Robinson Jeffers James Karman, 2015-08-05 A deeply informative biography situates the poet in his time and place tracing the effect of both contemporary history and wild nature on his work Edwin Cranston Harvard University The precipitous cliffs rolling headlands and rocky inlets of the California coast come alive in the poetry of John Robinson Jeffers an icon of the environmental movement In this concise and accessible biography Jeffers scholar James Karman reveals deep insights into this passionate and complex figure and establishes Jeffers as a leading American poet of prophetic vision In a move that would define his life s work Jeffers family relocated to California from Pennsylvania in 1903 when he was sixteen At the height of his popularity in the 1920s and 1930s Jeffers became one of the few poets ever featured on the cover of Time magazine and posthumously put on a U S postage stamp Writing by kerosene lamp in a granite tower that he had built himself his vivid and descriptive poetry of the coast evoked the difficulty and beauty of the wild and inspired photographers such as Edward Weston and Ansel Adams He was known for long narrative blank verse that shook up the national literary scene but in the 1940s his interest in the Greek classics led to several adaptations which were staged on Broadway to great success Inspiring later artists from Charles Bukowski to Czeslaw Milosz and even the Beach Boys Robinson Jeffers contribution to American letters is skillfully brought back out of the shadows of history in this compelling biography of a complex man of poetic genius who wrote so powerfully of the astonishing beauty of nature

The Idea of Wilderness Max Oelschlaeger,1991-01-01 How has the concept of wild nature changed over the millennia And what have been the environmental consequences In this broad ranging book Max Oelschlaeger argues that the idea of wilderness has reflected the evolving character of human existence from Paleolithic times to the present day An intellectual history it draws together evidence from philosophy anthropology theology literature ecology cultural geography and archaeology to provide a new scientifically and philosophically informed understanding of humankind s relationship to nature Oelschlaeger begins by examining the culture of prehistoric hunter gatherers whose totems symbolized the idea of organic unity between humankind and wild nature and idea that the author believes is essential to any attempt to define human potential He next traces how the transformation of these hunter gatherers into farmers led to a new awareness of distinctions between humankind and nature and how Hellenism and Judeo Christianity later introduced the unprecedented concept that nature was valueless until humanized Oelschlaeger discusses the concept of wilderness in relation to the rise of classical science and modernism and shows that opposition to modernism arose almost immediately from scientific literary and philosophical communities He provides new and in some cases revisionist studies of the seminal American figures Thoreau Muir and Leopold and he gives fresh readings of America s two prodigious wilderness poets Robinson Jeffers and Gary Snyder He concludes with a searching look at the relationship of evolutionary thought to our postmodern effort to reconceptualize ourselves as civilized beings who remain in some ways natural animals

Westernness Alan Bacher Williamson, 2006 A first person meditation on the literary and visual arts of the American West Westernness A Meditation explores how this region has developed its own distinct culture in literature and painting from the point of view of someone who has been at different times in his life both a westerner and an easterner An engaging and astute reader and observer Alan Williamson uses his poetic lens to examine the new connections notably with the Far East that have been forged in the West but also the fear anxiety and sense of cultural vacancy that western artists have had to overcome in confronting their new landscape much as the writers of the American Renaissance did a century earlier Writing as a displaced easterner with significant western roots Williamson looks at writers and poets such as Cather Lawrence Steinbeck Jeffers Silko and Snyder as well as artists such as the Yosemite painters Georgia O Keeffe and Wayne Thiebaud to show how despite the inflated optimism of many western patriots the work of these individuals relates to the anxieties suffered by their eastern predecessors By revealing what he sees as the repetition of the evolution of American literature in the rise of western literature Williamson provides us with a fresh vantage point from which we can appreciate western literature art and culture and simultaneously dismantle the literary war between East and West A tribute to the author's lifelong engagement with a particular landscape and its writers Westernness speaks to the general reader who is curious about his or her native place and relationship to it as well as to scholars in literary and ecocritical studies **Robinson**

broad consideration of Jeffers focus on the figure of Christ as emblematic of the human aspiration toward God a God whom Jeffers defines not in Christian terms but in those of an older materialist pantheism and of modern science The later sections of the book develop a conspectus of the democratic sublime that addresses American exceptionalism through the prism of Jeffers Jeffersonian ethos A final chapter places Jeffers poetic thought in the larger cosmological perspective he sought in his late works
