Ophthalmic Literature, 1974 *Pathology of the Eye* G.O.H. Naumann, D.J. Apple, 2012-12-06 It is indeed a pleasure to write a foreword for this spectacular book which represents a landmark in the history of ocular pathology Not since the three volumes of the Henke Lubarsch handbook appeared forty years ago has anything like this come on the market This book represents a comprehensive thorough and up to date clinically oriented textbook on ocular pathology We are all indebted to the senior author who is now professor of ophthalmology at the University of Erlangen who presents us here with the fruit of decades of industrious endeavors We also have to be grateful to the American ophthalmic pathologist Dr David Apple who as one of the main collaborators of the German edition has now provided us with the English translation The book has a twofold purpose First it is meant to be a source of instruction for

ophthalmologists and pathologists For that purpose it is beautifully illustrated both by clinical pictures and by excellent photomicro graphs and electromicroscopic pictures Most valuable from a didactic point of view are the colored schematic drawings and the many tables These two features are practically unique and should help any neophyte in grasping the principles of ocular pathology      *The Wills Eye Hospital Atlas of Clinical Ophthalmology* William Tasman, Edward A. Jaeger, 2001 The updated Second Edition of this atlas is the definitive pictorial guide to differential diagnosis and treatment of virtually every presenting condition seen in ophthalmologic practice Specialists from the prestigious Wills Eye Hospital share their expertise in diagnosing and treating congenital and acquired disorders affecting the internal and external structures of the eye The superb collection of 1 422 illustrations 1 217 in full color includes sonograms radiographs clinical photographs photomicrographs and anatomic drawings This edition features more information on stem cell and genetic research more radiographic images and explanations of those findings and descriptions of current methods of laser surgery A CD ROM based on this atlas is also available See Media listing Montzka for details The atlas and CD ROM can be purchased together as a money saving package A Brandon Hill recommended title      **Stereoscopic Manual of the Ocular Fundus in Local and Systemic Disease** Frederick C.
