Digging Into Popular Culture Ray Broadus Browne,Pat Browne,1991 This volume presents archeological studies in conjunction with cultural anthropological studies as a means to enhance popular culture studies Scholar Malcolm K Shuman points out that the study of archeology must be careful to chart the total human content of an artifact because archeology is a profoundly human and humanizing endeavor that cannot be divorced from the matrix of human life The other ten essays cover aspects of archeology and cultural anthropology and the authors are meticulous in studying their subject in context

safety leaving a staggering 89% with unknown or undisclosed effects More than 70% of all personal care products may contain phthalates which are linked to birth defects and infertility Many baby soaps are contaminated with the cancer causing chemical 1 4 dioxane It s not just women who are affected by this chemists brew Shampoo deodorant face lotion and other products used daily by men women and children contain hazardous chemicals that the industry claims are within acceptable limits But there s nothing acceptable about daily multiple exposures to carcinogenic chemicals from products that are supposed to make us feel healthy and beautiful Not Just a Pretty Face delves deeply into the dark side of the beauty industry and looks to hopeful solutions for a healthier future This scathing investigation peels away less than lovely layers to expose an industry in dire need of an extreme makeover 15 percent of the purchase price of each book sold benefits the national Campaign for Safe Cosmetics administered by the Breast Cancer Fund through December 31 2012
