Nursing Home Ethics Everyday Issues Affecting Residents With Dementia:

Nursing Home Ethics Bethel Ann Powers, RN, PhD, 2003-09-09 Designated a Doody's Core Title Winner of an AJN Book of the Year Award p Bethel Ann Powers gives a comprehensive and thoughtful examination of the ethical issues that arise in long term care The first two chapters set the stage by exploring the pre nursing home experiences of families living with dementia and in contrast how residents and family members experience life in the nursing home The following chapters contain detailed hypothetical cases that include questions possible actions and insightful commentary to illustrate practical approaches to understanding common ethical issues affecting nursing home residents **Dementia Care** Mala Kapur Shankardass, 2021-09-03 This book discusses the contemporary medico social psychological legal and therapeutic concerns related to people affected by dementia as a patient or as a caregiver It provides global emerging responses to dementia It highlights different dimensions of dementia in terms of issues concerns policies and strategies all around the globe The contributing authors present issues from cross cultural education visible in dementia studies and discuss the power of music art therapy artistic collaborations and many innovative practices in dealing with dementia Written by international specialists from various disciplines the chapters include challenges and emerging issues related to the role of family caregivers the concern with vulnerability to elder abuse and neglect and the role of technology in dementia care The book provides a diverse perspective to dementia care not covered in such a broad way by any other books on the topic This book is intended for academics from a wide range of fields such as sociology geriatrics community medicine public health clinical psychology social work all of which collectively bear on the problem and the solutions for better dementia care The Law and Ethics of Dementia Charles Foster, Jonathan Herring, Israel Doron, 2014-12-01 Dementia is a topic of enormous human medical economic legal and ethical importance Its importance grows as more of us live longer The legal and ethical problems it raises are complex intertwined and under discussed This book brings together contributions from clinicians lawyers and ethicists all of them world leaders in the field of dementia and is a comprehensive scholarly yet accessible library of all the main and many of the fringe perspectives It begins with the medical facts what is dementia Who gets it What are the current and future therapeutic and palliative options What are the main challenges for medical and nursing care The story is then taken up by the ethicists who grapple with questions such as is it legitimate to lie to dementia patients if that is a kind thing to do Who is the person whose memory preferences and personality have all been transformed by their disease Should any constraints be placed on the sexual activity of patients Are GPS tracking devices an unpardonable interference with the patient's freedom These issues and many more are then examined through legal lenses The book closes with accounts from dementia sufferers and their carers It is the first and only book of its kind and the authoritative text This title is included in Bloomsbury Professional's Family Law online service *Home or Nursing Home, 2nd Edition* , Dictionary of Nursing Theory and Research Bethel Ann Powers, Thomas Knapp, 2010-12-10 Designated a Doody's Core Title Praise for the previous

edition This reference is valuable to scholars at all levels of nursing and is especially useful to researchers With this volume at hand consumers of research and theory will learn more easily and quickly Molly Mickey Dougherty PhD RN Professor of Nursing University of North Carolina Editor Nursing Research What distinguishes this Dictionary from others are its attention to the diversity in inquiry and distinctively nursing takes on key concepts in theory and research This Dictionary will be a welcome addition to the libraries of both new and experienced researchers Margarete Sandelowski Cary C Boshamer Distinguished Professor University of North Carolina at Chapel Hill The fourth edition of this classic dictionary for understanding traditional and new concepts in nursing theory and research encompasses the considerable changes that have occurred in the clinical health sciences since the previous edition was published It includes updates and new references for entries from the previous edition and information related to developing areas of research and practice New content that reflects nursing priorities in research and theory development in the current interprofessional health care environment is featured This book remains an invaluable reference for nursing students researchers theoreticians and scholars Key features Includes new and updated entries on developing national and international research trends such as translational research implementation science and comparative effectiveness research Contains content related to high priority research areas such as biological and biobehavioral research outcomes research health services research and participatory models of research Presents cross references and citations from relevant multinational nursing and interdisciplinary literature sources Incorporates information based on the scrutiny of students and faculty to ensure utmost clarity Handbook of Primary Care Ethics Andrew Papanikitas, John Spicer, 2017-09-25 With chapters revolving around practical issues and real world contexts this Handbook offers much needed insights into the ethics of primary healthcare An international set of contributors from a broad range of areas in ethics and practice address a challenging array of topics These range from the issues arising in primary care interactions to working with different sources of vulnerability among patients from contexts connected with teaching and learning to issues in relation to justice and resources The book is both interdisciplinary and inter professional including not just standard philosophical clinical ethics but also approaches using the humanities clinical empirical research management theory and much else besides This practical handbook will be an invaluable resource for anyone who is seeking a better appreciation and understanding of the ethics in of and for primary healthcare That includes clinicians and commissioners but also policymakers and academics concerned with primary care ethics Readers are encouraged to explore and critique the ideas discussed in the 44 chapters whether or not readers agree with all the authors views this volume aims to inform educate and in many cases inspire Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license *Ethics, Law, and Aging Review, Volume 10* Marshall B. Kapp, 2004-12-06 Although the topic of decision making capacity and older persons has been discussed in the literature there still is much to be learned about it theoretically and practically Experts continue to disagree

about which standards are important for assessing decision making capacity Questions such as When should a capacity assessment be done on an older person and by whom are covered by the editors Topics included in this volume are the application of an original framework for ethical decision making in long term care an elder s capacity to decide to remain living alone in the community the quest for helpful standardized instruments for evaluating decision making capacity and end of life liability issues

