Octovian Medieval Studies:

Thinking Medieval Romance Katherine C. Little, Nicola McDonald, 2018-11-10 Medieval romances with their magic fountains brave knights and beautiful maidens have come to stand for the Middle Ages more generally This close connection between the medieval and the romance has had consequences for popular conceptions of the Middle Ages an idealized fantasy of chivalry and hierarchy and also for our understanding of romances as always already archaic part of a half forgotten past And yet romances were one of the most influential and long lasting innovations of the medieval period To emphasize their novelty is to see the resources medieval people had for thinking about their contemporary concern and controversies whether social order Jewish Christian relations the Crusades the connectivity of the Mediterranean women's roles as mothers and how to write a national past This volume takes up the challenge to think romance investigating the various ways that romances imagine reflect and describe the challenges of the medieval world **Narrating the Crusades** Lee Manion, 2014-04-24 The first study to demonstrate how English literature continued to engage with crusading from medieval romances right through to Shakespeare **Octovian Emperor** Frances McSparran, 1979 *Cultural Translations in Medieval Romance* Victoria Flood, Megan G. Leitch, 2022 New approaches to this most fluid of medieval genres considering in particular its reception and transmission Romance was the most popular secular literature of the Middle Ages and has been understood most productively as a genre that continually refashioned itself The essays collected in this volume explore the subject of translation both linguistic and cultural in relation to the composition reception and dissemination of romance across the languages of late medieval Britain Ireland and Iceland In taking this multilingual approach this volume proposes a re centring and extension of our understanding of the corpus of medieval Insular romance which although long considered extra canonical has over the previous decades acquired something approaching its own canon a canon which we might now begin to unsettle and of which we might ask new questions The topics of the essays gathered here range from Dafydd ap Gwilym and Walter Map to Melusine and English Trojan narratives and address topics from women and merchants to werewolves and marvels Together they position the study of romance in translation in relation to cross border and cross linguistic transmission and reception and alongside the generic re imaginings of romance both early and late that implicate romance in new linguistic cultural and social networks The volume also shows how even where linguistic translation is not involved we can understand the ways in which romance moved across cultural and social boundaries and incorporated elements of different genres into its own capacious and malleable frame as types of translation in terms of learning or power or both *The Cambridge Medieval History volumes 1-5* , **The Cambridge Medieval History Collection** J.B. Bury, Norman Baynes, Louis Halphen, William Miller, Charles Diehl, 2024-02-22 The Cambridge Medieval History Collection is a fantastic and comprehensive history of medieval Europe Featuring Volume 1 The Christian Roman Empire And The Foundation Of The Teutonic Kingdoms Volume 2 The Rise Of The Saracens And The Foundation Of

W. Previté-Orton, 1975-07-24 *Negotiating Boundaries in Medieval Literature and Culture* Valerie B. Johnson, Kara L.
