**Of God Who Comes to Mind** Emmanuel Lévinas, 1998 The thirteen essays collected in this volume investigate the possibility that the word God can be understood now at the end of the twentieth century in a meaningful way Nine of the essays appear in English translation for the first time Among Levinas's writings this volume distinguishes itself both for students of his thought and for a wider audience by the range of issues it addresses Levinas not only rehearses the ethical themes that have led him to be regarded as one of the most original thinkers working out of the phenomenological tradition but he also takes up philosophical questions concerning politics language and religion The volume situates his thought in a broader intellectual context than have his previous works In these essays alongside the detailed investigations of Husserl Heidegger Rosenzweig and Buber that characterize all his writings Levinas also addresses the thought of Kierkegaard Marx Bloch and Derrida Some essays provide lucid expositions not available elsewhere to key areas of Levinas's thought **God and Philosophy** is perhaps the single most important text for understanding Levinas and is in many respects the best introduction to his works **From Consciousness to Wakefulness** illuminates Levinas's relation to Husserl and thus to phenomenology which is always his starting point even if he never abides by the limits it imposes In **The Thinking of Being and the Question of the Other** Levinas not only addresses Derrida's **Speech and Phenomenon** but also develops an answer to the later Heidegger's account of the history of Being by suggesting another way of reading that history Among the other topics examined in the essays are the Marxist concept of ideology death hermeneutics the concept of evil the philosophy of dialogue the relation of language to the Other and the acts of communication and mutual understanding **God, Death, and Time** Emmanuel Lévinas, 2000 This book consists of transcripts from two lecture courses on ethical relation Levinas delivered at the Sorbonne In seeking to explain his thought to students he utilizes a clarity and an intensity altogether different from his other writings

*The Event of the Good* Christopher Buckman, Melissa Bradley, Jack Marsh, James McLachlan, 2025-07-01 Centers on the ethics of Emmanuel Levinas aiming to understand this important thinker on his own terms To read Levinas in a Levinasian way means to understand this important thinker on his own terms thinking ethics as first philosophy without reducing his role to that of a contributor to some other discourse such as phenomenology deconstruction or religious traditions other than his own This volume offers a variety of interventions into how the priority of the ethical as formulated by Emmanuel Levinas and seconded by Richard A Cohen one of his preeminent interpreters reorients philosophy to its own questioning indeed to its very sense of itself as meaningful In the decades since Levinas first emerged as a profound and critical voice many have used his thought to illuminate a broad range of philosophical questions Often this has occurred in ways that have deemphasized or altered what is arguably Levinas's most radical gesture reframing philosophy indeed reframing the meaning of meaning via an ethical turn To this end the essays in this volume drawing especially on Cohen's reading of Levinas offer insights into how appropriations and assessments of his philosophy might become more in line with the urgency and full

meaning of his notion of the ethical Whether discussing ethics aesthetics politics or Jewish thought when taken together they enhance our comprehension of ethics and Levinas s philosophy of responsibility Human Conscience and Muslim-Christian Relations Oddbjørn Leirvik,2007-01-24 Leirvik puts forward a discussion of how the notion of conscience may unite Muslim and Christians across religious divides as well as examining the relation between selfhood and otherness in interfaith dialogue Nietzsche and Levinas Jill Stauffer,Bettina Bergo,2009 This work locates multiple affinities between the philosophies of Nietzsche and L vinas finding that both questioned the nature of subjectivity and the meaning of responsibility after the death of God and argued the goodness exists independently of a na ve faith in reason **Letter and the Spirit of Nineteenth-Century American Literature** Thomas Loebel,2005-01-12 Moving back to the trial of Anne Hutchinson in Puritan Massachusetts and the captivity narrative of Mary Rowlandson in order to analyse theo political signification Loebel provides a new context for examining the politically performative function of language in such texts as The Scarlet Letter Uncle Tom s Cabin and Waiting for the Verdict He also argues however that a specific theo logic manifests itself in the political rhetoric of the nation such that the afterlife of the New Jerusalem resonates not just in the Blessings of Liberty enshrined in the Constitution but also in the shift from a religious understanding of union with Jesus to that of the Union of States as a nation Loebel compares unionist and confederate discourse opening up new ways of theorising representation as a political theological legal and literary issue that has continued currency both in twentieth century literature and in the political discourse of America s global vision such as the axis of evil and the new world order Anyone interested in American literature and culture will view the relationship between ethics and justice differently after reading this book **Cross and Khôra** Marko Zlomislíć,Neal DeRoo,2010-01-01 This volume poses the question of the relationship between the two main influences on the thought of John D Caputo one of the most well known philosophers of religion working in North America today Jacques Derrida and Jesus Christ Given the seemingly abstract character of Derrida s account of the messianic how can one reconcile deconstruction and the concrete messianism of Christianity as Caputo tries to do over and over again How can one hold together the love of a God willing to be crucified and the dry desert khora which doesn t care This collection of essays from world renowned scholars seeks to illuminate the difficulties inherent in this seemingly contradictory pair of influences With his trademark wit and humor Caputo responds to his interlocutors while clarifying his position on numerous matters of interest to the church and in the academy In addition to dealing with the concern for issues of hermeneutics phenomenology and negative theology for which Caputo has become famous these essays also evaluate Caputo s legacy in fields previously not thought to be affected by his deconstructive version of religion feminism sacramental theology Analytic philosophy of religion and Christology *American Book Publishing Record* ,2004 **Convergence amidst Difference** Calvin O. Schrag,2012-02-01 Calvin O Schrag one of America s leading philosophers traverses the literal and metaphysical boundaries of Bulgaria England France Russia and the Czech Republic and offers a

