Memories, Dreams, and the Grid Gordon Plotkin, 2023-01-05 Days before his 19th birthday, Grid awakes in the middle of the night screaming, "THE ELEVATOR NO HANK." He had just endured his first nightmare, his first of two. His dreams had been unusually pleasant to date, all of them. And until days before Grid's 19th birthday, the protagonists were people he didn't know or so he thought. Every night since his second birthday, Grid would dream about Mike and Hank, The Brothers, who weren't really brothers, the main characters of what played out like a series of movies in Grid's head every night as he slept. He had wondered as a child what it was all about. When he asked his mother Dolly, she became inexplicably cross and lashed out at her son. She convinced Grid that Hank and Mike weren't real. And then Dolly warned her son sternly to never speak of it for fear that people would think Grid was crazy like his grandfather. He had died the day Grid was born. She didn't tell him Mike was that grandfather and Hank was his uncle, but not his real uncle. Grid only began to wonder anew what it was all about after his first nightmare days before his 19th birthday on a Kibbutz in Israel. He decided to share his dreams for the first time with his roommate after waking from his second nightmare screaming, "NO HANK DON'T LEAVE ME."

Off the Grid Randy Denmon, 2017-04-04 The rollicking tale of a first of its kind adventure driving a Tesla through Central America. Only a week after the nation's newspapers were filled with headlines of the first cross-country trip in an electric car, two Louisianans slip quietly across the Rio Grande in south Texas in an attempt to do the unthinkable: drive a factory electric car across seven Third World countries to the end of the road, Panama City, Panama. Without support and armed only with a toolbox, a bag of electrical adapters, and their wits, author Randy Denmon and his friend Dean trudge on through jungles, deserts, volcanoes, rivers, and crater-sized potholes all the while trying to avoid the drug cartels and corrupt border guards that could mean a quick end to their adventure and their lives. Through it all, the same enormous problem loomed daily: how to charge the car in such a primitive and desolate setting. Despite the numerous setbacks, Randy never lost his sense of humor.

Off the Grid is as much a spiritual journey as a physical one about two guys who dropped everything for one grand twenty first century adventure traveling back in time in a car that seemed to come from the future

Martens, 2013-06-29 Consultation is an indirect model of delivering psychological services Within this model a consultant and caregiver consultee work together to optimize the functioning of a client in the caregiver s setting and to increase the caregiver s capacity to deal with similar situations in the future In schools for example a psychologist may consult with a teacher about a student in the teacher s classroom The practice of school consultation has burgeoned since its formal introduction into public education during the 1960s Today graduate training programs in various specialties of psychology and education require coursework in consultation and many professionals in these areas spend some portion of their day engaged in consultation Consultation can be a powerful tool in delivering psychological services in schools but only when the consultant possesses a requisite level of skill and sophistication In preparing this volume we envisioned its major purpose as reducing the level of naivete typically experienced by the beginning school consultant Toward that end we offer a systematic approach to school consultation that targets much of the information needed for one to consult in a competent manner The reader should note that our use of the somewhat ambiguous term school consultant is intentional and recognizes that consultants working in schools today represent a variety of professional disciplines The primary intended audience for this book however is clinical child psychologists and school psychologists although psychologists having other specialties are likely to find its content useful **A Grid for Murder** Casey Mayes, 2012 Savannah Stone makes her living creating puzzles for logic lovers But when a novice puzzle maker s number is up Savannah Nalong with her retired police chief husband Zach Nhas to fill in the blanks to solve a murder Includes puzzles Original *Bayesian Models of Perception and Action* Wei Ji Ma, Konrad Paul Kording, Daniel Goldreich, 2023-08-08 An accessible introduction to constructing and interpreting Bayesian models of perceptual decision making and action Many forms of perception and action can be mathematically modeled as probabilistic or Bayesian inference a method used to draw conclusions from uncertain evidence According to these models the human mind behaves like a capable data scientist or crime scene
