Long Road To Reform Restructuring Public Education In Quebec:

Long Road to Reform Henry Milner, 1986-09-01 The Long Road to Reform analyses attempts to change the sectarian nature of schooling in Quebec focusing on the fate of the radical proposals advanced by the Parti qu b cois in their White Paper of June 1982 The then minister of education Camille Laurin proposed to reform the existing system of confessional school boards with its separate networks of schools for Catholics and Protestants replacing it with school boards divided along regional lines Under this plan individual schools would have had considerable organizational autonomy through councils composed of parent and teacher representatives Widespread opposition to this proposal led to its eventual modification and to the substitution of a much scaled down version of these reforms Bill 3 which was declared unconstitutional by the Superior Court of Quebec in May 1985 In reviewing this effort at reform Henry Milner describes the political and historical context in which the Quebec educational system developed and show how existing forces prevented its modification Milner shows that when challenged vested interests were still capable of erecting formidable obstacles to change and that churches were not the only institutions committed maintaining the status quo His study not only examines why this attempt to restructure public education in Quebec failed but also provides a fascinating picture of Quebec s turbulent and often contradictory political evolution during this period

The Long Road to Reform Henry Milner, 1986 Although it has often been assumed that the Quiet Revolution represented the triumph of secularism over religion in Quebec important vestiges of ecclesiastical influence have remained among those which have proved to be particularly well entrenched are the structural foundations of the school system

The Reconquest Of Montreal Marc Levine, 2010-04-28 An examination of the nature of the linguistic transformation of Montreal and the role of public policy in promoting it

Religion and Schooling in Canada Robert K. Crocker, 2022-11-15 Christian organizations have always played a large role in Canadian education By 1949 five provinces had constitutionally protected denominational schools The federal government s responsibility for the education of Indigenous Peoples was effectively contracted out to the churches for more than a century resulting in a history of abuse that has only recently come to light From the 1950s to the 1970s several initiatives in different provinces set the stage for significant reforms to education Some of these tested the limits of denominational protections but could not shake the underlying constitutional structures Patriation of the Constitution and adoption of the Canadian Charter of Rights and Freedoms in 1982 codified fundamental changes in thinking about civil rights The Charter allowed existing denominational rights to be challenged on many fronts However all such challenges were rebuffed by the courts on the grounds that the Charter cannot be used to override other parts of the Constitution By the 1990s it became apparent that another route to reform was available through the amending formula Constitutional amendments were used to end denominational control of schools in Newfoundland and Quebec in 1997 and 1998 The circumstances around those constitutional amendments are discussed in detail as possible precedents for similar outcomes in Alberta Ontario and

Saskatchewan This book contends that change will certainly come to these provinces and several paths to reform are explored This reform aims to remove the discrimination inherent in denominational institutions while preserving some form of religious involvement in certain schools *Public Schools and Political Ideas* Ronald A. Manzer,1994 A study of educational policies and public philosophy in Canada Manzer political science U of Toronto first describes the substantive issues of educational politics forms of educational governance and content of educational policies as they have developed over time He then interprets the political ideas that underlie educational institutions and policies and give them meaning His analysis begins with the foundation of state education in the mid 19th century and concludes with the prospective reforms of the 1990s Annotation copyright by Book News Inc Portland OR Québec Alain Gagnon,1998 This selective annotated bibliography details and evaluates over 1000 sources All aspects of the country s history geography politics way of life people and culture are covered Attention is paid to works which examine Quebec s particular situation within Canada and North America **Quebec Since 1930** Paul-André Linteau,René Durocher,Jean-Claude Robert,François Ricard,1991-01-01 List of Tables List of Maps List of Figures Preface PART 1 THE DEPRESSION AND THE WAR 1930 1945 Introduction Quebec in 1929 The Depression A Troubled Period The Second World War A Meeting of the People Roderick MacLeod,Mary Anne Poutanen,2004 A study of the local school board as a key political and social institution in Protestant communities in Quebec Community Besieged Garth Stevenson,1999 Stevenson examines how these changes altered anglophone relations with the major political parties as well as the role of newer entities such as Alliance Quebec and the Equality Party He concludes with a look at the future for anglophones in Quebec *Québec: État et Société, Tome 1* , *Learning to School* Jennifer Wallner,2014-05-27 Among countries in the industrialized world Canada is the only one without a national department of education national standards for education and national regulations for elementary or secondary schooling For many observers the system seems impractical and almost incoherent But despite a total lack of federal oversight the educational policies of all ten provinces are very similar today Without intervention from Ottawa the provinces have fashioned what amounts to a de facto pan Canadian system Learning to School explains how and why the provinces have achieved this unexpected result Beginning with the earliest provincial education policies and taking readers right up to contemporary policy debates the book chronicles how through learning and cooperation the provinces gradually established a country wide system of public schooling A rich and ambitious work of scholarship it will appeal to readers seeking fresh insights on Canadian federalism education policy and policy diffusion **A History of School Mathematics** George M. Honorary Protestants David Fraser, The Osgoode Society, 2015-11-26 When the Constitution Act of 1867 was enacted section 93 guaranteed certain educational rights to Catholics and Protestants in Quebec but not to any others Over the course of the next century the Jewish community in Montreal carved out an often tenuous arrangement for public schooling as honorary Protestants based on complex negotiations with the Protestant and Catholic school boards the provincial government and individual municipalities In the face of the constitution s exclusionary language all parties gave their compromise a legal form which was frankly unconstitutional but unavoidable if Jewish children were to have access to public schools Bargaining in the shadow of the law they made their own constitution long before the formal constitutional amendment of 1997 finally put an end to the issue In *Honorary Protestants* David Fraser presents the first legal history of the Jewish school question in Montreal Based on extensive archival research it highlights the complex evolution of concepts of rights citizenship and identity negotiated outside the strict legal boundaries of the constitution *Canadian Education and*

Research Digest, 1986 Inward Conquest Ben W. Ansell, Johannes Lindvall, 2020-11-26 In the nineteenth and early twentieth centuries modern states began to provide many of the public services we now take for granted *Inward Conquest* presents the first comprehensive analysis of the political origins of modern public services during this period Ansell and Lindvall show how struggles among political parties and religious groups shaped the structure of diverse yet crucially important public services including policing schooling and public health Liberals Catholics conservatives socialists and fascists all fought bitterly over both the provision and political control of public services with profound consequences for contemporary political developments Integrating data on the historical development of public order education and public health with novel measures on the ideological orientation of governments the authors provide a wealth of new evidence on a missing link in the history of the modern state
