Developmental projects have long been displacing people in large numbers every year but it is only in recent years that the fate of those adversely affected has become an issue of widespread concern requiring urgent action This volume is the scholarly exploration of these critical issues in a wider perspective examining resettlement policies as well as resettlement strategies their strengths their weaknesses the persisting gap between policy and its actual practice and the means to improve resettlement outcomes This volume is well structured into four parts a Displacement and Resettlement in Developmental Projects b Re examining Resettlement Policies c Addressing Resettlement Concerns and d Resettlement in a Globalizing World It goes beyond the common description of resettlement problems and attempts at gaining a deeper understanding of resettlement realities In a separate section the book discusses the hotly debated current issues of resettlement policy and practice in the context of globalization The volume contains original case studies which will bring to academic and policy tables a body of important new ideas that will stimulate debates and also hopefully change and improve current practices The contributors to this volume are eminent scholars including some who have played a vital role in shaping resettlement policies as well as in implementing projects at the grassroots level India - Social Development Report 2008 Hari Mohan Mathur,2008 There are groups who oppose development projects that displace people from their lands and livelihoods and demand that such projects should not be undertaken While this demand is unrealistic the concern to save people is legitimate The real issue then is to undertake development in a way that ensures minimum disruption and helps those relocated to share its benefits This report thus shows the way forward and emphasizes the need to adopt credible policies that minimize displacement properly compensate those relocated to make development possible and give them a permanent stake in project benefits Besides these it takes stock of issues like poverty unemployment health local government and decentralization child labour and how women fare across social indices Complete with a social development index which ranks Indian states this report will be a useful primary source and research tool **Journal of Social and Economic Development** ,2006 With reference to India **Indian Review of Books** ,1998 *Indian National Bibliography* B.