Handbook of LGBT Elders Debra A. Harley,Pamela B. Teaster,2015-08-05 This groundbreaking resource presents a wealth of findings and perspectives previously unseen in the LGBT literature Its focus on psychological sociopolitical and care delivery issues affecting LGBT elders reveals both the nuanced interplay between diverse sources of identity and multiple sources of stigma and discrimination Specific chapters highlight challenges and resiliencies impacting subpopulations e g racial groups veterans immigrants examine employment and advocacy issues discuss later life concerns in context and offer guidelines for relevant ethical practice Contributors represent a wide range of fields from psychiatry and gerontology to public health and public policy reflecting the scope and needs of this diverse and complex population Among the topics in the Handbook Family relationships of older LGBT adults The intersection of identities race age sexuality and care network Bisexuality an invisible community among LGBT elders Implications of the Supreme Court ruling on same sex marriage No money no work and you re old Disabilities among LGBT elders responses of medicine public health rehabilitation and social work Handbook of LGBT Elders is an essential reference for mental health professionals psychologists and social workers who work with the LGBT community and the elderly as well as researchers interested in the LGBT community and aging

Applied Ethics in Nursing Vicki D. Lachman,2006 Print CourseSmart Special Care Units for People with Alzheimer's and Other Dementias ,1992 Overview and policy implications Nursing home residents with dementia characteristics and problems Special care units for people with dementia findings from descriptive and from evaluative studies Regulations and guidelines for special care units Regulations and interpretations of regulations that interfere with the design and operation of special care units

Clinical Ethics Consultation John-Stewart Gordon,2016-05-23 This volume brings together researchers from different European countries and disciplines who are involved in Clinical Ethics Consultation CEC The work provides an analysis of the theories and methods underlying CEC as well a discussion of practical issues regarding the implementation and evaluation of CEC The first section deals with different possible approaches in CEC The authors explore the question of how we should decide complex cases in clinical ethics that is which ethical theory approach or method is most suitable in order to make an informed ethical decision It also discusses whether clinical ethicists should be ethicists by education or rather well trained facilitators with some ethical knowledge The second chapter of this book focuses on practical aspects of the implementation of CEC structures The analysis of experienced clinical ethicists refers to macro and micro levels in both developed and transitional countries Research on the evaluation of CEC is at the centre of the final chapter of this volume In this context conceptual as well as empirical challenges with respect

to a sound approach to judgements about the quality of the work of CECs are described and suggestion for further research in this area are made In summary this volumes brings together theorists and healthcare practitioners with expertise in CEC In this respect the volume serves as good example for a multi and interdisciplinary approach to clinical ethics which combines philosophical reasoning and empirical research

Special care units for people with Alzheimer's and other dementias : consumer education, research, regulatory, and reimbursement issues. , Medical Ethics in Health Care Chaplaincy Walter Moczyński, Hille Haker, Katrin Bentele, 2009 Medical Ethics in Health Care Chaplaincy is a response to the new challenges spiritual care providers are confronted with in a profession that has faced dramatic change in function and scope over the last few decades The rich collection of essays brings together the experience approaches and research of many US and German scholars in the area of ethics medicine theology psychology and spiritual care This is an invaluable resource addressing the many spiritual religious and ethical issues in providing care to the sick and dying for hospital chaplains clergy health care professionals teachers academics ethics committee members and students in medical ethics theology and or religious studies

Long-Term Management of Dementia Douglas Scharre, 2016-04-19 With people living longer dementia is now at the forefront of medical research In answer to this changing trend Long Term Management of Dementia presents a stand alone resource for diagnosis treatment and management issues for the patient suffering from this debilitating disease Topics covered include Social legal economic and ethical dilem

Ethics, Law, and Aging Review, Volume 9 Marshall B. Kapp, JD, MPH, FCLM, 2003-08-15 This volume explores the concept of safety as applied in the long term care context Chapters examine the way in which the quest for safety may work either synergistically or adversely upon other worthy social goals Among the initiatives considered are promoting the decision making autonomy of patients clients and their surrogates enhancing the quality of care and quality of life available to long term care residents and providing fair compensation for injured victims when serious harm occurs Questions addressed that are of concern to legal and ethical theorists social science researchers and patient client advocates include To what extent do litigation and or regulation accomplish the safety and other legitimate objectives of public policy in the long term care arena Do the costs of various approaches outweigh the benefits in promoting safety and other goals How do litigation and regulation compare with alternative approaches to achieving the same goals in terms of an acceptable cost benefit balance

