may often be the primary driving force behind RTAs The second objective of the paper is to identify the potential role which regional integration arrangements might make to promoting food security among their members Regional Integration Among Developing Countries B. Mierau, 1983

Wealth through Integration Elias T. Ayuk, Samuel T. Kaboré, 2012-11-28 Could regional integration be a first step toward joining the global market In a context where liberalizing trade has not produced the expected gains in developing countries and growth in global trade has not led to the expected economic growth an alternative solution has emerged This new paradigm suggests that trade liberalization should be accompanied by public investment However by its very nature trade liberalization leads to a reduction in revenues from duties and taxes which means that the available resources for public investments will also be reduced There are now solid arguments for encouraging the less developed countries to first emphasize regional integration before trying to access the global market This book explores the issues linked to regional integration in West Africa and presents empirical data about the experiences in West African Economic and Monetary Union WAEMU countries to converge their economies It also examines how these efforts which make a major contribution to regional integration influence poverty reduction in the economic and monetary community It will be of interest to researchers working in this area Elias T Ayuk is Director of the United Nations University Institute for Natural Resources in

Africa in Accra Ghana and was formerly a senior program specialist at the International Development Research Centre Samuel T Kabor is a researcher lecturer at the Faculty of Economics and Management at the University of Ouagadougou II BurkinaFaso Canada s International Development Research Centre IDRC supports research in developing countries to promote growth and development IDRC also encourages sharing this knowledge with policymakers other researchers and communities around the world The result is innovative lasting local solutions that aim to bring choice and change to those who need it most Elias T Ayuk is Director of the United Nations University Institute for Natural Resources in Africa in Accra Ghana and was formerly a senior program specialist at the International Development Research Centre Samuel T Kabor is a researcher lecturer at the Faculty of Economics and Management at the University of Ouagadougou II Burkina Faso Canada s International Development Research Centre IDRC supports research in developing countries to promote growth and development IDRC also encourages sharing this knowledge with policymakers other researchers and communities around the world The result is innovative lasting local solutions that aim to bring choice and change to those who need it most

Regional Cooperation, and the Role of International Organizations and Regional Integration Maurice Schiff,2016 Schiff and Winters examine regional cooperation among neighboring countries in the area of regional public goods These public goods include water basins such as lakes rivers and underground water infrastructure such as roads railways and dams energy and the environment Their analysis focuses on developing countries and the potentially beneficial role that international organizations and regional integration may play in bringing the relevant countries to a cooperative equilibrium A major problem in reaching a cooperative solution is likely to be the lack of trust If neighboring countries do not trust each other because of past problems they may fail to reach a cooperative solution as each tries to maximize its gain from the regional public good These strategies typically do not account for spillover effects and ultimately leads to losses for all parties Other constraints on reaching a cooperative solution are its complexity and the financial requirements Two types of institutions may help resolve some or all of these problems International organizations can help with trust expertise and financing The United Nations and the World Bank have been involved in a number of such projects in Africa Asia and elsewhere and have been successful in helping parties reach cooperative solutions Regional integration agreements though not necessary for regional cooperation may also be helpful by embedding the negotiations on regional cooperation in a broader institutional framework The authors examine these issues with the support of both analysis and a number of case studies This paper a product of Trade Development Research Group is part of a larger effort in the group to examine the role and effects of regional integration Maurice Schiff may be contacted at mschiff@worldbank.org