new examination of hermeneutics phenomenology subjectivity and transnational identity He presents his notion of rationality transversal rationality with unusual clarity and simplicity while encouraging the continuing philosophic dialogue of humankind across cultures

**Is It Righteous to Be?** Emmanuel Lévinas, Jill Robbins, 2001 In the twenty interviews collected in this volume seventeen of which appear in English for the first time Levinas sets forth the central features of his ethical philosophy and discusses biographical matters not available elsewhere

**Judeities** Bettina Bergo, Joseph Cohen, Raphael Zagury-Orly, 2009-08-25 Invited to answer questions about his relationship to Judaism Jacques Derrida spoke through Franz Kafka As for myself I could imagine another Abraham He explores the movement between growing up Jewish becoming Jewish and Jewish being or existence In his essay *The Other Abraham* which appears here in English for the first time he imagines other Abrahams in light of the proclaimed universalism of philosophy and its recent fragmentation into philosophemes Thus we no longer confront Judaism but Judeity multiple Judaisms and Jewish existences manifold ways of being and writing as a Jew in Derrida's case as a French speaking Algerian deprived of then restored to French nationality in the 1940s Contributions contrast Derrida's thought with philosophical predecessors such as Rosenzweig Levinas Celan and Scholem and trace confluences between deconstruction and Kabbalah Derrida's relationship to the universalist aspirations in contemporary theology is also discussed and an evaluation is offered of his late autobiographical writings

Prophets Without Vision Hedda Ben-Bassat, 2000-06 Ben Bassat English Tel Aviv U discusses crises of ideology and identity in the fiction of contemporary American authors She contends that the fiction of John Updike Flannery O'Connor Grace Paley James Baldwin and Alice Walker has absorbed a diversity of prophetic modes from a diversity of

*The Ruse of Techne* Dimitris Vardoulakis, 2024-09-03 *The Ruse of Techne* offers a reappraisal of Heidegger's entire work by focusing on the forms of activity he regards as separate from instrumentality Non instrumental activities like authenticity poetry and thinking in short the ineffectual are critical for Heidegger as they offer the only path to the truth of being throughout his work By unearthing the source of the conception of non instrumental action in Heidegger's reading of Aristotle Vardoulakis elaborates how it forms part of Heidegger's response to an old problem namely how to account for difference after positing a single and unified being that is not amenable to change He further demonstrates that an action without ends and effects leads to an ethics and politics rife with difficulties and contradictions that only become starker when compared to other responses to the same problem that we find in the philosophical tradition and which rely on instrumentality Heidegger's conception of an action without ends or effect forgets the role of instrumentality in the tradition that posits a single unified being And yet the ineffectual has had a profound influence in how continental philosophy determines the ethical and the political since World War II The critique of the ineffectual in Heidegger is thus effectively a critique of the conception of praxis in continental philosophy Vardoulakis proposes that it is urgent to undo the forgetting of instrumentality if we are to conceive of a democratic politics and an ethics fit to respond to the challenges of high capitalism

