

Type of data	Data extract	What was happening in the data?	Theme
Observational field notes	Observing Nurse C - tells me that she has 8 patients to care for today. She leaves the clinical bay areas and goes to drug store/prep room, starts to prepare some medications Approaches patient, engages in conversation while setting up an IV drug. Has to leave briefly to take telephone enquiry from this patient's relatives. Writing in the notes	Prioritising care and nursing duties Engaging with the patient- assessing verbal response and administering medication Communication with relatives Documenting care	Clinical judgement and decision making Verbal assessment of the patient Knowing the patient
Observational field notes	Nurse C describes limited continuity of care over 48hours. Nurse C goes into the bays and observes each patient. Brief conversation.	Short length of time spent with patients Nurse is making sure that each patient is observed regularly- but the layout of the bay areas makes this challenging.	Knowing the patient in AMU Assessment and observation of the patient Clinical decision making
Statement made by Nurse C during the observational period.	Nurse C states that the layout is not conducive to caring for the acutely ill and for monitoring patients who are at high risk of falls.	Nurse recognises risk to patients from the ward layout and difficulty in observing the patients.	Impact of the AMU environment on patient assessment
