Orphans of Space-Time Robby Charters,2016-11-01 If you remember something that didn't happen it either means you're crazy or you have the ability to time travel but don't know it yet When Drake was nine he was sure he had a best friend named Timmy But Timmy didn't exist Now at age sixteen he still remembers Timmy When he looks deeper he recognises pictures of people that he shouldn't because he wasn't born yet when they were last seen He even remembers a name Then he meets Johann who tells him to cover his tracks The name he remembers is of a time travelling assassin Now Drake is in over his head because the fact that he can remember means he also has the latent gift of time travel But that's not something to get all giddy about like discovering you're a superhero or something First off who's going to believe you For goodness sake this is real life So begins Drake's quest to save his best friend from non-existence and stop the assassin from changing the world beyond recognition because now the assassin has murdered Johann and Drake is the only one who can stop him It's a series of interconnected stories ranging in size from short story to novella You'll be hooked at the end of the first as it ends in a cliffhanger that can only be resolved in the second Drake and his friends have to clean up a mess that resulted from the first adventure If you like time travel stories about down to earth people this is definitely for you Buy now