Newheiser,2019-12-19 Uses premodern theology and postmodern theory to show the endurance of religious and political commitments through the practice of hope      **The British National Bibliography** Arthur James Wells,2006      **Breaking the Spell** Daniel C. Dennett,2006-02-02 The New York Times bestseller a crystal clear constantly engaging Jared Diamond exploration of the role that religious belief plays in our lives and our interactions For all the thousands of books that have been written about religion few until this one have attempted to examine it scientifically to ask why and how it has shaped so many lives so strongly Is religion a product of blind evolutionary instinct or rational choice Is it truly the best way to live a moral life Ranging through biology history and psychology Daniel C Dennett charts religion s evolution from wild folk belief to domesticated dogma Not an antireligious screed but an unblinking look beneath the veil of orthodoxy Breaking the Spell will be read and debated by believers and skeptics alike      Bibliographisch repertorium van de wijsbegeerte ,1998

Dostoevsky's Incarnational Realism Paul J. Contino,2020-08-17 In this book Paul Contino offers a theological study of Dostoevsky s final novel The Brothers Karamazov He argues that incarnational realism animates the vision of the novel and the decisions and actions of its hero Alyosha Fyodorovich Karamazov The book takes a close look at Alyosha s mentor the Elder Zosima and the way his role as a confessor and his vision of responsibility to all for all develops and influences Alyosha The remainder of the study which serves as a kind of reader s guide to the novel follows Alyosha as he takes up the mantle of his elder develops as a monk in the world and at the end of three days ascends in his vision of Cana The study attends also to Alyosha s brothers and his ministry to them Mitya s struggle to become a new man and Ivan s anguished groping toward responsibility Finally Contino traces Alyosha s generative role with the young people he encounters and his final message of hope      The Seeds of Things Jonathan Goldberg,2009-08-25 The title of this book translates one of the many ways in which Lucretius names the basic matter from which the world is made in De rerum natura In Lucretius and in the strain of thought followed in this study matter is always in motion always differing from itself and yet always also made of the same stuff From the pious Lucy Hutchinson s all but complete translation of the Roman epic poem to Margaret Cavendish s repudiation of atomism but not of its fundamental problematic of sameness and difference a central concern of this book is how a thoroughgoing materialism can be read alongside other strains in the thought of the early modern period particularly Christianity A chapter moves from Milton s monism to his angels and their insistent corporeality Milton s angels have sex and throughout this study emphasizes the consequences for thinking about sexuality offered by Lucretian materialism Sameness of matter is not simply a question of same sex sex and the relations of atoms in Cavendish and Hutchinson are replicated in the terms in which they imagine marriages of partners who are also their doubles Likewise Spenser s knights in the 1590 Faerie Queene pursue the virtues of Holiness Temperance and Chastity in quests that take the reader on a path of askesis of the kind that Lucretius recommends and that Foucault studied in the final volumes of his history of sexuality Although English literature is the book s main concern it first contemplates relations between Lucretian matter and Pauline flesh by

way of Tintoretto's painting *The Conversion of St Paul*. Theoretical issues raised in the work of Agamben and Badiou among others lead to a chapter that takes up the role that Lucretius has played in theory from Bergson and Marx to Foucault and Deleuze. This study should be of concern to students of religion, philosophy, gender, and sexuality especially as they impinge on questions of representation.

**The Wreckage of Intentions** David Alff, 2017-09-12

The seventeenth and eighteenth centuries in Britain saw the proposal of so many endeavors called projects, a catchphrase for the daring, sometimes dangerous practice of shaping the future that Daniel Defoe dubbed his era a Projecting Age. These ideas spanned a wide variety of scientific, technological, and intellectual interventions intended for the betterment of England. But for all the fanfare surrounding them, few such schemes actually materialized, leaving scores of defunct visions from Defoe's own attempt to farm cats for perfume to Mary Astell's proposal to charter a college for women to countless ventures for improving land, streamlining government, and inventing new consumer goods. Taken together, these failed plans form a compelling alternative history of a Britain that might have been. *The Wreckage of Intentions* offers a comprehensive and critical account of projects exploring the historical memory surrounding these concrete yet incomplete efforts to advance British society during a period defined by revolutions in finance and agriculture, the rise of experimental science, and the establishment of constitutional monarchy. Using methods of literary analysis, David Alff shows how projects began as written proposals, circulated as print objects, spurred physical undertakings, and provoked responses in the realms of poetry, fiction, and drama. Mapping this process discloses the ways in which eighteenth-century authors applied their faculties of imagination to achieve finite goals and in so doing devised new ways of seeing the world through its future potential. Approaching old projects through the language, landscapes, data, and personas they left behind, Alff contends this vision was and remains vital to the functions of statecraft, commerce, science, religion, and literature.
