Special Religious Education in Australia and its Value to Contemporary Society Zehavit Gross, Suzanne D. Rutland, 2021-02-22 This book explores the advantages of and challenges concerning Special Religious Education SRE in multicultural Australia and argues for the need for General Religious Education GRE as well Through the lens of the most recent scholarship and drawing on an in depth qualitative study and specific case studies the book examines the current debate on the role of religious education within government schools It addresses key concepts of values education spirituality health and wellbeing and cultural and religious identity It analyses why it is important to retain SRE together with GRE as government policy It explores highly relevant controversial and contested issues regarding SRE including the 30% of Australia s population who declare themselves as having no religion and brings fresh insights to the table While secularization has increased in both the national and international spheres there has also been an increase in fundamentalism within religious beliefs Events such as the September 11 terror attacks and the more recent mass shootings by white supremacists and eco fascists in Christchurch New Zealand and Pittsburgh and San Diego in the USA are reminders that religion is still a major actor in the twenty first century This poses new challenges for the relationship between church and state and demonstrates the need to revisit the role of religious education within government schools While the importance of GRE is generally acknowledged SRE has increasingly come under attack by some researchers and teacher and parent bodies as being inappropriate and contradictory to the values of the postmodern world On the other hand the key stakeholders from all the faith traditions in Australia wish to retain the SRE classes in government schools The book addresses this burning issue and shows that it is relevant not only for Australia but also globally

Crawford, Graham M. Rossiter, 1988 **Inspiring Faith in Schools** Marius Felderhof, 2016-05-23 Inspiring Faith in Schools addresses the privileging of secularism that appears to affect RE in countries influenced by modern western thought The authors argue that a more engaging form of RE would emerge if religious life were to inhabit centre stage Currently religious faith is made to hover in the wings awaiting the call to face the inquisitorial challenge of the modern day enquirer The consequent relationship between pupil and the Divine as the purpose of study is then already intrinsically irreligious as indicated in the Book of Job by putting God in the dock whereas it is the pupil who should be cross examining his or her life What are the ways of exciting and engaging the young so that they begin to entertain the possibility of religious life as a genuine option for themselves Leading scholars in philosophy and theology from the UK Australia Canada and the USA come together to address these questions together with RE experts Marius Felderhof writes an Afterword summing up the challenges faced by such a re visioning of RE **Religious Education**, 1923 Available on microfilm from University Microfilms

What is Christian Education? George Albert Coe, 1929 *International Handbook of Inter-religious Education* Kath Engbretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people

of different religions and therefore it has great potential to contribute to the common good of the global community. Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893. This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity.

The Islamic Enlightenment: The Struggle Between Faith and Reason, 1798 to Modern Times Christopher de Bellaigue, 2017-04-04

The finest Orientalist of his generation, Wall Street Journal rewrites everything we thought we knew about the modern history of the Islamic world. In this stylishly written, surprisingly moving chronicle, Harper's Christopher de Bellaigue presents an absorbing account of the political and social reformations that transformed the lands of Islam in the nineteenth and twentieth centuries. The best sort of book for our disordered days. Pankaj Mishra

The Islamic Enlightenment is at once new, fascinating, and extraordinarily important. Wall Street Journal as it challenges ossified perceptions in Western culture that self-righteously condemn the Muslim world as hopelessly benighted. This false perception belies the fact that Islamic civilization has long been undergoing its own anguished transformation and that the violence of an infinitesimally small minority is the blowback from this process. In reclaiming the stories of the fascinating individuals who would grapple with reform and modernization. New York Times

Book Review de Bellaigue's eye-opening, well-written and very timely. Yuval Harari's history shows the folly of Westerners demanding modernity from people whose lives are already drenched in it.