Evidence-based Practice in Nursing & Healthcare Bernadette Mazurek Melnyk, Ellen Fineout-Overholt, 2011 Bernadette Mazurek Melnyk and Ellen Fineout Overholt are creators of the ARCC Advancing Research and Clinical practice through close Collaboration Model an innovative strategy for implementing and sustaining evidence based practice in healthcare systems The ARCC Model is cited as an exemplar of education in evidence based practice in the Board on Health Care Services and the Institute of Medicine s book Health Professions Education A Bridge to Quality McInyk and Fineout Overholt s book should be required reading in all graduate programs Their text has provided a blueprint for the future of nursing practice and a rigorously

substantiated and clearly described means for clinicians educators and administrators to participate in improving quality of care Janet D Allan PhD RN FAAN Dean and Professor University of Maryland School of Nursing Evidence based Practice in Nursing Healthcare A Guide to Best Practice has been instrumental in developing a culture of evidence based practice at Barnes Jewish Hospital It is fundamental to our curriculum provided to all levels of staff from new graduate nurses to the highest levels of hospital leadership Dr Patricia Potter RN PhD FAAN Dr Gail Rea RN PhD CNE Dr Karen Balakas RN PhD CNE Jennifer Williams MSN RN ACNS BC Elizabeth Pratt MSN RN ACNS BC Evidence Equals Excellence group at Barnes Jewish Hospital and Barnes Jewish School of Nursing at Goldfarb Evidence based Practice in Nursing Healthcare A Guide to Best Practice is an exemplary text that spans the continuum of nursing evidence to support best practice Utilizing this text with undergraduate RN to BSN and graduate nursing students it is the ONLY text that demonstrates how to retrieve read and analyze evidence whether it is published as an individual study systematic review meta analysis best practice guideline or outcomes management report Students learn how to utilize multiple complex databases and websites as they move through each chapter And they experience dissemination of evidence through the development of presentations publications posters and grants This is truly a remarkable book that embraces evidence as the basis for nursing practice and patient centered care and safety Having used this text with more than 1000 students over the past five years I can honestly say that I have found no other text that facilitates learning and development of clinical judgment that is grounded in valid reliable and applicable evidence This is a keeper Alice E Dupler JD APRN BC Clinical Associate Professor Washington State University College of Nursing I have used the book since I developed the Evidence based Practice course for our College of Nursing in Fall 2007 It was the first course of its kind at Indiana State University It has been well received and the preferred course for all nursing graduate students for completion of their final scholarly projects The text was essential in developing the course and provides the foundation and guidance that the students need to develop their Evidence Based Practice projects the students love the text Susan Eley PhD RN FNP BC Assistant Professor Director FNP Program Indiana State University

Transforming Palliative Care in Nursing Homes Mercedes Bern-Klug, 2010-02-12 The teacher and gerontological social work scholar Mercedes Bern Klug joins experts on nursing law medicine sociology and social work to provide a thorough understanding of nursing home palliative care Their broad definition of palliative care treats comfort care as appropriate across the illness experience not just at the end of life Because a majority of nursing home residents are older adults facing multiple advanced chronic conditions this book is grounded in the provision of palliative care especially palliative psychosocial care Yet its practice recommendations can also be applied to other long term care settings such as assisted living The contributors combine scholarship with practical wisdom in each chapter mixing reviews of scholarly literature with insights gleaned from clinical practice Chapter topics comply with the eight domains of palliative care developed by the National Consensus Project for Quality Palliative Care Some focus on care of the resident while others concern the resident s

family A special section addresses self care for nursing home staff members and another discusses nursing home rituals to mark the death of a resident Bern Klug concludes with an overview of the factors that will shape the future of palliative care for advanced chronic illness

ICT for Health, Accessibility and Wellbeing George Angelos Papadopoulos,Achilleas Achilleos,Edwige Pissaloux,Ramiro Velázquez,2023-03-29 This book constitutes the refereed post conference proceedings of the Second International Conference on ICT for Health Accessibility and Wellbeing IHAW 2022 held in Larnaca Cyprus in December 2022 The revised 14 full papers and 3 short papers presented were carefully selected from 33 submissions The papers are thematically arranged in the following sections Visual Impairment and ICT for Mobility ICT and Student Health ICT and Wellbeing and ICT Health prevention

Assessing the Nursing and Care Needs of Older Adults Helen Taylor (PhD.),2005 Health resources are becoming increasingly constrained So it is essential that professionals and the public recognise the need to work together in establishing local priorities and collaborate in their implementation Priority Setting and The Public challenges many widely accepted beliefs and perceptions It links together academic literature critical overviews of methods and approaches with practical applications and original research It shows the different approaches to engaging the public challenges and how progress can be achieved A wide number of methods from a range of disciplines are described reviewed and guidance is given on factors to consider for selection This book is essential reading for all health service and primary care organisations especially those responsible for resource allocation clinical governance and public health
